

“COMMENTS”, “RECOMMENDATIONS FOR TERMS AND CONDITIONS”, “PROTEST”, OR “MOTION TO INTERVENE”, as applicable, and the Project Number of the particular application to which the filing refers. Any of the above-named documents must be filed by providing the original and the number of copies provided by the Commission’s regulations to: The Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426. A copy of any motion to intervene must also be served upon each representative of the Applicant specified in the particular application.

Agency Comments—Federal, State, and local agencies are invited to file comments on the described application. A copy of the application may be obtained by agencies directly from the Applicant. If an agency does not file comments within the time specified for filing comments, it will be presumed to have no comments. One copy of an agency’s comments must also be sent to the Applicant’s representatives.

Linwood A. Watson, Jr.,

Acting Secretary.

FEDERAL ENERGY REGULATION COMMISSION

Sunshine Act Meeting

AGENCY HOLDING MEETING: Federal Energy Regulatory Commission.

FEDERAL REGISTER CITATION OF PREVIOUS ANNOUNCEMENT: October 20, 1999, 64 FR 57449.

PREVIOUSLY ANNOUNCED TIME AND DATE OF MEETING: October 27, 1999, 10 a.m.

CHANGE IN THE MEETING: The following Docket No. has been added to Item CAG-46 on the Agenda scheduled for the October 27, 1999 meeting.

Item No.	Docket No. and company
CAG-46	RP99-500-000, Maritimes & Northeast Pipeline, L.L.C.

David P. Boergers,
Secretary.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-6467-5]

Agency Information Collection Activities: Submission for OMB Review; Comment Request, Standards of Performance for New Stationary Sources Lime Manufacturing Plants

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: NSPS Subpart HH, Standards of Performance for New Stationary Sources—Lime Manufacturing Plants, OMB Control Number 2060-0063, expiration date 12/31/99. The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before December 1, 1999.

FOR FURTHER INFORMATION CONTACT: Sandy Farmer at EPA, (202) 260-2740, by E-Mail at Farmer.Sandy@epamail.epa.gov or download a copy of the ICR off the Internet at <http://www.epa.gov/icr> and refer to EPA ICR No. 1167.06.

SUPPLEMENTARY INFORMATION: *Title:* NSPS Subpart HH, Standards of Performance for New Stationary Sources—Lime Manufacturing, OMB Control Number 2060-0063, EPA ICR No. 1167.06, expiration date 12/31/99. This is a request for extension of a currently approved collection.

Abstract: The New Source Performance Standards (NSPS) for Lime Manufacturing Plants were proposed on May 3, 1977 and promulgated on April 26, 1984. These standards apply to each rotary lime kiln used in lime manufacturing, which commenced construction, modification or reconstruction after May 3, 1977. The standards do not apply to facilities used in the manufacture of lime at kraft pulp mills. The purpose of this NSPS is to control the emissions of particulate matter from lime manufacturing plants, specifically from the operation of the rotary lime kilns. The standards limit particulate emissions to 0.30 kilogram per megagram (0.60 lb/ton) of stone feed, and limit opacity to 15% when exiting from a dry emission control device. This information is being

collected to assure compliance with 40 CFR part 60, subpart HH.

There are three types of reporting requirements for owners or operators of facilities under this NSPS; (1) notifications (e.g., notice for new construction or reconstruction, anticipated and actual startup dates, initial performance test, and demonstration of the CMS); (2) a report on the results of the performance test; and (3) semiannual reports of instances of occurrence and duration of any startup, shutdown, or malfunctions. The purpose of the notifications are to inform the Agency or delegated authority when a source becomes subject to this standard. Performance tests are conducted to ensure that the new plants operate within the boundaries outlined in the standard. The semiannual reports are used for problem identification, as a check on source operation and maintenance, and for compliance determinations. Under this standard the data collected by the affected industry is retained at the facility for a minimum of two years and made available for inspection by the Administrator.

