

FRN process and data repository will be available through the functionality of the Commission registration system (CORES). The registrant address stored in the CORES will be used as the official mailing address. This information facilitates the efficient and accurate processing of the Commission's goal of verifying fee sufficiency. Since the FCC registration number identifies a registrant across the entire Commission, the licensing systems will be required to utilize the FCC registration number in all inter-system communication that involves identifying a registrant (Example: Fee sufficiency checks with the newly developed Revenue Accounting Management Information System (RAMIS)).

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0017.

Title: Application for a Low Power TV, TV Translator, or TV Booster Station License.

Form Number: FCC 347.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit entities; Individuals or households; State, local, or Tribal government(s).

Number of Respondents: 1,000.

Estimate Time Per Response: 1.5 hours.

Frequency of Response: On occasion reporting requirements.

Total Annual Burden: 1,500 hours.

Total Annual Costs: \$110,000.

Needs and Uses: The Commission adopted a Report and Order in MM Docket Nos. 98-43 and 94-149 substantially revising the FCC Form 347 to facilitate electronic filing by replacing narrative exhibits with the use of certifications and an engineering technical box. The Commission also

deleted and narrowed overly burdensome questions from FCC Form 347, which is required to be filed when applying for a Low Power Television, TV Translator, or TV Booster Station License. FCC Form 347 will be supplemented with detailed instructions to explain processing standards and rule interpretations to help ensure that applicants certify accurately. These changes will streamline the Commission's processing of FCC Form 347 applications. The Commission also adopted a formal program of pre- and post-application grant random audits to preserve the integrity of our streamlined application process.

The FCC staff use data provided in FCC Form 347 to confirm that the TV facility has been built to terms specified in the outstanding construction permit. The data are also included subsequently in the license to operate the station.

OMB Control Number: 3060-0120.

Title: Broadcast Equal Employment Opportunity Model Program Report.

Form Number: 396-A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities; Not-for-profit institutions.

Number of Respondents: 2,526.

Estimate Time Per Response: 1.0 hours.

Frequency of Response: On occasion reporting requirements.

Total Annual Burden: 2,526 hours.

Total Annual Costs: None.

Needs and Uses: FCC Form 396-A is filed in conjunction with applicants seeking authority to construct a new broadcast station, to obtain assignment of construction or license, and/or seeking authority to acquire control of an entity holding construction permit or license. This program is designed to assist the applicant in establishing an effective EEO program for its station.

On September 30, 1998, the Commission suspended the requirement that television and radio broadcast licensees and permittees submit the FCC 396-A with their construction permit, transfer, or assignment applications. This suspension is to remain in effect until the Commission revises the EEO rules to be consistent with the Court of Appeals Lutheran Church decision. The Commission will make such adjustments to the form as necessary to conform to the Lutheran Church decision consistent with the record in the rulemaking. Until such time as the Commission reaches a decision in the outstanding Notice of Proposed Rulemaking concerning the Court of

Appeals Lutheran Church decision, the FCC 396-A needs to retain a current OMB Control Number.

The data are reviewed by FCC analysts to determine how stations will provide equal employment opportunity to all qualified persons without regard to race, color, religion, sex, or national origin.

OMB Control Number: 3060-0250.

Title: Section 74.784, Rebroadcasts.

Form Number: N/A.

Number of Respondents: 1,080.

Estimate Time Per Response: 1.0 hour.

Frequency of Response: On occasion reporting requirements.

Needs and Uses: Section 74.784(b) states that a licensee of a low-power television or TV translator station shall not rebroadcast the programs of any other TV broadcast station without obtaining prior consent of the station whose signals or programs are proposed to be retransmitted. Section 74.784(b) requires licensees of low power or TV translator stations to notify the Commission when rebroadcasting programs or signals of another station. This notification shall include the call letters of each station rebroadcast. The licensee of the low power television or TV translator station shall certify that written consent has been obtained from the licensee of the station whose programs are retransmitted. The data are used by FCC staff to ensure compliance with Section 325(a) of the Communications Act of 1934, as amended, which states that no broadcasting station shall rebroadcast the programs or any part thereof from another broadcasting station without the express authority of the originating station.

Title: Broadcast Station Annual Employment Report.

Form Number: 395-B.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities; Not-for-profit institutions.

Number of Respondents: 14,000.

Estimate Time Per Response: 0.88 hours (avg.).

Frequency of Response: Annual reporting requirements.

Total Annual Burden: 12,320 hours.

Total Annual Costs: None.

Needs and Uses: The Annual Employment Report (FCC Form 395-B) was required to be filed by all licensees and permittees of AM, FM, TV, international, and low power TV broadcast stations. On September 30, 1998, the Commission suspended the requirement that television and radio broadcast licensees and permittees submit the FCC Form 395-B. This suspension is to remain in effect at least until the Commission revises the EEO rules to be consistent with the Court of Appeals Lutheran Church decision. If the Commission chooses to reinstate the FCC 395-B, the Commission will make such adjustments to the form as necessary to conform to the Lutheran Church decision consistent with the record in the rulemaking. Until such time as the Commission reaches a decision in the outstanding Notice of Proposed Rulemaking concerning the Court of Appeals Lutheran Church decision, the FCC Form 395-B needs to retain a current OMB Control Number.
