

Information Center, Waterside Mall, Room M-1500, 1st Floor, 401 M Street, SW, Washington, DC 20460, telephone (202) 260-7548, FAX (202) 260-4400. A reasonable fee may be charged for copying.

FOR FURTHER INFORMATION CONTACT: Mr. Mark Morris at (919) 541-5416, Organic Chemicals Group, Emission Standards Division (MD-13), U.S. Environmental Protection Agency, Research Triangle Park, North Carolina 27711, e-mail (morris.mark@epa.gov).

SUPPLEMENTARY INFORMATION: Affected entities: Entities potentially affected by this action are those which manufacture or import automobile refinish coatings or coating components for sale or distribution in the United States, including the District of Columbia and all United States territories.

Title: National Volatile Organic Compound Emission Standards for Automobile Refinish Coatings; OMB Control No 2060-0353; EPA ICR No. 1765.01; expires January 31, 2000.

Abstract: The information collection includes initial and periodic reporting necessary for the EPA to ensure compliance with Federal standards for volatile organic compounds in automobile refinish coatings. Respondents are manufacturers and importers of automobile refinish coatings and coating components. Responses to the collection are mandatory under 40 CFR part 59, subpart B—National Volatile Organic Compound Emission Standards for Automobile Refinish Coatings. All information submitted to the EPA for which a claim of confidentiality is made will be safeguarded according to the Agency policies set forth in 40 CFR part 2, subpart B—Confidentiality of Business Information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for the EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15.

The EPA would like to solicit comments to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(ii) Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology (e.g., permitting electronic submission of responses).

Burden Statement: Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information. Total industry burden is estimated to be 22 hours per year, at a total labor cost of \$1,100 per year. Labor costs were estimated based on Table 2 of the Bureau of Labor Statistics (BLS) Employment Cost Trends. After adding overhead costs of 100 percent to the BLS figures, the resulting hourly rates for management, technical, and clerical labor are \$69, \$48, and \$32 respectively. There are no capital costs associated with this collection. Burden was calculated based on the following assumptions:

(i) Initial Notification Reports will have been submitted by all regulated entities (approximately 30) prior to expiration of the existing ICR. Therefore, the burden calculation is based on one new initial notification per year by a new regulated entity.

(ii) Reading the rule to obtain the recordkeeping and reporting instructions would require 2 hours.

(iii) Completion of the Initial Notification Report would require 2 hours.

(iv) Notification of a change in date coding systems would require 2 hours.

Dated: August 15, 1999.

John S. Seitz,

Director, Office of Air Quality Planning and Standards.

Agency Information Collection Activities; OMB Responses

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notices.

SUMMARY: This document announces the Office of Management and Budget's (OMB) responses to Agency clearance requests, in compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*). An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15.

FOR FURTHER INFORMATION CONTACT: Sandy Farmer at (202) 260-2740, or E-mail at "farmer.sandy@epa.gov", and please refer to the appropriate EPA Information Collection Request (ICR) Number.

SUPPLEMENTARY INFORMATION:

OMB Responses to Agency Clearance Requests

OMB Approvals

EPA ICR No. 1789.02; NESHAP for Source Category: Natural Gas Transmission and Storage; in 40 CFR part 63, subpart HHH; was approved 07/22/99; OMB No. 2060-0418; expires 07/31/2002.

EPA ICR No. 1821.02; National Emission Standards for Hazardous Air Pollutants for Steel Pickling, HCl Process Facilities and Hydrochloric Acid Regeneration; in 40 CFR part 63, subpart CCC; was approved 07/22/99; OMB No. 2060-0414; expires 07/31/2002.

EPA ICR No. 1811.02; National Emission Standards for Hazardous Air Pollutants for Polyester Polyols Production; in 40 CFR part 63, subpart PPP; was approved 07/22/99; OMB No. 2060-0415; expires 07/31/2002.

EPA ICR No. 1788.02; NESHAP for Source Category: Oil and Gas Production; in 40 CFR part 63, subpart HH; was approved 07/22/99; OMB No. 2060-0417; expires 07/31/2002.

EPA ICR No. 1856.02; National Emission Standards for Hazardous Air Pollutants for Primary Lead Smelters; in 40 CFR part 63, subpart TTT; was approved 07/22/99; OMB No. 2060-0419; expires 07/31/2002.

EPA ICR No. 1888.01; National Roster for Environmental Dispute Resolution

and Consensus-Building Professional; was approved 07/29/99; OMB No. 2010-0030; expires 07/31/2002.

EPA ICR No. 1801.02; National Emission Standards for Hazardous Air Pollutants for Portland Cement Manufacturing; in 40 CFR part 63, subpart LLL; was approved 08/06/99; OMB No. 2060-0416; expires 08/31/2002.

EPA ICR No. 0161.08; Foreign Purchaser Acknowledgment Statement of Unregistered Pesticides; in 40 CFR part 168, subpart D; was approved 08/16/99; OMB No. 2070-0027; expires 08/31/2002.

EPA ICR No. 1081.06; NESHAP for Inorganic Arsenic Emissions from Glass Manufacturing Plants; in 40 CFR part 61, subpart N; was approved 08/16/99; OMB No. 2060-0043; expires 08/31/2002.

