**FOR FURTHER INFORMATION CONTACT:** Tannika Engelhard at the above U.S. Fish and Wildlife Service Office, Austin, TX.

**SUPPLEMENTARY INFORMATION:** Section 9 of the Act prohibits the "taking" of endangered species such as the Houston toad. However, the Service, under limited circumstances, may issue permits to take endangered wildlife species incidental to, and not the purpose of, otherwise lawful activities. Regulations governing permits for endangered species are at 50 CFR 17.22.

#### Applicant

Paula Hanks and Jason Sims plan to construct one single family residence on 0.5 acres of the 7.6-acre Lot 20, Section 2 in the Circle D Country Acres Subdivision, Bastrop County, Texas. This action will eliminate less than one acre of habitat and result in an unquantifiable amount of indirect impact. The applicants propose to compensate for this incidental take of the Houston Toad by providing \$1,500.00 to the National Fish and Wildlife Foundation for the specific purpose of land acquisition and management within Houston toad habitat, as identified by the Service.

Alternatives to this action were rejected because not developing the subject property with federally listed species present was not economically feasible and alteration of the project design would not alter the level of impacts.

**AGENCY:** Department of the Interior, Bureau of Land Management in cooperation with the Department of Defense, Nellis Air Force Base and the United States Fish and Wildlife Service.

**ACTION:** Notice of Intent. The Bureau of Land Management is proposing to revise the existing Nellis Air Force Range Resource Plan based on specific direction within Public Law 106-65, section 3014. The BLM will include an amendment to the Tonopah Resource Management Plan which will prescribe management of the lands identified for return to public land management, all in one action.

**SUMMARY:** New issues have surfaced which require additional analysis to determine the best use of the existing resources. New issues include: (1) The Nellis Range is located in the serious non-attainment for PM 10 and Carbon Monoxide; (2) management of the Wild Horses on the range has caused much controversy over the past 10 years; (3) approximately 30,000 acres may be returned to public land management status provided it is hazardous materials free. The Bureau is interested in other issues the public will present as part of the record.

Due to an accelerated timeline set forth by Congress and the President, for completion of this revised Nellis Range Resource Plan, October 5, 2001, the BLM will ensure the process proceeds as quickly as possible.

**COOPERATING AGENCY STATUS:** This plan revision is being completed in full cooperation with the United States Fish and Wildlife Service and the Department of Defense. Based on other express interest by other State and Federal agencies as well as all three county's affected by this action, we anticipate additional interest in cooperating agency status. We will either wait until the Notice of Availability is sent to identify those additional cooperators or issue a separate **Federal Register** notice in the next 2 to 3 months.

**ACTION:** Notice of extension of a currently approved information collection (OMB Control Number 1010-0053).

**SUMMARY:** As part of its continuing effort to reduce paperwork and respondent burden, MMS invites the public and other Federal agencies to comment on a proposal to extend the currently approved collection of information discussed below on oil and gas drilling operations. We intend to submit this collection of information to the Office of Management and Budget (OMB) for approval. The Paperwork Reduction Act of 1995 (PRA) provides that an agency may not conduct or sponsor, and a

person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

**DATES:** Submit written comments by June 16, 2000.

**ADDRESSES:** Mail or hand carry comments to the Department of the Interior; Minerals Management Service; Attention: Rules Processing Team; Mail Stop 4024; 381 Elden Street; Herndon, Virginia 20170-4817. Our practice is to make comments, including names and home addresses of respondents, available for public review during regular business hours. Individual respondents may request that we withhold their home address from the rulemaking record, which we will honor to the extent allowable by law. There may be circumstances in which we would withhold from the record a respondent's identity, as allowable by the law. If you wish us to withhold your name and/or address, you must state this prominently at the beginning of your comment. However, we will not consider anonymous comments. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public inspection in their entirety.

#### SUPPLEMENTARY INFORMATION:

*Title:* 30 CFR 250, Subpart D, Oil and Gas Drilling Operations.

*OMB Control Number:* 1010-0053.

*Abstract:* The Outer Continental Shelf (OCS) Lands Act, 43 U.S.C. 1331 *et seq.*, requires the Secretary of the Interior to preserve, protect, and develop oil and gas resources in the OCS; make such resources available to meet the Nation's energy needs as rapidly as possible; balance orderly energy resources development with protection of the human, marine, and coastal environment; ensure the public a fair and equitable return on the resources offshore; and preserve and maintain free enterprise competition. Section 1332(6) of the OCS Lands Act (43 U.S.C. 1332) requires that "operations in the [O]uter Continental Shelf should be conducted in a safe manner by well-trained personnel using technology, precautions, and techniques sufficient to prevent or minimize the likelihood of blowouts, loss of well control, fires, spillages, physical obstruction to other users of the waters or subsoil and

seabed, or other occurrences which may cause damage to the environment or to property, or endanger life or health." This authority and responsibility are among those delegated to MMS. To carry out these responsibilities, MMS issues regulations governing oil and gas and sulphur operations in the OCS. This collection of information addresses 30 CFR 250, subpart D, Oil and Gas Drilling Operations.

The MMS uses the information to ascertain the condition of a drilling site to prevent hazards inherent in drilling operations. Among other things, MMS specifically uses the information to ensure: (a) The drilling unit is fit for the intended purpose; (b) the lessee will not encounter geologic conditions that present a hazard to operations; (c) equipment is maintained in a state of readiness and meets safety standards; (d) each drilling crew is properly trained and able to promptly perform well-control activities at any time during well operations; (e) compliance with safety standards; and (f) the proposed field drilling rules will provide for safe and proper field or reservoir development, resource evaluation, conservation, protection of correlative rights, safety, and environmental protection. We also review well records to ascertain whether drilling operations have encountered hydrocarbons or H<sub>2</sub>S and to ensure that H<sub>2</sub>S detection equipment, personnel protective equipment, and training of the crew are adequate for safe operations in zones known to contain H<sub>2</sub>S and zones where the presence of H<sub>2</sub>S is unknown.

Responses are mandatory. Proprietary information respondents submit is protected according to the Freedom of Information Act (5 U.S.C. 552) and its implementing regulations (43 CFR 2) and 30 CFR 250.196. No items of a sensitive nature are collected.

*Frequency:* The frequency of reporting varies by section, but is mostly on occasion.

*Estimated Number and Description of Respondents:* Approximately 130 Federal OCS oil, gas, and sulphur lessees.

*Estimated Annual Reporting and Recordkeeping "Hour" Burden:* The currently approved burden for this information collection is 107,698 hours (3,389 reporting and 103,859 recordkeeping hours). This averages approximately 830 hours per respondent.

*Estimated Annual Reporting and Recordkeeping "Non-Hour Cost" Burden:* We have identified no non-hour cost burdens.
