DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

Notice of Application for Approval of Discontinuance or Modification of a Railroad Signal System or Relief From the Requirements of Title 49 Code of Federal Regulations Part 236

Pursuant to Title 49 Code of Federal Regulations (CFR) Part 235 and 49 U.S.C. 20502(a), the following railroads have petitioned the Federal Railroad Administration (FRA) seeking approval for the discontinuance or modification of the signal system or relief from the requirements of 49 CFR Part 236 as detailed below.

Docket No. FRA-2000-6779.

Applicant: Union Pacific Railroad Company, Mr. Phil Abaray, Chief Engineer—Signals, 1416 Dodge Street, Room 1000, Omaha, Nebraska 68179-1000.

Union Pacific Railroad Company seeks approval of the proposed discontinuance and removal of the traffic control system, on the No. 3 main track, between C.P. 005, milepost 4.9 and C.P. 007, milepost 7.1, at East Los Angeles, California, consisting of the discontinuance and removal of controlled signal 3E, near milepost 5.9.

The reason given for the proposed changes is that signal 3E is a controlled leaving signal, and train crews are required to call the dispatcher to clear the signal, causing unnecessary delay to operations, radio traffic, and dispatcher activity.

Any interested party desiring to protest the granting of an application shall set forth specifically the grounds upon which the protest is made, and contain a concise statement of the interest of the Protester in the proceeding. Additionally, one copy of the protest shall be furnished to the applicant at the address listed above.

All communications concerning this proceeding should be identified by the docket number and must be submitted to the Docket Clerk, DOT Central Docket Management Facility, Room PI-401, Washington, D.C. 20590-0001.

Communications received within 45 days of the date of this notice will be considered by the FRA before final action is taken. Comments received after that date will be considered as far as practicable. All written communications

concerning these proceedings are available for examination during regular business hours (9:00 a.m.–5:00 p.m.) at DOT Central Docket Management Facility, Room PI-401 (Plaza Level), 400 Seventh Street, S.W., Washington, D.C. 20590-0001. All documents in the public docket are also available for inspection and copying on the internet at the docket facility's Web site at <http://dms.dot.gov>.

FRA expects to be able to determine these matters without an oral hearing. However, if a specific request for an oral hearing is accompanied by a showing that the party is unable to adequately present his or her position by written statements, an application may be set for public hearing.

Issued in Washington, D.C. on March 8, 2000.

Grady C. Cothen, Jr.,

Deputy Associate Administrator for Safety Standards and Program Development.

BILLING CODE 4910-06-P

DEPARTMENT OF AGRICULTURE

Agricultural Research Service

Notice of Federal Invention Available for Licensing and Intent To Grant Exclusive License

AGENCY: Agricultural Research Service, USDA.

ACTION: Notice of availability and intent.

SUMMARY: Notice is hereby given that the Federally owned invention U.S. Patent No. 5,909,786, issued June 8, 1999, entitled "Apparatus and Method for Reducing Fiber Waste by Lint Cleaners" is available for licensing and the U.S. Department of Agriculture, Agricultural Research Service, intends to grant to Continental Eagle Corporation, of Prattville, Alabama, an exclusive license to Serial No. 09/107,799.

DATES: Comments must be received on or before June 12, 2000.

ADDRESSES: Send comments to: USDA, ARS, Office of Technology Transfer, 5601 Sunnyside Avenue, Room 4-1158, Beltsville, Maryland 20705-5131.

FOR FURTHER INFORMATION CONTACT: June Blalock of the Office of Technology Transfer at the Beltsville address given above; telephone: 301-504-5989.

SUPPLEMENTARY INFORMATION: The Federal Government's patent rights to this invention is assigned to the United States of America, as represented by the Secretary of Agriculture. It is in the public interest to so license this invention as Continental Eagle

Corporation has submitted a complete and sufficient application for a license. The prospective exclusive license will be royalty-bearing and will comply with the terms and conditions of 35 U.S.C. 209 and 37 CFR 404.7. The prospective exclusive license may be granted unless, within ninety (90) days from the date of this published Notice, the Agricultural Research Service receives written evidence and argument which establishes that the grant of the license would not be consistent with the requirements of 35 U.S.C. 209 and 37 CFR 404.7.

Richard M. Parry, Jr.,

Assistant Administrator.

Notice of Federal Invention Available for Licensing and Intent To Grant Exclusive License

AGENCY: Agricultural Research Service, USDA.

ACTION: Notice of Availability and Intent.

SUMMARY: Notice is hereby given that a Federally owned invention, U.S. Patent No. Re. 35,460, a reissue of U.S. Patent No. 5,233,090, entitled "Method for Fiber Loading a Chemical Compound" is available for licensing and that the U.S. Department of Agriculture, Forest Service, intends to grant to Voith Sulzer Paper Technology North America Inc., of Appleton, Wisconsin, an exclusive license for U.S. Patent No. Re. 35,460.

DATES: Comments must be received on or before June 12, 2000.

ADDRESSES: Send comments to: USDA Forest Service, One Gifford Pinchot Drive, Madison, Wisconsin 53705-2398.

FOR FURTHER INFORMATION CONTACT: Janet I. Stockhausen of the USDA Forest Service at the Madison address given above; telephone: 608-231-9502.

