They are responsible for the technical evaluation and review of the ECOFRAM reports and workshop comments, which were used as a starting point for developing an approach for implementing changes to the current deterministic assessment process.

Thus, EFED will provide the Panel with an update regarding the progress of this initiative and seeks the Panel's comments and recommendations. EFED's presentation will include a summary of the ECOFRAM draft reports, the peer input panel comments, and an overview of the conceptual risk assessment model being proposed by the Implementation Team. This model is based on a tiered approach for implementing aquatic and terrestrial probabilistic assessments in OPP.

B. Panel Report

Copies of the Panel's report of their recommendations will be available approximately 45 working days after the meeting, and will be posted on the FIFRA SAP web site or may be obtained by contacting the Public Information and Records Integrity Branch at the address or telephone number listed in Unit III. of this document.
