

summarizes each FAA-public contact concerned with the substance of this AD will be filed in the Rules Docket.

Commenters wishing the FAA to acknowledge receipt of their comments submitted in response to this rule must submit a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket No. 99-SW-77-AD." The postcard will be date stamped and returned to the commenter.

The regulations adopted herein will not have a substantial direct effect on the States, on the relationship between the national Government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, it is determined that this final rule does not have federalism implications under Executive Order 13132.

The FAA has determined that this regulation is an emergency regulation that must be issued immediately to correct an unsafe condition in aircraft and that it is not a "significant regulatory action" under Executive Order 12866. It has been determined further that this action involves an emergency regulation under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979). If it is determined that this emergency regulation otherwise would be significant under DOT Regulatory Policies and Procedures, a final regulatory evaluation will be prepared and placed in the Rules Docket. A copy of it, if filed, may be obtained from the Rules Docket at the location provided under the caption **ADDRESSES**.

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends part 39 of the Federal Aviation Regulations (14 CFR part 39) as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding a new airworthiness directive to read as follows:

AD 2000-04-15 Bell Helicopter Textron

Canada: Amendment 39-11598. Docket No. 99-SW-77-AD.

Applicability: Model 222, serial number (S/N) 47006 through 47089; Model 222B, S/N 47131 through 47156; Model 222U, S/N 47501 through 47574; and Model 230, S/N 23001 through 23038, helicopters, with swashplate drive pin (drive pin), part number (P/N) 222-010-455-003, installed, certificated in any category.

Note 1: This AD applies to each helicopter identified in the preceding applicability provision, regardless of whether it has been otherwise modified, altered, or repaired in the area subject to the requirements of this AD. For helicopters that have been modified, altered, or repaired so that the performance of the requirements of this AD is affected, the owner/operator must request approval for an alternative method of compliance in accordance with paragraph (b) of this AD. The request should include an assessment of the effect of the modification, alteration, or repair on the unsafe condition addressed by this AD; and if the unsafe condition has not been eliminated, the request should include specific proposed actions to address it.

Compliance: Required as indicated, unless accomplished previously.

To prevent fatigue failure of a drive pin and subsequent loss of control of the helicopter, accomplish the following:

(a) Within the next 50 hours time-in-service (TIS), and thereafter at intervals not to exceed 150 hours TIS, inspect for damage or looseness and torque test any drive pin, P/N 222-010-455-003, in accordance with the Accomplishment Instructions of Bell Helicopter Textron Alert Service Bulletins 230-99-16, 222-99-84, or 222U-99-55, all dated February 15, 1999, as applicable. Replace any unairworthy drive pin with an airworthy drive pin.

(b) An alternative method of compliance or adjustment of the compliance time that provides an acceptable level of safety may be used if approved by the Manager, Regulations Group, Rotorcraft Directorate, FAA. Operators shall submit their requests through an FAA Principal Maintenance Inspector, who may concur or comment and then send it to the Manager, Regulations Group.

Note 2: Information concerning the existence of approved alternative methods of compliance with this AD, if any, may be obtained from the Regulations Group.

(c) Special flight permits may be issued in accordance with sections 21.197 and 21.199 of the Federal Aviation Regulations (14 CFR 21.197 and 21.199) to operate the helicopter to a location where the requirements of this AD can be accomplished.

(d) The inspection and torque test shall be done in accordance with the

Accomplishment Instructions of Bell Helicopter Textron Alert Service Bulletins 230-99-16, 222-99-84, or 222U-99-55, all dated February 15, 1999. This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Copies may be obtained from Bell Helicopter Textron Canada, 12,800 Rue de l'Avenir, Mirabel, Quebec JON1LO, telephone (800) 463-3036, fax (514) 433-0272. Copies may be inspected at the FAA, Office of the Regional Counsel, Southwest Region, 2601 Meacham Blvd., Room 663, Fort Worth, Texas; or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

(e) This amendment becomes effective on March 14, 2000.

Note 3: The subject of this AD is addressed in Transport Canada (Canada) AD CF-99-19, dated June 9, 1999.

Issued in Fort Worth, Texas, on February 16, 2000.

Henry A. Armstrong,

Manager, Rotorcraft Directorate, Aircraft Certification Service.

