BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP99-522-000]

Transwestern Pipeline Company; Notice of Availability of the Environmental Assessment For The Proposed Gallup Expansion Project

August 25, 1999.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) on the natural gas pipeline facilities proposed by Transwestern Pipeline Company (Transwestern) in the above-referenced docket.

The EA was prepared to satisfy the requirements of the National Environmental Policy Act. The staff concludes that approval of the proposed project, with appropriate mitigating measures, would not constitute a major Federal action significantly affecting the quality of the human environment.

The EA assesses the potential environmental effects of the construction and operation of the proposed Gallup Expansion project. Transwestern proposes to construct and operate a new 10,000-horsepower electric motor-driven Gallup Compressor Station near the interconnect between its mainline and San Juan Lateral in McKinley County, New Mexico. Transwestern also proposes to install gas coolers at its Bloomfield and LaPlata "A" Compressor Stations on its San Juan Lateral in San Juan County, New Mexico and LaPlata County, Colorado, respectively.