The Administrator has judged that PM emissions from lime manufacturing plants cause or contribute to air pollution that may reasonably be anticipated to endanger public health or welfare. Owners/operators of lime manufacturing plants must notify EPA of construction, modification, startups, shutdowns, malfunctions and performance test dates, as well as provide reports on the initial performance test and annual excess emissions. The industry costs associated with the information collection activity in the standards are capital costs and O&M costs associated with continuous emissions monitoring and labor costs associated with recordkeeping and reporting. In order to ensure compliance with the standards promulgated to protect public health, adequate reporting and recordkeeping is necessary. In the absence of such information, enforcement personnel would be unable to determine whether the standards are being met on a continuous basis, as required by the Clean Air Act.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA’s regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection

of information was published on June 4, 1999.

Burden Statement: The initial burden regarding notifications (40 CFR 60.7) and performance testing (40 CFR 60.8) for a new source subject to this subpart is estimated to average 349.8 hours. The annual public reporting and recordkeeping burden for this collection of information on existing facilities is estimated to average 41 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Owners/Operators of Lime Manufacturing Plants.

Estimated Number of Respondents: 49.

Frequency of Response: Semi-annually, Initial.

Estimated Total Annual Hour Burden: 4,190.

Estimated Total Annualized Capital, O&M Cost Burden: \$95,000.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR No. 1167.06 and OMB Control No. 2060-0063 in any correspondence.

Ms. Sandy Farmer, U.S. Environmental Protection Agency, Office of Policy, Regulatory Information Division (2137), 401 M Street, SW, Washington, DC 20460;

and

Office of Information and Regulatory Affairs, Office of Management and Budget, Attention: Desk Officer for EPA, 725 17th Street, NW, Washington, DC 20503.

Dated: October 25, 1999.

Richard T. Westlund,

Acting Director, Regulatory Information Division.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-6467-4]

Agency Information Collection Activities: Submission for OMB Review; Comment Request; Construction Grants Delegation to States

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: Construction Grants Delegation to States, EPA ICR No. 0909.06 and OMB Control No. 2040-0095, expiration date December 31, 1999. The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before December 1, 1999.

FOR FURTHER INFORMATION CONTACT: Sandy Farmer at EPA by phone at (202) 260-2740, by e-mail at farmer.sandy@epa.gov, or download a copy of the ICR off the Internet at <http://www.epa.gov/icr> and refer to EPA ICR No. 0909.06.

SUPPLEMENTARY INFORMATION: *Title:* Construction Grants Delegation to States; OMB Control No. 2040-0095; EPA ICR No. 0909.06; expiring 12/31/99. This is a request for extension of a currently approved collection.

Abstract: The purpose of this ICR is to revise and extend the current clearance for the collection of information under the Construction Grants Delegation to States, 40 CFR part 35, subpart J, and Title II of the Clean Water Act (CWA). While the Construction Grants Program is being phased out and replaced by the State Revolving Loan Fund (SRF) program, collection activities for the Construction Grants Program must continue until program completion. The program includes reporting, monitoring and program requirements for municipalities and delegated States.

The information collection activities described in this ICR are authorized under Section 205(g) of the Clean Water Act as amended, 33 U.S.C. 1251 *et seq.*, and under 40 CFR part 35, subpart J. The requested information provides the minimum data necessary for the Federal government to maintain appropriate fiscal accountability for use of section 205(g) construction grant funds. The information is also needed to assure an adequate management overview of those State project review activities that are most important to fiscal and project integrity, design performance, Federal budget control, and attainment of national goals.

Managers at the State and Federal levels both rely on the information described in this ICR. State managers rely on the information for their own program and project administration. Federal managers rely on this information to assess, control, and predict the impacts of the construction grants program on the Federal Treasury and future budget requirements. Federal managers also use this information to respond to OMB and Congressional requests and to maintain fiscal accountability.

In addition, builders of wastewater treatment plants use the information discussed in this ICR. The builders of these plants assess and use the information in the Innovative/Alternative Technology Data Base File to obtain technical information on innovative or alternative wastewater treatment systems.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on 7/6/99 (64 FR 36350); no comments were received.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 59.4 hours and 20 hours per response respectively. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and
