Preliminary Permit—Anyone desiring to file a competing application for preliminary permit for a proposed project must submit the competing application itself, or a notice of intent to file such an application, to the Commission on or before the specified comment date for the particular application (see 18 CFR 4.36). Submission of a timely notice of intent allows an interested person to file the competing preliminary permit application no later than 30 days after the specified comment date for the particular application. A competing preliminary permit application must conform with 18 CFR 4.30(b) and 4.36.

Preliminary Permit—Any qualified development applicant desiring to file a competing development application must submit to the Commission, on or before a specified comment date for the particular application, either a competing development application or a notice of intent to file such an application. Submission of a timely notice of intent to file a development application allows an interested person to file the competing application no later than 120 days after the specified comment date for the particular application. A competing license application must conform with 18 CFR 4.30(b) and 4.36.

Notice of intent—A notice of intent must specify the exact name, business address, and telephone number of the prospective applicant, and must include an unequivocal statement of intent to submit, if such an application may be filed, either a preliminary permit application or a development application (specify which type of application). A notice of intent must be served on the applicant(s) named in this public notice.

Proposed Scope of Studies under Permit—A preliminary permit, if issued, does not authorize construction. The term of the proposed preliminary permit would be 36 months. The work proposed under the preliminary permit would include economic analysis, preparation of preliminary engineering plans, and a study of environmental impacts. Based on the results of these studies, the Applicant would decide whether to proceed with the preparation of a development application to construct and operate the project.

Comments, Protests, or Motions to Intervene—Anyone may submit comments, a protest, or a motion to intervene in accordance with the

requirements of Rules of Practice and Procedure, 18 CFR 385.210, 385.211, 385.214. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", "MOTION TO INTERVENE", as applicable, and the Project Number of the particular application to which the filing refers. Any of the above-named documents must be filed by providing the original and the number of copies provided by the Commission's regulations to: The Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, D.C. 20426. An additional copy must be sent to Director, Division of Project Review, Federal Energy Regulatory Commission, at the above-mentioned address. A copy of any notice of intent, competing application or motion to intervene must also be served upon each representative of the Applicant specified in the particular application.

Agency Comments—Federal, state, and local agencies are invited to file comments on the described application. A copy of the application may be obtained by agencies directly from the Applicant. If an agency does not file comments within the time specified for filing comments, it will be presumed to have no comments. One copy of any agency's comments must also be sent to the Applicant's representatives.

Linwood A. Watson, Jr.,

Acting Secretary.

City of Key West No Discharge Zone Determination

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) Region 4 Regional Administrator concurs with the

determinations of the State of Florida that adequate and reasonably available pumpout facilities exist around the waters (out to 600 feet from shore) of the Island of Key West. A petition was received from the State of Florida requesting a determination by the Regional Administrator, Environmental Protection Agency, pursuant to section 312(f)(3) of Public Law 92-500 as amended by Public Law 95-217 and Public Law 100-4, that adequate facilities for the safe and sanitary removal of sewage from all vessels are reasonably available for the waters around the City of Key West to qualify as a No Discharge Zone (NDZ). This action is taken under section 312(f)(3) of the Clean Water Act.

This determination was published in the **Federal Register** on August 25, 1999 (64 FR 46390), and comments were received through September 24, 1999. EPA Region 4 received 27 comment letters (19 in favor, 8 opposed) concerning this NDZ designation. Six of the opposition letters state that insufficient pumpout facilities exist. EPA and the State of Florida found the following facilities available for pumping out vessel holding tanks in the City of Key West area. Their address, telephone number, hours of operation and draft are as follows:

A. Galleon Marina; 619 Front Street, Key West, Florida 33040; 305-292-1292; 8 a.m.-6 p.m. 7 days/week; 45' draft.

B. Historic Seaport at Key West Bight; 201 William Street, Key West, Florida 33040; 305-293-8309; 7 a.m.-7 p.m. (summer) 7 a.m.-5 p.m. (winter) 7 days/week; 12' draft.

C. Key West Conch Harbor; 951 Caroline Street, Key West, Florida 33040; 305-294-2933; 6 a.m.-Sunset 7 days/week; 10' draft.

D. Garrison Bight Marina; Garrison Bight Causeway, Key West, Florida 33040; 305-292-8167; 24 hours/day 7 days/week; 7' draft; mobile pumpout barge operated 8 a.m.-5 p.m. Monday through Saturday; 1' draft.

E. Sunset Marina; 5555 College Road, Stock Island, Key West, Florida 33040; 305-296-7101; 7 a.m.-8 p.m. daily; 6.5' draft.

Additional pumpout facilities are being installed at several other marinas within city limits. The facilities at A & B Marina are scheduled for completion by September 1, 1999. The Key West Yacht Club is currently seeking permits for a pumpout facility. The Historic Seaport at Key West Bight has budgeted funds for installation of dockside pumpouts for charterboats within the next fiscal year. Therefore EPA Region

4 continues to concur with the State of Florida that adequate and reasonably available pump out facilities exist for NDZ designation. Other points in opposition included the efficiency of the city sewer system, the effectiveness of Type I and Type II MSDs, and the relative contribution of MSD effluent to the overall ecosystem. The effluent discharge from Type I and Type II MSDs contain elevated levels of nutrients and a variety of disinfectants which can degrade water quality and adversely impact the coral reef ecosystem. The City of Key West is currently in the process of upgrading its sewage treatment facility to advanced wastewater treatment (AWT) and deep well injection. This will result in the removal of all nutrients and other pollutants from surface waters.

John H. Hankinson, Jr.,

Regional Administrator, Region 4.
