Agency Information Collection Activities: Submission for OMB Review; Comment Request; Clean Water Act Section 404 State-Assumed Programs

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: Clean Water Act Section 404 State-Assumed Programs; OMB No. 2040–0168; EPA ICR No. 0220.08; expiration date 10/31/99. The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before October 1, 1999.

FOR FURTHER INFORMATION CONTACT:

Sandy Farmer at EPA by phone at (202) 260–2740, by email at farmer.sandy@epa.gov, or download a copy of the ICR off the Internet at <http://www.epa.gov/icr> and refer to EPA ICR No. 0220.08.

SUPPLEMENTARY INFORMATION:

Title: Clean Water Act Section 404 State-Assumed Programs (OMB Control No. 2040–0168; EPA ICR No. 0220.08) expiring 10/31/99. This is a request for extension of a currently approved collection.

Abstract: The Clean Water Act authorizes states [and tribes] to assume the Section 404 permit program. States/tribes must demonstrate that they meet the statutory and regulatory requirements (40 CFR Part 233) for an approvable program. When EPA has a complete assumption request, the statutory time clock for EPA's decision starts. This information is made available to the other involved federal agencies (Corps of Engineers, Fish and Wildlife Service and National Marine

Fisheries Service) and to the general public for review and comment.

EPA's assumption regulations establish recommended elements that should be included in a state/tribe's permit application, to ensure a thorough analysis of anticipated impacts and to comply with the 404(b)(1) Guidelines. These minimum information requirements are based on the information that must be submitted when applying for a federal Section 404 permit.

EPA is responsible for oversight of assumed programs to ensure that state/tribal programs are in compliance with applicable requirements and that state/tribal permit decisions adequately consider and minimize anticipated impacts. States/tribes must evaluate their programs annually and submit an annual report to EPA assessing their program. EPA's assumption regulations establish minimum requirements for the annual report.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on April 27, 1999 (64 FR 22607); no comments were received.

Burden Statement: This collection of information is separated into three pieces. The annual public reporting and record keeping burden for this collection of information is estimated to average 520 hours to request program assumption, 5 hours to complete a permit application and 80 hours to prepare the annual report. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: States, Tribes, permit applicants.

Estimated Number of Respondents: 20,005.

Frequency of Response: One time; annually.

Estimated Total Annual Hour Burden: 100,667 hours.

Estimated Total Annualized Cost Burden (non-labor): \$0.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondents burden, including through the use of automated collection techniques to the following addresses. Please refer to the EPA ICR No. 0220.08 and OMB Control No. 2040-0168 in any correspondence.
