

evaluation is assessing change in communities exposed to PAC, including change in adults' involvement with youth. Two treatment and two comparison communities have been selected for study. Data for the process evaluation are primarily from on-site interviews with key personnel in local youth-serving organizations (e.g. Boy

Scouts, Boys and Girls Clubs); data for the outcomes evaluation are from baseline and 6-month followup telephone surveys of adults.

This revision to the currently approved information collection activities involves: (1) a third, 12-month followup telephone interview with the random sample of adults; and (2)

because PAC is being expanded to serve civic membership organizations (e.g., Rotary Clubs, Lions Clubs, Kiwanis) application of the process evaluation activities with these groups, plus three telephone interviews with random samples of members of the civic organizations.

	Number of respondents	Responses/respondent	Burden/response	Total burden hrs.
