

be extended to the proposed Job Corps Center property parcel in accordance with all applicable building codes. This is not expected to create any significant impacts to the environment or to the regional utility infrastructure.

The major highway that connects the GWLHDC facility with nearby metropolitan cities is U.S. Highway 10, located east of the Carville property. No public transportation is available to or from the proposed Job Corps Center. Private bus transportation is available from the Greyhound Bus Company with a bus station located in St. Gabriel. Rail transportation is provided by Amtrak with a station located in Baton Rouge. Air transportation is provided by several commercial carriers, including American Eagle, Continental, Delta Northwest, and USAirways, at the Baton Rouge Metropolitan Airport. The construction of a new Job Corps Center will not have any significant impact on the regional transportation infrastructure.

No significant adverse affects to local medical, emergency, fire and police services are anticipated. The primary medical provider located closest to the proposed Job Corps parcel is the Baton Rouge General Medical Center, approximately 15 miles from the proposed Job Corps parcel. The Job Corps Center will have a small medical and dental facility on-site for use by the residents as necessary. Security services at the Job Corps will be provided by the center's security staff, with two (2) personnel on the day shift, three (3) on the evening shift, and two (2) on the night shift. Law enforcement services are provided by the Iberville Parish Sheriff Office Substation, located approximately 5 miles from the proposed project site. The local fire station is the East Iberville Fire Department located in St. Gabriel. The fire department consists of three (3) stations with approximately 35 volunteers. The GWLHDC has entered into a Memorandum of Agreement with the Iberville Volunteer Fire Department for all emergency services.

The proposed project will not have a significant adverse sociological affect on the surrounding community. Similarly, the proposed project will not have a significant adverse affect on demographic and socioeconomic characteristics of the area.

The alternatives considered in the preparation of this FONSI were as follows: (1) No Action; (2) Construction at an Alternate Site; and (3) Continue Construction as Proposed. The "No Action" alternative was not selected. The U.S. Department of Labor's goal of expanding the Job Corps Program by

establishing new Job Corps Center in under-served regions of the United States would not be met under this alternative. "Construction at an Alternate Site" was not selected because the Carville site was the only proposed facility in the State of Louisiana, and no alternative sites are available for construction within the State of Louisiana. Due to the suitability of the proposed site for establishment of a new Job Corps Center, and the absence of any identified significant adverse environmental impacts from locating a Job Corps Center on the subject property, the "Continue Construction as Proposed" alternative was selected.

Based on the information gathered during the preparation of the EA, no environmental liabilities, current or historical, were found to exist on the proposed Job Corps Center site. The construction of the Job Corps Center at the Gillis W. Long Hansen's Disease Center, 5445 Point Clair Road, in Carville, Iberville Parish, Louisiana will not create any significant adverse impacts on the environment.

Dated at Washington, DC, this 21st day of March, 2000.

Mary H. Silva,

Director of Job Corps.

DEPARTMENT OF LABOR

Employment and Training Administration

Job Training Partnership Act and Workforce Investment Act; Migrant and Seasonal Farmworker Employment and Training Advisory Committee; Notice of Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Public Law 92-463) as amended, notice is hereby given of the scheduled meeting of the Migrant and Seasonal Farmworker Employment and Training Advisory Committee.

Time and Date: The meeting will begin at 9:00 a.m. on May 4, 2000, and continue until approximately 4:30 p.m., and will reconvene at 9:00 a.m. on May 5, 2000, and adjourn at close of business that day. Time is reserved from 1:30 to 3:00 p.m. on May 4, 2000 for participation and presentations by members of the public.

Place: Mexican American Unity Council Building, Conference Room, 2300 West Commerce Street, San Antonio, Texas 78207-3841.

Status: The meeting will be open to the public. Persons with disabilities

who need special accommodations should contact the telephone number provided below no less than ten days before the meeting.

Matters to be Considered: The agenda will focus on the following topics:

Brief report of meeting of December 2, 3, 1999

Public Comment Session

Division of Seasonal Farmworker

Program Report and Update

Presentation on Final Workforce

Investment Act Regulations

Preparation of Strategic Plan for

Advisory Committee

FOR FURTHER INFORMATION CONTACT:

Alicia Fernandez-Mott, Chief, Division of Migrant and Seasonal Farmworker Programs, Office of National Programs, Employment and Training Administration, Room N-4641, 200 Constitution Ave., NW, Washington, DC 20210. Telephone: (202) 219-5500.

Signed at Washington, DC, this 21st day of March, 2000.

Alicia Fernandez-Mott,

Acting Director, Office of National Programs, Employment and Training Administration.

DEPARTMENT OF LABOR

Employment and Training Administration

[NAFTA-3415]

AMP, Inc., a Tyco International Ltd. Company, Fiber Optic Division, Middletown, Pennsylvania; Notice of Revised Determination on Reconsideration

By letter of February 10, 2000, petitioners requested reconsideration of the Department's negative determination applicable to workers and former workers of the subject firm.

