SMALL BUSINESS ADMINISTRATION**Interest Rates**

The Small Business Administration publishes an interest rate called the optional "peg" rate (13 CFR 120.214) on a quarterly basis. This rate is a weighted average cost of money to the government for maturities similar to the average SBA direct loan. This rate may be used as a base rate for guaranteed fluctuating interest rate SBA loans. This rate will be 6 percent for the October-December quarter of FY 2000.

6. 0960-NEW. SSA has contracted with the Gallup Organization to conduct surveys to gather data on the public's level of knowledge about Social Security programs. The 1998 Public Understanding Measurement System survey (PUMS) indicated that 45 percent of the population have a lack of understanding of the major Social Security program areas. The 1999 and future Public Understanding Measurement System surveys (PUMS II) will enable SSA to build upon the 1998 PUMS quantitative baseline measure of public understanding. An annual survey will provide annual tracking data of public understanding of SSA programs against which the outcomes of SSA performance improvement efforts can be assessed. Quarterly targeted surveys in 16 SSA areas will test the effectiveness of several specific communications and public information outreach efforts.

PUMS II is essential to SSA's goal of strengthening public understanding about Social Security programs. The relevant Agency goal contained in SSA's strategic plan is that by the year 2005,

90 percent of all American adults will be knowledgeable about Social Security programs in five broad areas: basic program facts; the financial value of programs to individuals; the economic and social impact of SSA programs; how the programs are financed today; and financing issues. The respondents will be randomly selected adults residing in the United States.
