Proposed Approval and Promulgation of California State Implementation Plan for San Diego County Air Pollution Control District

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve revisions to the California State Implementation Plan (SIP). The revisions are rules submitted by the State of California on behalf of the District to apply as general provisions for the implementation of NSR and other SIP requirements for stationary sources in the District.

The intended effect of proposing approval of these rules is to control air pollution in accordance with the requirements of the Act. In the Final Rules section of this **Federal Register**, the EPA is approving the State's SIP submittal as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision and anticipates no adverse comments. A detailed rationale for this approval is set forth in the direct final rule. If no adverse comments are received, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period. Any parties interested in commenting should do so at this time.

DATES: Comments on this proposed action must be received in writing by April 10, 2000.

ADDRESSES: Written comments on this action must be sent to David Albright at the Region IX mailing address listed below.

Copies of the rules and EPA's evaluation report of each rule are available for public inspection at EPA's Region 9 office during normal business hours at the following address: Permits Office (AIR-3), Air Division, U.S.

Approving Implementation Plans; California State Implementation Plan Revision, Ventura County Air Pollution Control District

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: EPA is proposing a limited approval and limited disapproval of revisions to the California State Implementation Plan (SIP) which concern several Ventura County Air Pollution Control District (District) rules about permitting and New Source Review (NSR) for stationary sources. EPA also proposes to delete from the SIP four rules that are obsolete. The rules subject to this action are both for general permitting requirements and for requirements specific to major new or modified air emission sources. A description of these rules is in our technical support document (TSD) in the administrative record for this action.

The intended effect of proposing limited approval and limited disapproval is to ensure the District's permitting and NSR rules are consistent with the requirements of the Clean Air Act, as amended in 1990 (CAA or the Act). EPA's final action will incorporate these rules into the federally approved SIP. Although the rules generally strengthen the SIP, some of the rules subject to this action do not fully meet the CAA requirements for non-attainment areas and contain deficiencies which must be corrected. The rules have been evaluated based on CAA guidelines for EPA action on SIP submittals and general rulemaking authority.

In this document we are also requesting comments on one issue.

DATES: Comments must be received by April 10, 2000.

ADDRESSES: Send comments to: Nahid Zoueshtiagh, Permits Office (AIR-3), Air Division, U.S. Environmental Protection Agency, Region 9, 75 Hawthorne Street, San Francisco, CA 94105-3901. You can

review and copy these rules, the existing SIP rules and EPA's TSD at EPA's Region 9 office from 8:00 AM to 4:00 PM Monday-Friday. A reasonable fee may be charged for copying. Copies of the submitted rules are also available for inspection at the following locations:

- Ventura County Air Pollution Control District, 669 County Square Drive, Ventura, California 93003.
