DEPARTMENT OF THE INTERIOR

Minerals Management Service

30 CFR Parts 250, 256, 270, 282

Outer Continental Shelf Regulations

AGENCY: Minerals Management Service (MMS), Interior.

ACTION: Correcting amendments.

SUMMARY: This document corrects various regulations that were published in several **Federal Registers** and are codified in the July 1, 1998, edition of Title 30—Mineral Resources, Parts 200–699, Code of Federal Regulations (CFR). These regulations relate to operations, leasing, and nondiscrimination in the Outer Continental Shelf (OCS). Many of the sections being corrected have been amended or redesignated several times. The primary dates of publication are: April 1, 1988 (53 FR 10690); June 29, 1979 (44 FR 38276); May 22, 1985 (50 FR 21048); and January 18, 1989 (54 FR 2067). The CFR references all of the **Federal Register** publication dates and page numbers that amended or redesignated each section.

EFFECTIVE DATE: February 24, 1999.

FOR FURTHER INFORMATION CONTACT: Kumkum Ray (703) 787-1600.

SUPPLEMENTARY INFORMATION:

Background

The final rules that are being corrected affect persons holding leases and operating in the OCS, or who have violated the OCS Lands Act. The corrections cover a variety of miscellaneous administrative amendments resulting from the following:

(a) Recent redesignation of the entire 30 CFR 250 regulations (5/29/98, 63 FR 29477) makes citation references in other parts of the CFR incorrect. In addition, several citation references in 30 CFR 250 were overlooked in the redesignation rulemaking. This document corrects the redesignated regulatory citations.

(b) Changes to the 30 CFR 250, Subpart O, regulations on Training (2/5/97, 62 FR 5322), make obsolete the

reference to a training standard in the Subpart D regulations on Drilling. This document deletes the reference to the obsolete training standard.

(c) Elimination of the former MMS OCS Atlantic regional office requires the removal of references to that Region. The area offshore the Atlantic Coast is now included with the OCS Gulf of Mexico Region. This document corrects references to the OCS Regions.

(d) Revised 30 CFR 250, Subpart N, regulations on OCS Civil Penalties (8/8/97, 62 FR 42688), contain typographical errors and an incorrect reference to "alleged" violations. This document corrects the errors and deletes the reference.

(e) Revisions to 30 CFR 256.52(c) in 1997 changed the status of operators' areawide bonds to exclude coverage of lessees (5/22/97, 62 FR 27955). This document returns the regulation to its historical position.

Need for Correction

As published, the final regulations contain errors or incorrect references that are misleading and need to be clarified.

DEPARTMENT OF TRANSPORTATION**Coast Guard****33 CFR Part 165**

[CGD01 99–008]

Safety Zone: Sunken Fishing Vessel CAPE FEAR, Buzzards Bay Entrance

AGENCY: Coast Guard, DOT.

ACTION: Temporary final rule.

SUMMARY: This Safety Zone is an extension of the original Safety Zone around the sunken fishing vessel CAPE

FEAR published in the **Federal Register** on January 27, 1999. The Coast Guard has established a safety zone within a 500-yard radius of the site of the sunken fishing vessel CAPE FEAR in the entrance to Buzzards Bay at approximate position 41°23' North and 71°01' West. This safety zone is needed to protect the maritime community from possible hazards associated with the sunken vessel, ongoing oil-pollution response, and the exposed-location salvage. Entry into this zone is prohibited unless authorized by the Captain of the Port (COTP), Providence, RI.

EFFECTIVE DATES: This rule is effective from 12 midnight Friday, February 12, 1999, until the last minute of 12 midnight Wednesday, March 31, 1999.

FOR FURTHER INFORMATION CONTACT: CWO Payne, Waterways Management, Coast Guard Marine Safety Office, Providence, RI, at (401) 435–2300.

SUPPLEMENTARY INFORMATION:**Regulatory History**

Pursuant to 5 U.S.C. 553, no notice of proposed rulemaking (NPRM) was published for this regulation, and good cause exists for making it effective less than 30 days after **Federal Register** publication. Because conclusive information for this emergency was received so late, there was insufficient time to draft and publish an NPRM. Any delay encountered in this regulation's effective date would be contrary to public interest since immediate action is needed to close a portion of the entrance to Buzzards Bay to protect the maritime public from the hazards associated with the sunken vessel, ongoing oil-pollution response, and the exposed-location salvage.

Background and Purpose

This regulation extends the safety zone in all the waters within a 500-yard radius of the site of the sunken fishing vessel CAPE FEAR (O.N. D655734) in the entrance to Buzzards Bay in approximate position 41°23' N and 71°01' W. The safety zone is needed to protect vessels from the hazards associated with the sunken vessel, ongoing oil-pollution response, and the exposed-location salvage. No vessel may enter the safety zone without permission of the Captain of the Port, Providence, RI.

Regulatory Evaluation

This regulation is not a significant regulatory action under section 3(f) of Executive Order 12866 and does not require an assessment of potential costs and benefits under section 6(a)(3) of that
