[FRL-6474-6]

### Agency Information Collection Activities: Submission for OMB Review; Comment Request, New Source Performance Standard (NSPS) for Surface Coating of Metal Furniture

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: New Source Performance Standard (NSPS) for Surface Coating of Metal Furniture, 40 CFR part 60, subpart EE, OMB Control Number 2060-0106, EPA No. 0649.07, expiration date 1/31/2000. The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

**DATES:** Comments must be submitted on or before December 15, 1999.

**FOR FURTHER INFORMATION CONTACT:** Sandy Farmer at EPA by phone at (202) 260-2740, by E-Mail at [Farmer.Sandy@epamail.epa.gov](mailto:Farmer.Sandy@epamail.epa.gov) or download a copy of the ICR off the Internet at <http://www.epa.gov/icr> and refer to EPA ICR No. 0649.07.

#### SUPPLEMENTARY INFORMATION:

**Title:** New Source Performance Standard (NSPS) for Surface Coating of Metal Furniture, OMB Control Number 2060-0106, EPA ICR Number 0649.07, expiration date 1/31/2000. This is a request for extension of a currently approved collection.

**Abstract:** The NSPS for Surface Coating of Metal Furniture were proposed on November 28, 1980 and promulgated on October 29, 1982. These standards apply to each metal furniture surface coating operation in which organic coatings are applied (greater than 3,842 liters of coating per year) that commence construction, modification or reconstruction after November 28, 1980. Approximately 553 sources are currently subject to the standard, and it

is estimated that 30 sources per year will become subject to the standard while an equal number will go off-line during this time period. It is further assumed that there is an average of four affected facilities per plant. Volatile Organic Compounds (VOCs) are the pollutants regulated under this subpart, and this information is being collected to assure compliance with 40 CFR part 60, subpart EE.

Owners or operators of the affected facilities described must make initial reports when a source becomes subject to, conducts and reports on a performance test, demonstrates and reports on continuous monitor performance, and maintains records of the occurrence and duration of any start up, shut down, or malfunction in the operation of an affected facility. Semiannual reports of excess missions are required. These notifications, reports, and records are essential in determining compliance; and are required, in general, of all sources subject to NSPS.

Any owner or operator subject to the provisions of this part shall maintain a file of these measurements, and retain the file for at least 2 years following the date of such measurements, maintenance reports, and records. The estimated total cost of the ICR will be \$3,480,531 over the next three years (including labor hours, operating & maintenance costs, and start up costs). All reports are sent to the delegated State or Local authority. In the event that there is no such delegated authority, the reports are sent directly to the EPA Regional Office. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on January 5, 1999 (64 FR 499); no comments were received.

**Burden Statement:** The annual public reporting and record keeping burden for this collection of information is estimated to average 63 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing
