Science Advisory Board; Notification of Public Advisory Committee Meeting

Pursuant to the Federal Advisory Committee Act, Public Law 92-463, notice is hereby given that the Clean Air Scientific Advisory Committee (CASAC) Technical Subcommittee for Fine Particle Monitoring will meet on Tuesday and Wednesday, April 18-19, 2000 at the Governor's Inn, Route 54 and Davis Drive, Research Triangle Park, NC. The meeting will begin at 7:30 am and end no later than 5:00 pm on April 18th and begin at 9:00 am and end no later than 1:00 pm on April 19th. All times noted are Eastern Daylight Savings Time. The meeting is open to the public, however, due to limited space, seating will be on a first-come basis. For further information concerning specific meetings, please contact the individuals listed below.

Important Notice: Documents that are the subject of CASAC reviews are normally available from the originating EPA office and are not available from the CASAC Office—information concerning availability of documents from the relevant Program Office is included below.

Purpose of the Meeting—This technical subcommittee of CASAC was established in 1996 to provide advice and comment to EPA (through CASAC) on appropriate methods and network strategies for monitoring fine particles in the context of implementing the revised national ambient air quality standards (NAAQS) for particulate matter. The Subcommittee provided such advice on the Federal Reference Method and mass based fine particle network in July 1996 and is now meeting to examine EPA's plans and guidance for several components of the fine particle monitoring network and how these components are linked to research priorities for particulate matter.

At the meeting, staff from the Office of Air Quality Planning and Standards (OAQPS) and the Office of Research and Development (ORD) will provide briefings regarding status for the fine particle monitoring program with an emphasis on the chemical speciation and "Supersites" study programs. These briefings will include a review of the assessment of initial performance of chemical speciation samplers and progress reports on the chemical speciation and supersites networks. In addition, EPA will provide preliminary plans for developing coarse particle monitoring methods. The Agency staff and Subcommittee members will discuss the specific issues for the Charge to the Subcommittee during the meeting.

Availability of Review Materials: Hard copies of any background materials will be available from Ms. Brenda Millar, Office of Air Quality Planning and Standards (MD-14), U.S. EPA, Research Triangle Park, NC 27711. Ms. Millar can also be reached by telephone at (919) 541-4036 or by fax at (919) 541-1903. Electronic versions of the materials will be available on the Agency's TTN Bulletin Board, at <http://www.epa.gov/ttn/amtic>.

Notice of Availability of the Tribal Drinking Water Operator Certification Program Draft Guidelines

AGENCY: Environmental Protection Agency.

ACTION: Notice of availability.

SUMMARY: The U.S. Environmental Protection Agency (EPA) is seeking comments from Tribes and other parties who will be affected by or are otherwise interested in the Tribal Drinking Water Operator Certification Program Draft Guidelines. EPA will consider the comments received when developing the final guidelines. There will be a 90-day comment period starting from the publication date of this notice of availability.

DATES: Comments should be postmarked or received via email by June 27, 2000.

ADDRESSES: Send comments to Attn: Staci Gatica (MC: 4606), Environmental Protection Agency, Ariel Rios Building, 1200 Pennsylvania Ave. NW, Washington DC 20460. Comments can also be sent via email to gatica.staci@epamail.epa.gov. Typed comments are preferred.

AVAILABILITY: Please contact the Safe Drinking Water Hotline at 1-800-426-4791 to receive a copy of the Tribal Drinking Water Operator Certification Program Draft Guidelines. The draft guidelines are also available on the EPA Office of Ground Water and Drinking Water website at <http://www.epa.gov/safewater/tribal.html>.

FOR FURTHER INFORMATION CONTACT: The Safe Drinking Water Hotline, toll free (800) 426-4791, can be contacted for general information about and copies of this document. For technical inquiries, contact Staci Gatica, Implementation and Assistance Division, Office of Ground Water and Drinking Water (4606), Environmental Protection Agency, Ariel Rios Building, 1200 Pennsylvania Ave. NW, Washington DC 20460. The telephone number is (202) 260-3967 and the e-mail address is gatica.staci@epamail.epa.gov.

SUPPLEMENTARY INFORMATION: The Safe Drinking Water Act (SDWA) Amendments of 1996 direct the EPA, in cooperation with the States, to develop guidelines specifying minimum standards for certification and recertification of operators of State community and nontransient noncommunity public water systems. The requirements pertaining to States do not apply to Tribes but because having a certified operator is a key factor in public health protection, EPA is developing, in cooperation with Tribes, a voluntary Tribal Drinking Water Operator Certification Program. This program is intended to protect public health by providing Tribes with additional opportunities to become trained and certified, by developing base standards for non-State organizations certifying operators of tribal systems and by establishing a consistent method of assessing, tracking, and addressing certification and training needs on tribal lands.

Director, Office of Ground Water and Drinking Water, U.S. Environmental Protection Agency.
