

LNG Limited Partnership (Cove Point) tendered for filing a request for an extension of time in which to comply with the requirement to make a *pro forma* tariff filing, by May 1, 2000, to implement certain tariff changes regarding scheduling, capacity segmentation and penalties, as mandated by Order No. 637.

Cove Point argues that reopening of Cove Point's LNG tanker discharging service will result in a significant increase in the volume of revaporized LNG and natural gas being delivered out of Cove Point's facilities into the natural gas pipelines interconnected with Cove Point. Cove Point states that the increased throughput will necessitate changes to operations at Cove Point which will involve those subject matters covered by Order No. 637.

Cove Point requests that it be granted an extension of time to comply with the requirements of Order No. 637 that have a May 1, 2000 compliance deadline, so that the required tariff changes would be effective on the date that the tariff sheets approved for the reactivation of the LNG discharging terminal are effective.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Sections 385.214 or 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed on or before March 30, 2000. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene.

Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room. This filing may be viewed on the web at <http://www.ferc.fed.us/online/rims.htm> (call 202-208-2222 for assistance).

[Docket No. RP00-115-001]

### Federal Energy Regulatory Commission Panhandle Eastern Pipe Line Company; Notice of Filing of Reconciliation Report

March 23, 2000.

Take notice that on March 10, 2000, Panhandle Eastern Pipe Line Company

(Panhandle) tendered for filing its reconciliation report in accordance with Article I, Section 3(e)(ii) of the April 18, 1996 Stipulation and Agreement in Docket No. RP95-411-000 (Settlement) and the Commission's letter order issued December 17, 1999 in Docket No. RP00-115-000.

Panhandle states that pursuant to the Commission's December 30, 1998 order in Docket No. RP99-175-000 it established the Second Carryover GSR Settlement Interruptible Rate Component to be effective during the twelve month period commencing January 1, 1999. On December 1, 1999 Panhandle filed in Docket No. RP00-115-000 to suspend the Second Carryover GSR Settlement Interruptible Rate Component applicable to Rate Schedules IT and EIT effective January 1, 2000. The Commission's letter order issued December 17, 1999 approving the filing in Docket No. RP00-115-000 required Panhandle to file a reconciliation report by March 31, 2000.

Panhandle states that copies of its filing are being served on all to the proceedings in Docket No. RP95-411-000.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Section 385.211 of the Commission's Rules and Regulations. All such protests must be filed on or before March 30, 2000. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room. This filing may be viewed on the web at <http://www.ferc.fed.us/online/rims.htm> (call 202-208-2222 for assistance).

### Federal Energy Regulatory Commission

[Docket No. ES00-22-000]

### Sun River Electric Cooperative, Inc; Notice of Filing

March 23, 2000.

Take notice that on March 20, 2000, Sun River Electric Cooperative, Inc. (SREC) submitted for filing an application pursuant to Section 204 of

the Federal Power Act. SREC seeks authorization to borrow money pursuant to a loan agreement with the National Rural Utilities Cooperative Finance Corporation (CFC) in an amount not to exceed \$28,500,000. SREC also seeks authorization to borrow under a revolving line of credit in place with CFC in an amount not to exceed \$2,000,000.

SREC also requests a waiver of the Commission's competitive bidding and negotiated placement requirements in 18 CFR 34.2.

Any person desiring to be heard or to protest such filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions and protests should be filed on or before April 5, 2000. Protests will be considered by the Commission to determine the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection. This filing may also be viewed on the Internet at <http://www.ferc.fed.us/online/rims.htm> (call 202-208-2222 for assistance).

## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Docket No. CP00-127-000]

### Transcontinental Gas Pipe Line Corporation; Notice of Application

March 23, 2000.

Take notice that on March 16, 2000, Transcontinental Gas Pipe Line Corporation (Transco), Post Office Box 1396, Houston, Texas 77251, filed an application for a certificate of public convenience and necessity authorizing Transco to construct and operate certain facilities at its Compressor Station No. 120 in Henry County, Georgia in order to comply with the Clean Air Act Amendments of 1990, all as more fully set forth in the application on file with the Commission and open to public inspection. This filing may be viewed

on the web at <http://www.ferc.fed.us/online/rims.htm> (call 202-208-2222 for assistance).

