Persons interested in being placed on a mailing list for future NPRM's should also request a copy of Advisory Circular No. 11-2A, which describes the application procedure.

The Proposal

The FAA is considering an amendment to Title 14 Code of Federal Regulations, part 71 (14 CFR part 71) by revising Class D and E4 airspace at Great Falls International Airport, Great Falls, MT, and removing Class D and E4 airspace at Malmstrom AFB, Great Falls, MT, in order to reconfigure airspace due to the closure of Malmstrom AFB. This amendment would provide revised airspace at Great Falls, MT, to better meet current airspace standards associated with established procedures at Great Falls International Airport. The FAA establishes airspace where necessary to contain aircraft transitioning between the terminal and

en route environments. The intended effect of this proposal is designed to provide for the safe and efficient use of the navigable airspace. This proposal would promote safe flight operations under Instrument Flight Rules (IFR) and Visual Flight Rules (VFR) at the Great Falls International Airport, Great Falls, MT, and between the terminal and en route transition stages.

The area would be depicted on aeronautical charts for pilot reference. The coordinates for this airspace docket are based on North American Datum 83. Class D surface airspace areas and Class E airspace areas designated as an extension to a Class D surface airspace, are published in Paragraph 6004, respectively, of FAA Order 7400.9G dated September 1, 1999, and effective September 16, 1999, which is incorporated by reference in 14 CFR 71.1 The Class D and Class E airspace designation listed in this document would be published subsequently in the Order.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendment are necessary to keep them operationally current. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Background and Purpose

OPSAIL 2000 Norfolk is sponsoring OPSAIL 2000 in the Port of Hampton Roads. Planned events in the Port of Hampton Roads include: the arrival of more than 200 Tall Ships and other vessels at Lynnhaven Anchorage on June 15 and 16, 2000; a Parade of Sail of approximately 200 Tall Ships and other vessels from that anchorage to Town Point Park, downtown Norfolk, on June 16, 2000; three fireworks displays adjacent to the Norfolk and Portsmouth seawalls on June 16, 17, and 18, 2000; and the scheduled departure of the majority of vessels on June 20, 2000. This event will substitute for the annual Harborfest, normally held on the first Friday, Saturday, and Sunday of June.

The Coast Guard anticipates 10,000 spectator craft for these events. Operators should expect significant vessel congestion along the parade route and viewing areas for the fireworks displays.

The purpose of these regulations is to promote maritime safety and protect participants and the boating public in the Port of Hampton Roads immediately prior to, during, and after the scheduled events. The regulations will establish a clear parade route for the participating vessels, establish no wake zones along
