

statement (also on page 11 of the instructions). The modified wording will reflect the application to pending judicial or administrative proceedings of the underlying routine use h. in the OGE/GOVT-1 executive branchwide system of records. See 55 FR 6327-6331 (February 22, 1990).

Finally, various minor proposed style, format and updating changes to certain parts of the instructions and the report form are proposed, including removal of column shading from Schedules A and B (to improve readability) and indication of the new 2000 edition date.

Once finally cleared by OMB and GSA and printed by the Government Printing Office, the paper original of the 2000 edition of the SF 278 report form will be stocked and made available for purchase by departments and agencies nationwide from the GSA Federal Supply Service Customer Supply Centers.

In addition, for the past several years, OGE has placed in the Ethics Resource Library section of its Internet Web site (Uniform Resource Locator (URL) address: <http://www.usoge.gov>) a viewable and downloadable Portable Document Format (PDF) version of the current 6/94 edition of the SF 278 and is also working on a fillable version of the 6/94 edition. A fillable version of the SF 278 is available from GSA's Web site electronic library of standard and optional forms (URL address: <http://www.gsa.gov/forms/>). Moreover, OGE will develop first a PDF version and then a fillable version of the new 2000 edition of the SF 278 for placement on the OGE Web site once it is finally cleared and issued next year. Those electronic versions of the SF 278 form have been and will continue to be made available free-of-charge to executive branch departments and agencies and their employees. In addition, the forthcoming 2000 edition of the form will be included in future editions of The Ethics CD-ROM. Departments and agencies can also electronically duplicate the SF 278 without standard form exception clearance, provided that the duplication precisely parallels the original paper form to the extent technically feasible, producing a "mirror image" print-out thereof.

Furthermore, OGE is considering the paperwork and technical issues relating to development of so-called "smart" electronic forms, including the SF 278, which employ a question and answer format to elicit information on reportable interests and funnel the data onto the schedules of the report forms. Various agencies in addition to OGE are interested in this area. The Office of Government Ethics is reviewing the

executive branchwide aspects of these initiatives, including a possible umbrella OGE "generic" paperwork clearance package.

For now, OGE notes that even with all of these electronic initiatives, the SF 278 reports, once completed by individual filers, will still need to be printed out and signed manually. Electronic filing is not authorized at the present time for SF 278 reports. However, OGE is monitoring developments under the Government Paperwork Elimination Act and the proposed OMB guidelines (together with any possible future related legislation), under which appropriate electronic availability and filing of various Government forms will generally be phased in by October 2003.

Public comment is invited on each aspect of the SF 278 Public Financial Disclosure Report as proposed for revision as set forth in this notice, including specifically views on the need for and practical utility of this collection of information, the accuracy of OGE's burden estimate, the potential for enhancement of quality, utility and clarity of the information collected, and the minimization of burden (including the use of information technology). The Office of Government Ethics, in consultation with OMB, will consider all comments received in response to this notice. The comments will also become a matter of public record.

Director, Office of Government Ethics.

Agency for Toxic Substances and Disease Registry

[ATSDR-154]

Availability of Final Toxicological Profile for Total Petroleum Hydrocarbons (TPH)

AGENCY: Agency for Toxic Substances and Disease Registry (ATSDR), Department of Health and Human Services (HHS).

ACTION: Notice of availability.

SUMMARY: This notice announces the availability of one final toxicological profile on unregulated hazardous substances prepared by ATSDR for the Department of Defense.

FOR FURTHER INFORMATION CONTACT: Ms. Loretta Norman, Division of Toxicology, Agency for Toxic Substances and Disease Registry, Mailstop E-29, 1600 Clifton Road, NE., Atlanta, Georgia 30333, telephone (404) 639-6322.

SUPPLEMENTARY INFORMATION: The Superfund Amendments and Reauthorization Act (SARA) of 1986 (Pub. L. 99-499) amended the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (Superfund) or CERCLA. Section 211 of SARA also amended Title 10 of the U.S. Code, creating the Defense Environmental Restoration Program. Section 2704 (a) and (b) of Title 10 of the U.S. Code directs the Secretary of Defense to notify the Secretary of Health and Human Services of not less than 25 of the most commonly found, unregulated hazardous substances at defense facilities. The Secretary of HHS shall take necessary steps to ensure the timely preparation of toxicological profiles of these substances. Each profile includes an examination, summary and interpretation of available toxicological information and epidemiological evaluations. This information and these data are used to ascertain the levels of significant human exposure for the substance and the associated health effects. The profiles include a determination of whether adequate information on the health effects of each substance is available or under development. When adequate information is not available, in cooperation with the National Toxicology Program (NTP), ATSDR may plan a program of research designed to determine these health effects.

Notice of the availability of the draft toxicological profile for public review and comment was published in the **Federal Register** on November 4, 1998 (63 FR 59568), with notice of a 90-day public comment period starting from the actual release date. Following the close of the comment period, chemical-specific comments were addressed, and where appropriate, changes were incorporated into the profile.

The public comments, the classification of and response to those comments, and other data submitted in response to the **Federal Register** notice bear the docket control number ATSDR-139. This material is available for public inspection at the Division of Toxicology, Agency for Toxic Substances and

Disease Registry, Building 4, Suite 2400, Executive Park Drive, Atlanta, Georgia (not a mailing address), between 8 a.m. and 4:30 p.m., Monday through Friday, except legal holidays.

Availability

This notice announces the availability of one final toxicological profile for the Department of Defense. The following toxicological profile is now available through the U.S. Department of Commerce, National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, Virginia 22161, telephone 1-800-553-6847. There is a charge for this profile as determined by NTIS.
