SUPPLEMENTARY INFORMATION: On March 23, 1995, EPA published the Final Water Quality Guidance for the Great Lakes System (Guidance) pursuant to section 118(c)(2) of the Clean Water Act, 33 U.S.C. 1268(c)(2). (March 23, 1995, 60 FR 15366). The Guidance, which was codified at 40 CFR part 132, requires the Great Lakes States to adopt and submit to EPA for approval water quality criteria, methodologies, policies and procedures that are consistent with the Guidance. 40 CFR 132.4 and 132.5. EPA is required to approve of the State's submission within 90 days or notify the State that EPA has determined that all or part of the submission is inconsistent with the Clean Water Act or the Guidance and identify any necessary changes to obtain EPA approval. If the State fails to make the necessary changes within 90 days, EPA must publish a document in the **Federal Register** identifying the approved and disapproved elements of the submission and a final rule identifying the provisions of part 132 that shall apply for discharges within the State.

EPA reviewed the submittals from Indiana, Michigan and Ohio for consistency with the Guidance in accordance with 40 CFR 131 and 132.5. EPA determined that certain parts of each submittal are inconsistent with the requirements of the CWA or 40 CFR part 132 and will be subject to EPA disapproval if not corrected. On June 30, 1999 and August 16, 1999, in letters from EPA Region 5 to the Indiana Department of Environmental Management, the Michigan Department of Environmental Quality and the Ohio Environmental Protection Agency, EPA described in detail those provisions determined to be inconsistent with the Guidance and subject to disapproval if not remedied by the State. The inconsistencies relate to the following components of the State's submittals in conformance with section 118(c) of the CWA and 40 CFR part 132: in Indiana, variances, the procedures for evaluating the need for permit limits on specific chemicals, and the procedures for evaluating the need for limits on whole effluent toxicity; in Michigan, the procedures for evaluating the need for limits on whole effluent toxicity; and, in Ohio, the biocriteria narrative provisions and the procedures for evaluating the need for limits on whole effluent toxicity. Based on our review to date, EPA believes that, with the above exceptions, the submissions by these States are consistent with the Guidance. Today, EPA is soliciting public comment regarding all aspects of those letters. In particular, EPA solicits comments on the provisions identified in the June 30, 1999 and August 16, 1999 letters as being inconsistent with

the CWA and the Guidance, on EPA's proposed course of action if a State fails to remedy those inconsistencies, and on EPA's belief that the remainder of the States' submissions are consistent with the Guidance.

During the next 90 days, EPA intends to continue working with Indiana, Michigan and Ohio to address the inconsistencies identified in the June 30, 1999 and August 16, 1999 letters. If a State fails to remedy any of the inconsistencies identified in the letter, EPA will publish a notice in the **Federal Register** identifying the disapproved elements and the corresponding portions of part 132 that will apply to waters within the Great Lakes Basin in each of the States.

GENERAL SERVICES ADMINISTRATION

Record of Decision; Volunteer Army Ammunition Plant (VAAP) Proposed Disposal; Chattanooga, TN

Pursuant to Section 102(2)(c) of the National Environmental Policy Act (NEPA) of 1969, the Council on Environmental Quality Regulations (40 CFR Parts 1500-1508), and GSA Order PBS P 1095.4E,F,2, PBS 1096.4C, ADM 1020.1, GSA has prepared an Environmental Impact Statement (EIS) for this Proposal Disposal Action. The purpose of the EIS was to:

Identify the alternatives considered including the Proposed Disposal Alternative;

Solicit public comments through scoping and incorporate comments into the analysis and decision process;

Identify potential impacts of the alternatives considered including direct, indirect and cumulative impacts;

Disclose all potential impacts resulting from the alternatives considered;

Identify measures to mitigate adverse impacts; and

Incorporate the impacts from the alternatives considered and mitigation into the decision process.

This Record of Decision (ROD) will communicate GSA's decision on implementing the Proposed Action, the basis for that decision, and identify mitigation measures to be implemented as part of the decision. The Draft and