EPA ICR No. 1054.07; NSPS for Petroleum Refineries; in 40 CFR part 60, subpart J; was approved 08/17/99; OMB No. 2060-0022; expires 08/31/2002.

EPA ICR No. 0746.04; NSPS for Calciners and Dryers in Mineral Industries; in 40 CFR part 60, subpart UUU; was approved 08/18/99; OMB No. 2060-0251; expires 08/31/2002.

EPA ICR No. 1057.08; NSPS for Sulfuric Acid Plants; in 40 CFR part 60, subpart H, was approved 08/18/99; OMB No. 2060-0041, expires 08/31/2002.

Extensions of Expiration Dates

EPA ICR No. 0095.10; Precertification and Testing Exemption Reporting and Recordkeeping Requirements; in 40 CFR part 85, subparts R and P, part 89, subpart G, and part 90, subpart J; OMB No. 2060-0007; on 07/26/99 OMB extended the expiration date through 01/31/2000.

EPA ICR No. 1619.02; EPA Indoor Environmental Quality Questionnaire; OMB No. 2060-0244; on 07/27/99 OMB extended the expiration date through 11/30/99.

EPA ICR No. 1131.05; NSPS for Glass Manufacturing Plants; in 40 CFR part 60, subpart CC; OMB No. 2060-0054; on 07/30/99 OMB extended the expiration date through 09/30/99.

EPA ICR No. 0983.05; NSPS for Petroleum Refineries; in 40 CFR part 60, subpart GGG; OMB No. 2060-0067; on 08/10/99 OMB extended the expiration date through 11/30/99.

EPA ICR No. 1696.02; Registration of Fuels and Fuel Additives: Health-Effects Research Requirements for Manufacturers; in 40 CFR part 79, subpart F; OMB No. 2060-0297; on 07/29/99 OMB extended the expiration date through 10/31/99.

OMB's Comments Filed

EPA ICR No. 1915.01; Pesticides: Tolerance Processing Fees (Proposed Rule); OMB filed comments 08/16/99.

Actions Withdrawn

EPA ICR No. 1892.01; Children's Total Exposure to Persistent Pesticides and Other Persistent Organic Pollutants; EPA withdrew this collection from OMB on 07/30/99.

EPA ICR No. 1861.01; Collection of Information for Atmospheric Pollution Prevention Division Programs; Request for Generic Clearance; EPA withdrew this collection from OMB on 08/05/99.

Dated: August 23, 1999.

Richard T. Westlund,

Acting Division Director, Regulatory Information Division.

Agency Information Collection Activities: Submission for OMB Review; Comment Request; Industry Detailed Questionnaire: Phase II Cooling Water Intake Structures

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: Industry Detailed Questionnaire: Phase II Cooling Water Intake Structures, EPA ICR No. 1838.01. The ICR describes the nature of the information collection and its expected burden and cost; and in this case, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before September 27, 1999.

FOR FURTHER INFORMATION CONTACT: Sandy Farmer at EPA by phone at (202) 260-2740, by email at farmer.sandy@epa.gov, or download a copy of the ICR off the Internet at <http://www.epa.gov/icr> and refer to EPA ICR No. 1838.01.

SUPPLEMENTARY INFORMATION:

Title: Industry Detailed Questionnaire: Phase II Cooling Water Intake Structures (EPA ICR No. 1838.01). This is a new collection.

Abstract: In accordance with the Paperwork Reduction Act ("PRA") (44 U.S.C. 3501, *et seq.*), this notice announces the submission of an Information Collection Request (ICR) entitled, "Industry Detailed Questionnaire: Phase II Cooling Water Intake Structures", from the U.S. Environmental Protection Agency (EPA or the "Agency") to the Office of Management and Budget (OMB) for review and approval. EPA requests approval to conduct a survey of facilities potentially subject to section 316(b) of the Clean Water Act (CWA), 33 U.S.C. 1326(b). Section 316(b) provides that any standard established pursuant to sections 301 or 306 of the CWA and applicable to a point source shall require that the location, design, construction, and capacity of cooling water intake structures reflect the best technology available (BTA) for minimizing adverse environmental impact. Such impacts occur as a result of impingement (where fish and other aquatic life are trapped on technologies at the entrance to cooling water intake structures) and entrainment (where aquatic organisms, eggs, and larvae are taken into the cooling system, passed through the heat exchanger, and then pumped back out with the discharge from the facility). The detailed industry questionnaire is the second step of a two-step regulatory information collection effort. The screener questionnaire represented the first step. On December 24, 1998, OMB approved the Industry Screener Questionnaire: Phase I Cooling Water Intake Structures (OMB number 2040-0203). EPA will use the information collected from the detailed questionnaire to better characterize the design, location, construction, capacity, and operation of cooling water intake structures at facilities throughout the United States and to assess economic impacts from any regulatory effort affecting those facilities. The baseline technical data will help EPA frame regulatory options and define further research needs regarding the relationship of cooling water intake structures, intake technologies, and environmental impacts. The survey will also collect economic data on facility ownership, major activities, markets and finances. The Agency will use this information to assess facility-level and firm-level impacts of complying with the proposed cooling water intake structure regulations. In order to fully evaluate costs associated with a proposed section 316(b) regulation, EPA will consider the costs associated with performing section 316(b) demonstration studies, additions