Federal Aviation Administration

14 CFR Part 71

[Airspace Docket No. 00-ASO-7]

Amendment of Class E Airspace; Lexington, NC

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule

SUMMARY: This action makes a technical amendment to the Class E5 airspace description at Lexington, NC, by changing the name of the Lexington Municipal Airport to the Davidson County Airport. This action also updates the airport coordinates.

EFFECTIVE DATE: 0901 UTC, April 20, 2000.

FOR FURTHER INFORMATION CONTACT: Nancy B. Shelton, Manager, Airspace Branch, Air Traffic Division, Federal Aviation Administration, P.O. Box 20636, Atlanta, Georgia 30320; telephone (404) 305-5627.

SUPPLEMENTARY INFORMATION:

History

Since the Lexington Municipal Airport, NC, has been renamed the Davidson County Airport, the Class E5

airspace description must be amended to reflect this change. Since this amendment is technical in nature and does not change the dimensions of the Class E airspace area, it has no impact on users of the airspace. This rule will become effective on the date specified in the **EFFECTIVE DATE** section.

The Rule

This amendment to Part 71 of the Federal Aviation Regulations (14 CFR part 71) makes a technical amendment to the Class E5 airspace description at Lexington, NC, by changing the airport name to Davidson County Airport and updating the airport coordinates.

Class E airspace areas are published in paragraph 6005 of FAA Order 7400.9G, dated September 1, 1999, and effective September 16, 1999, which is incorporated by reference in 14 CFR 71.1. The Class E airspace area listed in this document will be published subsequently in the Order.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR Part 71 as follows:

PART 71—DESIGNATION OF CLASS A, CLASS B, CLASS C, CLASS D AND CLASS E AIRSPACE AREAS; AIRWAYS; ROUTES; AND REPORTING POINTS

1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g); 40103, 40113, 40120; EO 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389; 14 CFR 11.69.

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of Federal Aviation Administration Order 7400.9G, Airspace Designations and Reporting Points, dated September 1, 1999, and effective September 16, 1999, is amended as follows:

Paragraph 6005 Class E airspace areas extending upward from 700 feet or more above the surface of the earth.

* * * * *

ASO NC E5 Lexington, NC [Revised]

Davidson County Airport, NC
(Lat. 35°46'52" N., long. 89°18'14" W.)

That airspace extending upward from 700 feet above within a 7-mile radius of Davidson County Airport; excluding that airspace within the Salisbury, NC, and Mocksville, NC, Class E airspace areas.

* * * * *

Issued in College Park, Georgia, on February 7, 2000.

Wade T. Carpenter,

*Acting Manager, Air Traffic Division,
Southern Region.*

Federal Aviation Administration

14 CFR Part 71

[Airspace Docket No. 99–ANM–03]

Removal of Class E Airspace; Oak Harbor, WA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule

SUMMARY: This action removes the Class E surface area at Oak Harbor, WA.

EFFECTIVE DATE: 0901 UTC, April 20, 2000.

FOR FURTHER INFORMATION CONTACT:

Dennis Ripley, ANM–520.6, Federal Aviation Administration, Docket No. 99–ANM–03, 1601 Lind Avenue S.W., Renton, Washington, 98055–4056; telephone number: (425) 227–2527.

SUPPLEMENTARY INFORMATION:

History

On April 22, 1999, the FAA proposed to amend Title 14, Code of Federal Regulations, part 71 (14 CFR part 71) by removing the Oak Harbor, Class E surface area (64 FR 19728). The airport is no longer eligible to retain a Class E surface area because of a lack of weather reporting. The weather reporting requirements for a surface area dictate that weather observations must be taken

by a Federally Certified Weather Observer and/or a Federally Commissioned Weather Observing System during the times and dates the surface area is designated. These weather observations routinely are not being met as required at the Oak Harbor Air Park. Attempts to have interested personnel fix the reporting problem were unsuccessful. The intended effect of this rule is designed to provide efficient and safe use of the navigable airspace. No comments were received.

The coordinates for this airspace docket are based on North American Datum 83. Class E airspace areas designated as en route domestic airspace areas are published in Paragraph 6002 of FAA Order 7400.9G, dated September 1, 1999, and effective September 16, 1999, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

The Rule

This amendment to 14 CFR part 71 removes the Class E surface area at the Oak Harbor Air Park, Oak Harbor, WA. The intended effect of this rule is designed to provide safe and efficient use of the navigable airspace and to promote safe flight operations at the Oak Harbor Air Park.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.