SUPPLEMENTARY INFORMATION: The Federal Government's patent rights to this invention are assigned to the United States of America, as represented by the Secretary of Agriculture. It is in the public interest to so license this invention as Voith Sulzer Paper Technology North America Inc. has submitted a complete and sufficient application for a license. The prospective exclusive license will be royalty-bearing and will comply with the terms and conditions of 35 U.S.C.

209 and 37 CFR 404.7. The prospective exclusive license may be granted unless, within ninety (90) days from the date of this published Notice, the Forest Service receives written evidence and argument which establishes that the grant of the license would not be consistent with the requirements of 35 U.S.C. 209 and 37 CFR 404.7.

Animal and Plant Health Inspection Service

[Docket No. 99-098-1]

Environmental Impact Statement; Importation of Unmanufactured Wood Articles From Mexico

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice of intent.

SUMMARY: We are advising the public that the Animal and Plant Health Inspection Service intends to prepare an environmental impact statement relative to our proposed rule for the importation of pine and fir logs and lumber and other unmanufactured wood articles from Mexico. The environmental impact statement will examine the potential effects of the proposed rule on the human environment, including cumulative impacts of methyl bromide use that could result if our proposed rule is adopted. In order to identify cumulative impacts, the environmental impact statement will consider the incremental impact of the proposed rule when added to other past, present, and reasonably foreseeable future actions. We invite the public to comment on what specific issues we should address in the environmental impact statement. **DATES:** We will consider all comments that we receive by April 12, 2000.

ADDRESSES: Please send your comment and three copies to: Docket No. 99-098-1, Regulatory Analysis and Development, PPD, APHIS, Suite 3C03, 4700 River Road, Unit 118, Riverdale, MD 20737-1238.

Please state that your comment refers to Docket No. 99-098-1.

You may read any comments that we receive on this docket in our reading room. The reading room is located in room 1141 of the USDA South Building, 14th Street and Independence Avenue, SW., Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m.,

Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 690-2817 before coming.

APHIS documents published in the **Federal Register**, and related information, including the names of organizations and individuals who have commented on APHIS dockets, are available on the Internet at <http://www.aphis.usda.gov/ppd/rad/webrepor.html>.

FOR FURTHER INFORMATION CONTACT: Dr. Arnold Foudin, Senior Operations Officer, Policy Planning and Critical Issues, PPQ, APHIS, 4700 River Road Unit 147, Riverdale, MD 20737-1234; (301) 734-7601.

SUPPLEMENTARY INFORMATION:

Background

On June 11, 1999, the Animal and Plant Health Inspection Service (APHIS) published a proposed rule in the **Federal Register** (64 FR 31512-31518, Docket No. 98-054-1) to amend the regulations in 7 CFR part 319 to add restrictions on the importation of pine and fir logs and lumber and other unmanufactured wood articles from Mexico. Under the proposal, certain unmanufactured wood articles would be required to be treated in order to be eligible for importation into the United States. The proposed rule would allow treatment with methyl bromide as an alternative to heat treatment.

Several of the comments we received on the proposed rule and its accompanying environmental assessment indicated the need to consider the cumulative environmental impacts of methyl bromide use. Regulations issued by the Council on Environmental Quality (CEQ) implementing the National Environmental Policy Act of 1969 (NEPA), as amended (42 U.S.C. 4321 *et seq.*), define "cumulative impact" as "the impact on the environment which results from the incremental impact of the action when added to other past, present, and reasonably foreseeable future actions regardless of what agency (Federal or non-Federal) or person undertakes such other actions. Cumulative impacts can result from individually minor but collectively significant actions taking place over a period of time."

Based on the comments described above, APHIS intends to prepare an environmental impact statement (EIS) relative to our proposed rule for the importation of pine and fir logs and lumber and other unmanufactured wood articles from Mexico. The EIS will consider, among other things, the

cumulative environmental impacts of methyl bromide use that could result if the proposed rule is adopted. As provided in the definition above, to fully consider the incremental impacts of methyl bromide use that could result if our proposed rule is adopted, we also need to identify other past, present, and reasonably foreseeable uses of methyl bromide.

We plan to seek assistance from, and coordinate closely with, among others, experts at the U.S. Environmental Protection Agency and the United Nations Environmental Programme in drafting the EIS and in identifying uses of methyl bromide. This notice also requests public comments to help us identify other significant environmental issues that should be addressed or analyzed in the EIS and to help us identify additional uses of methyl bromide.

The EIS will analyze the full range of alternatives available to the decisionmaker in the APHIS rulemaking proceeding described above, including "no action"; use of the entire range of treatment options, including methyl bromide; and treatment options other than methyl bromide.

The EIS will also identify other APHIS and non-APHIS uses of methyl bromide in order to determine the potential incremental cumulative impacts that could result if our proposed rule is adopted.

This notice and the upcoming EIS are intended to fulfill the requirements of both NEPA and Executive Order 12114, "Environmental Effects Abroad of Major Federal Actions," to the extent applicable. A notice announcing the availability of the draft EIS for review will be published in the **Federal Register**. The notice will also request comments on the draft EIS.

This notice is issued in accordance with: (1) NEPA, (2) regulations of the Council on Environmental Quality for implementing the procedural provisions of NEPA (40 CFR parts 1500-1508), (3) USDA regulations implementing NEPA (7 CFR part 1b), and (4) APHIS' NEPA Implementing Procedures (7 CFR part 372).

Done in Washington, DC, this 7th day of March 2000.

Bobby R. Acord,

Acting Administrator, Animal and Plant Health Inspection Service.