The initial investigation resulted in a negative determination issued on December 28, 1999, based on the finding that criterion (1) of the worker group eligibility requirements of paragraph (a)(1) of section 250 of the Trade Act of 1974, as amended, was not met. Net employment at the Larue facility increased in 1999 compared to 1998. The notice of negative determination was published in the **Federal Register** on January 14, 2000 (65 FR 2433).

The petitioners presented information showing that the articles subject of the petition investigation were produced in Middletown, not Larue, Pennsylvania. On reconsideration the company provided employment data for the Middletown, Pennsylvania plant of the

subject firm. Employment declined from 1998 to 1999 and in the first two months of 2000. The initial investigation confirmed that there was a shift in production of fiber optic connectors from Middletown to Mexico. The workers at the plant are not separately identifiable by product line.

Conclusion

After careful consideration of the new facts obtained on reconsideration, I conclude that there was a shift in production from the workers' firm to Mexico of articles that are like or directly competitive with those produced by the subject firm. In accordance with the provisions of the Trade Act of 1974, I make the following revised determination:

All workers of AMP, Incorporated, A Tyco International LTD. Company, Fiber Optic Division, Middletown, Pennsylvania, who became totally or partially separated from employment on or after August 30, 1998, are eligible to apply for NAFTA-TAA under Section 250 of the Trade Act of 1974.

Signed at Washington, DC this 20th day of March 2000.

Grant D. Beale,

Program Manager, Division of Trade Adjustment Assistance.

[NAFTA-3369]

Superior-Essex, Pauline, KS; Notice of Affirmative Determination Regarding Application for Reconsideration

By letter of February 25, 2000, the United Steelworkers of America (USWA) request administrative reconsideration of the Department of Labor's Notice of Negative Determination Regarding Eligibility to Apply for North American Free Trade Agreement—Transitional Adjustment Assistance (NAFTA-TAA) for workers of the subject firm. The denial notice was signed January 14, 2000, and published in the **Federal Register** on February 4, 2000 (FR 65 5691).

The USWA acknowledges that the subject firm is not shifting production of copper building wire to Mexico, but states that the production of copper rod has been shifted from the Pauline, Kansas plant of Superior-Essex to Mexico.

Conclusion

After careful review of the application, I conclude that the claim is of sufficient weight to justify reconsideration of the Department of Labor's prior decision. The application is, therefore, granted.

Signed at Washington, DC this 20th day of March 2000.

Grant D. Beale,

Program Manager, Division of Trade Adjustment Assistance.

BILLING CODE 4510-30-M

DEPARTMENT OF LABOR

Mine Safety and Health Administration

Proposed Information Collection Request Submitted for Public Comment and Recommendations; Fire Protection (Underground Coal Mines)

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) (44 U.S.C. 3506(c)(2)(A)). This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed.

DATES: Submit comments on or before May 26, 2000.

ADDRESSES: Send comments to Theresa M. O'Malley, Program Analysis Officer, Office of Program Evaluation and Information Resources, 4015 Wilson Boulevard, Room 715, Arlington, VA 22203-1984. Commenters are encouraged to send their comments on a computer disk, or via Internet E-mail to tomalley@msha.gov, along with an original printed copy. Ms. O'Malley can be reached at (703) 235-1470 (voice), or (703) 235-1563 (facsimile).

FOR FURTHER INFORMATION CONTACT: Theresa M. O'Malley, Program Analysis Officer, Office of Program Evaluation and Information Resources, U.S. Department of Labor, Mine Safety and Health Administration, Room 719, 4015 Wilson Boulevard, Arlington, VA 22203-1984. Ms. O'Malley can be

reached at tomalley@msha.gov (Internet E-mail), (703) 235-1470 (voice), or (703) 235-1563 (facsimile).

SUPPLEMENTARY INFORMATION:

I. Background

Subpart L of 30 CFR part 75, establishes minimum fire protection requirements for underground coal mines. This subpart contains provisions requiring that a program for the instruction of miners in fire fighting and evacuation procedures be adopted by the mine operator and approved by the MSHA district manager. Subpart L also contains provisions requiring fire extinguishers to be examined every 6 months, fire drills to be conducted every 90 days, automatic fire sensor and warning device systems to be examined weekly and tested annually, and fire hydrants and hose to be tested at least once a year. These provisions also require that the mine operator maintain a record or certification that the fire drills and examinations and tests are conducted.

II. Desired Focus of Comments

Currently, the Mine Safety and Health Administration (MSHA) is soliciting comments concerning the proposed extension of the information collection related to the Fire Protection (Underground Coal Mines). MSHA is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

A copy of the proposed information collection request may be viewed on the Internet by accessing the MSHA Home Page (<http://www.msha.gov>) and then choosing "Statutory and Regulatory Information" and "Paperwork Reduction Act Submissions (<http://www.msha.gov/regspwork.htm>)", or by contacting the employee listed above in
