Agency Information Collection Activities: Proposed Collection; Comment Request

In compliance with Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 concerning opportunity for public comment on proposed collections of information, the Substance Abuse and Mental Health Services Administration will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the information collection plans, call the SAMHSA Reports Clearance Officer on (301) 443-7978.

Comments are invited on: (a) Whether the proposed collections of information are necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use

of automated collection techniques or other forms of information technology.

Proposed Project: Evaluation of the Comprehensive Community Mental Health Services for Children and Their Families—Phase III—(New)

The national evaluation of SAMHSA's Comprehensive Community Mental Health Services for Children and Their Families Program will collect data on child mental health outcomes, family life, and service system implementation and development. Data will be collected on 21 service systems (20 funded systems of care and one comparison site), and on approximately 5766 children and families. Data collection for this evaluation will be conducted over a five-year period. The core of the service system data will be collected every 18 months throughout the five-year evaluation period, with a provider survey conducted in selected years.

Service delivery and system variables of interest include the following: system of care development, adherence to the system of care program model, and client service experience. The length of time that individual families will participate in the study ranges from 18 to 36 months depending on when they enter the evaluation. Child and family outcomes will be collected at intake and during subsequent follow-up sessions at six-month intervals. The outcome measures include the following: child symptomatology and functioning, family functioning, material resources, and caregiver strain. In addition, a treatment effectiveness study will examine the relative impact of an evidence-based treatment within one system of care. Internet-based technology will be used for data entry and management. The average annual respondent burden is estimated below. The estimate reflects the average number of respondents in each respondent category, the average number of responses per respondent each year, the average length of time it will take for each response, and the total average annual burden for each category of respondent, and for all categories of respondents combined.

Respondent	Number of respondents	Responses/ respondent	Average burden/re-sponse (hrs.)	Total average annual burden
Caregiver	5,766	1.11	2.25	14,400.59
Youth	3,460	1.06	0.92	3,374.19
Provider/Administrator	420	0.52	1.32	288.29
Total	9,646	18,063.07

Privacy Act of 1974; Notice of a Computer Matching Program

AGENCY: Office of the Chief Information Officer, (HUD).

ACTION: Notice of a Computer Matching Program between HUD and the Small Business Administration (SBA).

SUMMARY: In accordance with the Privacy Act of 1974 (5 U.S.C. 552a), as amended by the Computer Matching and Privacy Protection Act of 1988, as amended, (Pub. L. 100-503), and the Office of Management and Budget (OMB) Guidelines on the Conduct of Matching Programs (54 FR 25818 (June 19, 1989)), and OMB Bulletin 89-22, "Instructions on Reporting Computer Matching Programs to the Office of Management and Budget (OMB), Congress and the Public," the Department of Housing and Urban Development (HUD) is issuing a public notice of its intent to conduct a computer matching program with the Small Business Administration (SBA) to utilize a computer information system of HUD, the Credit Alert Interactive Voice Response System (CAIVRS), with SBA's debtor files. In addition to HUD's data, the CAIVRS data base includes delinquent debt information from the Departments of Agriculture, Education Veterans Affairs, and judgment lien data from the Department of Justice. This match will allow prescreening of applicants for debts owed or loans guaranteed by the Federal Government to ascertain if the applicant is delinquent in paying a debt owed to or insured by the Federal Government for HUD or SBA direct or guaranteed loans.

Before granting a loan, the lending agency and/or the authorized lending institution will be able to interrogate the CAIVRS debtor file which contains the Social Security Numbers (SSNs) of HUD's delinquent debtors and defaulters and defaulted debtor records of the SBA and verify that the loan applicant is not in default or delinquent on direct or guaranteed loans of participating Federal programs of either agency. Authorized users place a telephone call to the system. As a result of the information produced by this match, the authorized users may not deny, terminate, or make a final decision on any loan assistance to an applicant or take other adverse action against such applicant, until an officer or employee of such agency has independently verified such information.
