Emergency Exemption; Issuance

On December 7, 1999, the U.S. Fish and Wildlife Service (Service) issued a permit (PRT-020339) to the US Fish and Wildlife Service Jacksonville Florida Field Office, Jacksonville, Florida, to import a juvenile Kemp's Ridley Sea Turtle (*Lepidochelys kempii*). The 30-day public comment period required by section 10(c) of the Endangered Species Act was waived. The Service determined that an emergency affecting the health and life of this turtle existed and that no reasonable alternative was available to the applicant, for the following reasons:

a. This turtle was found stranded outside of its normal range on a beach in Wales, UK, on December 1, 1999, and was being housed at the Oceanarium, St. David's Sea Life Centre (Centre), Wales.

b. The Centre's facilities allow for water temperature to be maintained at a temperature of 14.5 Celsius (58.1 Fahrenheit). Optimal water temperature for this species is 24 Celsius (75 Fahrenheit). Therefore, the Centre was unable to adequately maintain this specimen.

c. The specimen is being housed for evaluation at Sea World of Orlando, Orlando, Florida. Sea World of Orlando is licensed by the State of Florida as a sea turtle rehabilitation center in accordance with the Florida Fish and Wildlife Conservation Commission's agreement with the Service under Section 6 of the Endangered Species Act.

d. Following a satisfactory health and evaluation period, this specimen will be released back into the marine environment.

Dated: December 13, 1999.

Pamela Hall,

Acting Chief, Branch of Permits, Office of Management Authority.
