

is used on a stand-alone basis as the "large domestic bank series." The other two reports are samples for estimating outstandings for the universe, using data for benchmarks from the quarterly commercial bank Consolidated Reports of Condition and Income (FFIEC 031-034; OMB No. 7100-0036) and the Report of Assets and Liabilities of U.S. Branches and Agencies of Foreign Banks (FFIEC 002; OMB No. 7100-0032) (Call Reports). All three reports, together with data from other sources, are used for constructing weekly estimates of bank credit, of sources and uses of bank funds, and of a balance sheet for the banking system as a whole. These estimates are used in constructing the bank credit component of the domestic nonfinancial debt aggregate.

The Federal Reserve publishes the data in aggregate form in a statistical release that is followed closely by other government agencies, the banking industry, the financial press, and other users. This weekly H.8 statistical release, "Assets and Liabilities of Commercial Banks in the United States," provides a balance sheet for the banking industry as a whole and disaggregated by its large domestic, small domestic, and foreign related components.

Current Actions: Effective mid-June 2000, the Federal Reserve will reduce the authorized size of the FR 2416 panel. Several reporters currently on the branch and agency (FR 2069) panel will be dropped because most of their assets have been shifted to other reporters.

The Federal Reserve will have a net addition of three items to the FR 2416 and the FR 2644; these three items were reported on the monthly Commercial Bank Survey of Consumer Credit (FR 2571; OMB No. 7100-0080). The Federal Reserve is discontinuing the FR 2571, which was contingent upon the addition of these items to the weekly condition/bank credit reports. The Federal Reserve also will add a memorandum item to the FR 2416 and the FR 2069 and clarify the FR 2416 and the FR 2644 instructions for reporting derivatives.

Final approval under OMB delegated authority of the extension for three years, without revision of the following reports:

1. **Report title:** The Recordkeeping and Disclosure Requirements Associated with Loans Secured by Real Estate Located in Flood Hazard Areas Pursuant to Section 208.25 of Regulation H.

Agency form number: unnum Reg H-2.

OMB control number: 7100-0280.
Frequency: Event-generated.
Reporters: State Member Banks.
Annual reporting hours: 58,885.

Estimated average hours per response: Notice of special flood hazards to borrowers and servicers, Notice to FEMA of servicer, and Notice to FEMA of change of servicer: 5 minutes each; Retention of standard FEMA form: 2.5 minutes.

Number of respondents: 988. Small businesses are affected.

General description of report: This information collection is mandatory (12 CFR 208.25). Since the Federal Reserve does not collect any information, no issue of confidentiality would normally arise. Should any of these records come into the possession of the Federal Reserve System, such information would be given confidential treatment (5 U.S.C. 552(b)(4) and (b)(6)).

Abstract: The regulation requires the state member banks (SMBs) to notify a borrower and servicer when loans secured by real estate are determined to be in a special flood hazard area. The SMB must then notify the borrower and servicer whether flood insurance is available. If a loan secured by real estate is in a special flood hazard area, the SMB must notify the Federal Emergency Management Agency (FEMA) of the identity of, and any change of, the servicer of the loan. Lastly, the SMB must retain a copy of the Standard Flood Hazard Determination Form used to determine whether the property securing a loan is in a special flood hazard area.
