NUCLEAR REGULATORY COMMISSION

[Docket No. 50-219]

Jersey Central Power & Light Co d/b/a

GPU Energy GPU Nuclear, Inc. Oyster Creek Nuclear Generating Station; Notice of Consideration of Approval of Transfer of Facility Operating License and Conforming Amendment, and Opportunity for a Hearing

The U.S. Nuclear Regulatory Commission (the Commission) is considering the issuance of an order under 10 CFR 50.80 approving the transfer of Facility Operating License No. DRP-16 for the Oyster Creek Nuclear Generating Station (Oyster Creek), currently held by Jersey Central Power & Light Company (JCP&L) as owner of Oyster Creek and GPU Nuclear, Inc. (GPUN), as the licensed operator of Oyster Creek. The transfer of the license for Oyster Creek would be to AmerGen Energy Company, (LLC) (AmerGen). The Commission is also considering amending the license for administrative purposes to reflect the proposed transfer. Oyster Creek is located in Ocean County, New Jersey.

Under the proposed transfer, AmerGen would be authorized to possess, use, and operate Oyster Creek under essentially the same conditions and authorizations included in the existing license. No physical changes would be made to the Oyster Creek facility as a result of the proposed transfer, and there would be no significant changes in the day-to-day operations of the unit. The proposed amendment to the license would delete references to "Jersey Central Power & Light" and "GPU Nuclear, Inc." (including variations of these names) and substitute "AmerGen Energy Company, LLC" (or its new position of "licensee" or "applicant") as appropriate to reflect the transfer, and make other changes to reflect the approval of the transfer.

Pursuant to 10 CFR 50.80, no license, or any right thereunder, shall be transferred, directly or indirectly, through transfer of control of the license, unless the Commission shall give its consent in writing. The Commission will approve an application for the transfer of a license, if the Commission determines that the proposed transferee is qualified to hold the license, and that the transfer is otherwise consistent with applicable provisions of law, regulations, and orders issued by the Commission pursuant thereto.
