Notice Pursuant To The National Cooperative Research and Production Act of 1993—Supercomputer Automotive Applications Partnership

Notice is hereby given that, on October 6, 1998, pursuant to Section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* ("the Act"), Supercomputer Automotive Applications Partnership has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing changes in the nature and objectives of the venture. The notifications were filed for the purpose of extending the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances. Specifically, the parties have agreed to add the following as an additional research objective for the group: to develop vehicle component models and first generation analytical tools, and then use those tools to (1) perform first order trade-off studies to rank major components and (2) conduct computer simulations to evaluate various vehicle configurations. These analytical tools are needed to plan for the most efficient deployment of resources to reach the goals of the Partnership for a New Generation of Vehicle, the USCAR program designed to improve vehicle

technology and vehicle manufacturing processes, as well as develop a prototype next generation vehicle. The tolls will also be useful in program management and vehicle integration as the PNGV program moves forward. If successful, PNGV will develop commercially-viable vehicle technology that, over the long-term, can preserve personal mobility while further reducing the impact of cars and light trucks on the environment and reducing the nation's dependence on imported petroleum.

No other changes have been made in either the membership or planned activity of the group research project. Membership in this group research project remains open, and Supercomputer Automotive Applications Partnership intends to file additional written notification disclosing all changes in membership.

On July 6, 1993, Supercomputer Automotive Applications Partnership filed its original notification pursuant to Section 6(a) of the Act. The Department of Justice published a notice in the **Federal Register** pursuant to Section 6(b) of the Act on May 27, 1994 (59 FR 27580).

DEPARTMENT OF LABOR

Employment and Training Administration

Notice of Determinations Regarding Eligibility To Apply for Worker Adjustment Assistance and NAFTA Transitional Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974, as amended, the Department of Labor herein presents summaries of determinations regarding eligibility to apply for trade adjustment assistance for workers (TA-W) issued during the period of January, 1999.

In order for an affirmative determination to be made and a certification of eligibility to apply for worker adjustment assistance to be

issued, each of the group eligibility requirements of Section 222 of the Act must be met.

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated,

(2) That sales or production, or both, of the firm or subdivision have decreased absolutely, and

(3) That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

Negative Determinations for Worker Adjustment Assistance

In each of the following cases the investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.
