**AGENCY:** U.S. Army Corps of Engineers, Charleston District, DoD.

**ACTION:** Notice of Availability and Public Hearing.

**SUMMARY:** The U.S. Army Corps of Engineers, Charleston District has prepared a Draft Environmental Impact Statement (DEIS) for the proposed Daniel Island Terminal that will be located in the City of Charleston, Berkeley County, South Carolina. A public hearing will be held to receive oral and written comments on the DEIS. Federal, state and local agencies and interested parties are invited to be present at the hearing.

**DATES:** The public hearing will be held on Wednesday, November 17, 1999. The time and place will be advertised locally via public notice.

**FOR FURTHER INFORMATION CONTACT:** For further information and/or questions about the proposed action and DEIS, please contact Ms. Tina Hadden, Project Manager, telephone (843) 727-4330 or 1-800-208-2054, CESAC-TS-RP, 334 Meeting Street, Charleston, South Carolina.

**SUPPLEMENTARY INFORMATION:** Pursuant to section 102(2)(c) of the National Environmental Policy Act of 1969, as implemented by the Council on Environmental Quality regulations (40 CFR parts 1500-1508), the Charleston District has prepared a DEIS on the proposed marine cargo terminal on Daniel Island which is located in the City of Charleston, Berkeley County, South Carolina. This project is proposed by the South Carolina State Ports Authority (SPA).

**1. Description of Proposed Project**

The proposed project is the creation by the South Carolina State Ports Authority (SCSPA) of a marine cargo terminal complex at Daniel Island in the City of Charleston, Berkeley County, South Carolina, which includes the following components: approximately 1,300 acres of port terminal development at the south end of Daniel Island to include cargo marshaling areas, cargo processing areas, cargo-handling facilities, intermodal rail facilities, and related terminal operating facilities; approximately 7,000 feet of wharf and berthing area on the Cooper River and approximately 5,000 feet of wharf and berthing area of the Wando River; approximately 37 acres of dredged berthing area; associated improvements to the Wando River Federal Channel; approximately 2.5 miles of multi-lane roadway construction between the proposed terminal site and Interstate I-526; approximately 13 miles of rail connecting the proposed terminal facilities to the East Cooper and

Berkeley Railroad; and a rail bridge and road bridge over Beresford Creek.

**2. Alternatives**

The following alternatives were evaluated in the DEIS: No Action; the Proposed Project; a combination of the Wando River side of Daniel Island and a portion of the former Naval Base; a combination of the Cooper River side of Daniel Island, a portion of the Naval Base, and the existing Columbus Street Terminal. Multiple alternative road and rail corridors to serve the alternative terminal locations were also evaluated, as were design alternatives for each of the facilities.

**3. Scoping and Public Involvement Process**

Two scoping meetings were held on June 24, 1997, in order to gather information on the subjects to be studied in detail in the DEIS, one specifically for the Federal and State agencies with regulatory responsibilities and one for the general public. Four public information meetings were held in order to provide an arena for the exchange of information regarding the proposed project and the EIS. These meetings were held in September 1997, December 1997, March 1998 and September 1998. Five community outreach meetings were held. These meetings were held at the request of the community to address specific issues and concerns.

**4. Significant Issues**

Issues associated with the proposed facilities which received a significant level of analysis in the DEIS include, but are not limited to, the potential impacts of the proposed dredging, placement of fill, construction and operation of the proposed terminal and surface transportation facilities, and of induced developments on: wetland resources; upland and aquatic biotic communities; water quality; fish and wildlife values including threatened and endangered species; noise and light levels in areas adjoining the proposed facilities; air quality; land forms and geologic resources; community cohesion; environmental justice; roadway traffic; socioeconomic environment; archaeological and cultural resources; recreation and recreational resources; Section 4(f) and Section 6(f) properties (parks and/or sites of cultural significance); public infrastructure and services; energy supply and natural resources; hazardous wastes and materials; land use; aesthetics; public health and safety; parklands; prime farmlands; ecologically critical areas; navigation;
