

### Notice of Required Determinations, Contract Provisions and Opportunity To Comment

The Comprehensive Environmental Response, Compensation, and Liability Act of 1980 ("CERCLA") as amended, (commonly known as "Superfund") requires completion of enforcement activities at Superfund sites in concert with other site events. EPA has entered into a contract, No. 68-S9-00-10, with SAIC for Superfund enforcement support services. These services will be provided to EPA by SAIC and its subcontractors Cotton & Co. of Alexandria, VA; Indus Corporation of Vienna, VA; Jonas & Associates, Inc. of Walnut Creek, CA; Petroleum Properties of Dixon CA; KPMG LLP of San Francisco, CA; McDonald & Associates of Capay, CA; Orswell & Kasman of Pasadena, CA; Power Partners, Inc. of San Francisco, CA; and ReVision, Inc. of Denver, CO. EPA has determined that disclosure of CBI to SAIC employees, and its subcontractors' employees, is necessary in order that SAIC may carry out the work required by that contract with EPA. The information EPA intends to disclose includes submissions made by Potentially Responsible Parties to EPA in accordance with EPA's enforcement activities at Superfund sites. The information would be disclosed to the contractor and its subcontractor for any of the following reasons: to assist with document handling, inventory, and indexing; to assist with document review and analysis; to verify completeness; and to provide technical review of submittals. The contract complies with all requirements of 40 CFR 2.301(h)(2)(ii), incorporated by reference into 40 CFR 2.310(h)(2). EPA Region 9 will require that each SAIC employee and subcontractor employee sign a written agreement that he or she: (1) Will use the information only for the purpose of carrying out the work required by the contract, (2) shall refrain from disclosing the information to anyone other than EPA without prior written approval of each affected business or of an EPA legal office, and (3) shall return to EPA all copies of the information (and any abstracts or extracts therefrom) upon request from the EPA program office, whenever the information is no longer required by SAIC and its subcontractors for performance of the work required by the contract or upon completion of the contract or subcontract.

### National Drinking Water Advisory Council; Contaminant Candidate List and 6-Year Review of Existing Regulations Working Group; Notice of Open Meeting

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** Under section 10(a)(2) of Public Law 92-423, "The Federal Advisory Committee Act," notice is hereby given that a meeting of the Contaminant Candidate List (CCL) Regulatory Determination and 6-Year Review of Existing Regulation Working Group of the National Drinking Water Advisory Council established under the Safe Drinking Water Act, as amended (42 U.S.C. S300f *et seq.*), will be held on May 2, 2000 from 1 pm until 5 pm ET (approximately), at 401 M Street SW., Washington, DC 20460, Conference Room 1209, East Tower. The meeting is open to the public to observe and statements will be taken from the public as time allows. Seating is limited.

This is the third and final meeting to address regulatory determination from the CCL. The purpose of the meeting is to continue discussions on the development of recommended protocols for regulatory determinations for CCL chemical and microbial contaminants, finalize the draft framework developed by the EPA at the first meeting, provide specific recommendations for analyzing and presenting the available scientific data, and recommend methods to identify and document the judgments made to arrive at a conclusion. For CCL regulatory determinations, the Working Group will develop protocols for both chemical and microbial contaminants that will be robust enough to apply to contaminants on the current and future CCLs. Due to the statutory deadlines mandated by the SDWA's 1996 Amendments, the Working Group will finalize the protocol for CCL regulatory determinations before beginning work on the protocol(s) for the 6-year review of existing NPDWRs.

The working group members have also been asked to draft proposed position papers for deliberation by the advisory council, and provide advice and recommendations to the full National Drinking Water Advisory Council.
