

administrative review. This section provides, however, that "if it is not practicable to complete the review within the foregoing time, the administrative authority may extend that 245-day period to 365 days . . ." Because of the complexities enumerated in the *Memorandum from Joseph A. Spetrini to Robert S. LaRussa, Extension of Time Limits for the Preliminary Results of Review of Steel Wire Rope from Mexico*, dated December 7, 1999, the Department has determined that it is not practical to complete these reviews by December 8, 1999.

Therefore, in accordance with section 751(a)(3)(A) of the Act, the Department is extending the time limits for the preliminary results of the administrative review and new shipper review by 113 days to March 30, 2000.

Dated: December 8, 1999.

#### **Certain Corrosion-Resistant Carbon Steel Flat Products and Certain Cut-to-Length Carbon Steel Plate From Canada: Extension of Time Limit for Final Results of Antidumping Duty Administrative Review**

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**ACTION:** Notice of extension of time limits for final results of antidumping administrative review.

**EFFECTIVE DATE:** December 27, 1999.

**FOR FURTHER INFORMATION CONTACT:** Mike Strollo or Maureen Flannery, AD/CVD Enforcement, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington DC 20230; telephone: (202) 482-5255 or (202) 482-3020, respectively.

#### **The Applicable Statute**

Unless otherwise indicated, all citations to the statute are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Tariff Act of 1930 (the Act) by the Uruguay Round Agreements Act. In addition, unless otherwise indicated, all citations to the Department's

regulations are to the current regulations, codified at 19 CFR Part 351 (1999).

#### **Background**

On August 19, 1993, the Department published in the **Federal Register** (58 FR 44162) the antidumping duty orders on certain corrosion-resistant carbon steel flat products and certain cut-to-length carbon steel plate from Canada. Based on timely requests by petitioners and respondents in both proceedings, the Department published its initiation of these antidumping duty administrative reviews covering the period of August 1, 1997 through July 31, 1998 on September 29, 1998 (63 FR 51893). On August 19, 1999, the Department published the preliminary results of review (64 FR 45228).

#### **Extension of Time Limits for Final Results**

Because of the complexities enumerated in the *Memorandum from Joseph A. Spetrini to Robert S. LaRussa, Extension of Time Limit for the Final Results of Antidumping Duty Administrative Reviews of Certain Corrosion-Resistant Carbon Steel Flat Products and Certain Cut-to-Length Carbon Steel Plate From Canada*, dated December 17, 1999, it is not practical to complete these reviews within the time limits mandated by section 751(a)(3)(A) of the Act.

Therefore, in accordance with section 751(a)(3)(A) of the Act, the Department is extending the time period for issuing the final results of review until February 15, 2000.

Dated: December 17, 1999.

#### **Large Newspaper Printing Presses and Components Thereof, Whether Assembled or Unassembled, from Japan: Final Results of Changed Circumstances Antidumping Duty Administrative Review and Intent To Revoke Antidumping Duty Order, In Part**

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**ACTION:** Notice of final results of changed circumstances antidumping

duty administrative review and intent to revoke antidumping duty order, in part.

**SUMMARY:** On November 3, 1999, the Department of Commerce published a notice of preliminary results of changed circumstances review and intent to revoke the order, in part, of the antidumping duty order on large newspaper printing presses and components thereof, whether assembled or unassembled, from Japan. We gave interested parties an opportunity to comment on the preliminary results. No party opposed the preliminary results. We received comments only from Mitsubishi Heavy Industries, Ltd., requesting that the Department of Commerce clarify the application of the proposed certification requirements with respect to entries of the merchandise covered by the partial revocation.

We are now revoking this order, in part, based on the fact that producers accounting for substantially all production of the domestic like product, as described in our preliminary results of changed circumstances, support the request of Goss Graphic Systems, Inc., the petitioner and a U.S. producer of the subject merchandise, for revocation, in part, of the order with regard to large newspaper printing presses ("LNPP") and components thereof, whether assembled or unassembled, from Japan, as described below.

**EFFECTIVE DATE:** December 27, 1999.

#### **FOR FURTHER INFORMATION CONTACT:**

#### *The Applicable Statute and Regulations*

Unless otherwise indicated, all citations to the statute are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Tariff Act of 1930 (the Act) by the Uruguay Round Agreements Act. In addition, unless otherwise indicated, all citations to the Department of Commerce's ("the Department's") regulations are to the regulations at 19 CFR Part 351 (1999).

#### **SUPPLEMENTARY INFORMATION:**

#### **Background**

On November 3, 1999, the Department published in the **Federal Register** (64 FR 59739) a notice of preliminary results of changed circumstances

antidumping duty administrative review and intent to revoke antidumping duty order, in part, for large newspaper printing presses and components thereof, whether assembled or unassembled, from Japan. On November 18, 1999, we received comments from Mitsubishi Heavy Industries, Ltd. requesting clarification of the certification requirements.