Transco proposes to modify several of its existing reciprocating engines at Compressor Station No. 120 (Station 120) in order to comply with the State of Georgia plan to implement the Clean Air Act Amendments of 1990. Station 120 has 18 units including 15 reciprocating/compressor units, one Solar Centaur gas turbine, and two 12,000 HP Ansaldto electric motor driven centrifugal compressor units. The facilities at Station 120 are located within a fenced area of approximately 20 acres.

Transco states that it plans to install turbochargers and associated equipment on 8 of the 15 reciprocating engines in order to reduce NO<sub>x</sub> emissions. Transco plans to modify the existing turbochargers at the other 7 reciprocating units to increase their capacity and install associated equipment in order to reduce NO<sub>x</sub> emissions. Transco states that the 8 engines which will have turbochargers installed will have the potential to perform above their current operating horsepower. However, since Station 120 is automated, Transco says that it has the ability to shut down other engines or reduce its load to ensure that the station will not operate above the station's total certificated horsepower. Since Transco will install these turbochargers at Station 120 solely to achieve an environmental improvement, *i.e.*, lower NO<sub>x</sub> emissions, Transco states that it has no intent or need to operate the station above its certificated horsepower. Therefore, when Transco installs these turbochargers at Station 120 Transco states that it will adjust the automation program at the station so that it will not operate above its certificated horsepower.

At the other 7 engines, Transco states that modification of the existing turbochargers to increase their capacity will not create the potential of these engines performing above their current operating horsepower because the engines are already operating at maximum horsepower and cannot operate at a higher horsepower output. Accordingly, Transco emphasizes that there will be no increase in the capacity of Transco's system in the vicinity of the station as a result of installing the 8 new turbochargers and modifying the 7 existing turbochargers.

Transco estimates that the proposed modifications will cost \$25.4 million.

Transco states that it needs to commence the work at Station 120 on May 15, 2000 in order to complete the work on a timely basis with respect to

the requirements of the Clean Air Act Amendments of 1990 and the state implementation plan, while at the same time accommodating the operational needs of its pipeline system and ensuring that Transco's gas service obligations are met. Accordingly, Transco requests that the Commission issue a certificate of public convenience and necessity by May 15, 2000.

Any questions regarding this application should be directed to Alfred E. White, Jr., Senior Attorney, Transcontinental Gas Pipe Line Corporation, P.O. Box 1396, Houston, Texas 77251 14203 at (713) 215-2000.

Any person desiring to be heard or to make a protest with reference to said application should on or before April 13, 2000, file with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211 or 385.214) and the regulations under the Natural Gas Act (NGA) (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's rules.

A person obtaining intervenor status will be placed on the service list maintained by the Commission and will receive copies of all documents issued by the Commission, filed by the applicant, or filed by all other intervenors. An intervenor can file for rehearing of any Commission order and can petition for court review of any such order. However, an intervenor must submit copies of comments or any other filing it makes with the Commission to every other intervenor in the proceeding, as well as 14 copies with the Commission.

A person does not have to intervene, however, in order to have comments considered. A person, instead, may submit two copies of comments to the Secretary of the Commission. Commenters will be placed on the Commission's environmental mailing list, will receive copies of environmental documents and be able to participate in meetings associated with the Commission's environmental review process. Commenters will not be required to serve copies of filed documents on all other parties. However, commenters will not receive copies of all comments filed by other

parties or issued by the Commission and not have the right to seek rehearing or appeal the Commission's final order to a federal court.

The Commission will consider all comments and concerns equally, whether filed by commenters or those requesting intervenor status.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Commission by Sections 7 and 15 of the NGA and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Transco to appear or be represented at the hearing.

**Linwood A. Watson, Jr.,**

*Acting Secretary.*

### Federal Energy Regulatory Commission

[Docket No. EC00-64-000, et al.]

#### **Cobisa-Person Limited Partnership, et al.; Electric Rate and Corporate Regulation Filings**

March 22, 2000.

Take notice that the following filings have been made with the Commission:

#### **1. Cobisa-Person Limited Partnership**

[Docket No. EC00-64-000]

Take notice that on March 16, 2000, Cobisa-Person Limited Partnership (Cobisa-Person), 820 Gessner, Suite 930, Houston, Texas 77024, submitted for filing an application for approval under Section 203 of the Federal Power Act of the acquisition of Cobisa-Person by affiliates of Delta Power Company, LLC and John Hancock Life Insurance Company. No determination has been made that the submittal constitutes a complete filing.

According to the applicant, Cobisa-Person is developing an approximately 140 MW natural gas and oil-fired