### Scope of Review

The products covered by this changed circumstances review are elements and components of LNPP systems, and additions thereto, imported to fulfill a contract for one or more complete LNPP systems which feature a 22 inch cut-off, 50 inch web width and a rated speed no greater than 75,000 copies per hour. In addition to the specifications set out in this paragraph, all of which must be met in order for the product to fall within this changed circumstances review, the product must also possess all of the specifications detailed in the five (5) numbered sections following this paragraph. If one or more of these criteria is not fulfilled, the product is not within the scope of this changed circumstances review:

1. *Printing Unit*: A printing unit which is a color keyless blanket-to-blanket tower unit with a fixed gain infeed and fixed gain outfeed, with a rated speed no greater than 75,000 copies per hour, which includes the following features:

- Each tower consisting of four levels, one or more of which must be populated.

- Plate cylinders which contain slot lock-ups and blanket cylinders which contain reel rod lock-ups both of which are of solid carbon steel with nickel plating and with bearers at both ends which are configured in-line with bearers of other cylinders.

- Keyless inking system which consists of a passive feed ink delivery system, an eight roller ink train, and a non-anilox and non-porous metering roller.

- The dampener system which consists of a two nozzle per page spraybar and two roller dampener with one chrome drum and one form roller.

- The equipment contained in the color keyless ink delivery system is designed to achieve a constant, uniform feed of ink film across the cylinder without ink keys. This system requires use of keyless ink which accepts greater water content.

2. *Folder*: A module which is a double 3:2 rotary folder with 160 pages collect capability and double (over and under) delivery, with a cut-off length of 22 inches. The upper section consists of

three-high double formers (total of 6) with six sets of nipping rollers.

3. *RTP*: A component which is of the two-arm design with core drives and core brakes, designed for 50 inch diameter rolls; and arranged in the press line in the back-to-back configuration (left and right hand load pairs).

4. *Conveyance and Access Apparatus*: Conveyance and access apparatus capable of manipulating a roll of paper more than two newspaper broadsheets across through the production process, and a drive system which is of conventional shafted design.

5. *Computerized Control System*: A computerized control system, which is any computer equipment and/or software designed specifically to control, monitor, adjust, and coordinate the functions and operations of large newspaper printing presses or press components.

The order with regard to imports of other LNPPs is not affected by this request.

### Final Results of Changed Circumstances Antidumping Duty Administrative Review

Pursuant to section 751(d)(1) of the Act, the Department may partially revoke an antidumping duty order based on a review under section 751(b) of the Act (*i.e.*, a changed circumstances review). Section 751(b)(1) of the Act requires a changed circumstances review to be conducted upon receipt of a request containing information concerning changed circumstances sufficient to warrant a review.

The Department's regulations at 19 CFR 351.216 provide that the Department will conduct a changed circumstances review based upon changed circumstances sufficient to warrant a review. Section 782(h) of the Act and 19 CFR 351.222(g)(1)(i) further provide that the Department may revoke an order, or revoke an order in part, if it determines that the order (or part of the order) under review is no longer of interest to domestic interested parties.

Based on the fact that producers accounting for substantially all production of the domestic like product, as described in our preliminary results of changed circumstances review, support the request of Goss Graphic Systems, Inc., the petitioner, to revoke the antidumping duty order, in part, we have determined that there are changed circumstances sufficient to warrant revocation of the order, in part. Therefore, the Department is revoking, in part, the antidumping duty order on LNPPs from Japan with respect to the import of the elements and components of LNPP systems and additions thereto

as described above, in accordance with sections 751(b) and 782(h) of the Act and 19 CFR 351.222(g)(1)(i). This partial revocation will apply to all entries of LNPP systems and additions thereto as described above from Japan entered, or withdrawn from warehouse, for consumption on or after September 4, 1996, as requested by the petitioner.

We have taken into account comments from Mitsubishi Heavy Industries, Ltd. requesting that the Department clarify the Customs certification requirements proposed in the preliminary results.

We will instruct the Customs Service (Customs) to liquidate without regard to antidumping duties, and to refund any cash deposits collected for all entries of the merchandise described above, made on or after September 4, 1996. Further, we will instruct Customs to require that a party requesting a refund of cash deposits collected on entries of the merchandise described above, made on or after September 4, 1996, or a party importing the merchandise described above during this period, submit a certification to Customs stating that the imported merchandise meets the specifications of the merchandise covered by the partial revocation.

We are issuing and publishing this determination and notice in accordance with sections 751(b)(1) and 777(i)(1) of the Act and 19 CFR 351.216 and 351.222.

Dated: December 15, 1999.
