BILLING CODE 4310-MR-P

DEPARTMENT OF THE INTERIOR

National Park Service

60 Day Notice of Intention To Request Clearance of Collection of Information; Opportunity for Public Comment

AGENCY: National Park Service, Department of the Interior, Golden Gate National Recreation Area.

ACTION: Notice and request for comments.

SUMMARY: The Golden Gate National Recreation Area (GGNRA) is a national park which comprises over 76,000 acres of coastal lands spanning three California counties: Marin, San Francisco and San Mateo. GGNRA is proposing to conduct survey interview in peak, shoulder and off-peak season of calendar year 2000, and possibly through Spring 2001, to identify the market viability and specific visitor flow information for operationlizing recreational ferry services to sites within the GGNRA on San Francisco Bay such

as Ft. Baker, Crissy Field (Presidio) and Ft. Mason. The results of these surveys will be used to develop alternative plans for a possible ferry service and to forecast potential demand for water shuttle access to GGNRA's sites, as well as land-based transit connections. Intercept interviews will be conducted at 5 park sites and at least 2 non-park sites. Telephone surveys will be conducted in 3-4 counties surrounding the park to determine latent demand for ferry service, and under what conditions such service might be used.

	Estimated number of	
	Responses	Burden hours
GGNRA Water Shuttle Access Plan:	1400	240
Telephone Interviews		
GGNRA Water Shuttle Access Plan:	8400	700
Intercept Surveys		
Total	9800	940

Under provisions of the Paperwork Reduction Act of 1995 and 5 CFR Part 1320, Reporting and Record Keeping Requirements, the National Park Service (NPS) is soliciting comments on: (a) Whether the collection of information is necessary for such a reliable and valid market analyses and to support the proper performance of the functions of the GGNRA in evaluating the best alternative operations in the interest of the government and the general public, including whether the information will have practical utility; (b) the accuracy of the NPS estimate of the burden of the collection of information, including the validity of the methodology and assumptions used; (c) the quality, utility, and clarity of the information to be collected; and (d) how to minimize the burden of the collection of information on those who are to respond, while maintaining an unbiased sample, including the use of appropriate automated, electronic, mechanical, or other forms of information technology.

DATES: Public comments will be accepted on or before June 19, 2000.

SEND COMMENTS TO: GGNRA, Attn. Mike Savidge, Bay and Franklin St., Bldg., 201, Ft. Mason, San Francisco, CA 94123.

FOR FURTHER INFORMATION CONTACT: Mike Savidge at (415) 561-4725.

SUPPLEMENTARY INFORMATION: Title: Scope of Work for Water Shuttle Access Plan.

Bureau Form Number: None.

OMB Number: To be requested.

Expiration Date of Approval: To be requested.

Type of Request: Request for new clearance.

Description of Need: The Metropolitan Transportation Commission (MTC) of the San Francisco Bay Area has identified updated data collection and surveys of this nature as critical to the foundation of improving alternative transportation access to GGNRA, and particularly to the feasibility of developing a potential water shuttle service to park sites. GGNRA has also been identified as one of five national park demonstration sites to improve alternative transportation access through a coordinated program with the U.S. Department of Transportation (DOT) because of its over 15 million visitors per year. To support these efforts, GGNRA needs information to better develop ridership potential to alternate park sites, and to determine the specific market feasibility and operational plans for alternative modes of access to GGNRA sites, particularly by ferry service. Such a need was identified in a GGNRA Travel Study completed in 1977 and remains today. GGNRA seeks to acquire this information in order to plan for increasing alternative access modes to the park and to decongest the critical roadway corridors to park sites such as the Golden Gate Bridge and Rt. 101 which result in both extensive traffic delays for visitors and other residents.

Automated Data Collection: At the present time, there is no automated way to gather this information, since the information gathering process involves asking visitors and/or the general public to identify characteristics, use patterns, expectations, preferences and perceptions that are relevant to a study of ferry service. Computerized responses could not be controlled for bias as intercept and random digit dialing surveys can be.

Description of respondents: Intercept interviews will be conducted with a random sample of individuals who visit GGNRA sites to include Alcatraz, Muir Woods, Presidio, Ft. Mason and the Marin Headlands. Intercept interviews will also be conducted at non-park sites in San Francisco and the East Bay with a random sample of individuals who are not visiting GGNRA. Telephone surveys will be conducted with a random sample of residents of the Counties of San Francisco, Alameda and one or two other counties surrounding the Bay as yet unselected.

Estimated average number of respondents: 1400 (completed telephone interviews); 8400 (completed intercept interviews).

Estimated average number of responses: Each respondent will respond only one time, so the number of responses will be the same as the number of respondents.

Estimated average burden hours per response: 10 minutes (telephone

interviews); 5 minutes (intercept surveys).

Frequency of Response: 1 time per respondent.

Estimated annual reporting burden: 940 hours.

Dated: April 13, 2000.

Betsy Chittenden,

*Information Collection Clearance Officer,
WASO Administrative Program Center,
National Park Service.*

BILLING CODE 4310-70-M

DEPARTMENT OF THE INTERIOR

National Park Service

Lincoln Boyhood National Memorial, Indiana

AGENCY: National Park Service, Interior.

ACTION: Notice of Intent to prepare a General Management Plan and Environmental Impact Statement for Lincoln Boyhood National Memorial, Indiana.

SUMMARY: The National Park Service (NPS) will prepare a General Management Plan (GMP) and an associated Environmental Impact Statement (EIS) for Lincoln Boyhood National Memorial, Indiana, in accordance with section 102(2)(C) of the National Environmental Policy Act of 1969 (NEPA). This notice is being furnished as required by NEPA Regulations 40 CFR 1501.7.

To facilitate sound planning and environmental assessment, the NPS intends to gather information necessary for the preparation of the EIS, and to obtain suggestions and information from other agencies and the public on the scope of issues to be addressed in the EIS. Comments and participation in this scoping process are invited.

Participation in the planning process will be encouraged and facilitated by various means. Notification of all public involvement opportunities will be announced in the local press and in NPS mailings. To begin the public process, the NPS will conduct a scoping meeting to explain the planning effort and to solicit opinion about issues to address in the GMP/EIS.

DATES: Two public scoping meetings will be held on Wednesday, May 3, 2000 at the Lincoln Boyhood National Memorial Visitor Center, Highway 162, in Lincoln City, Indiana. An afternoon session will be held from 1:00 p.m. to 3:00 p.m.; an evening session will be held from 6:30 p.m. to 8:30 p.m. Both sessions will be in the Nancy Hanks Lincoln Hall. More information about

the meetings is available from the Superintendent, Lincoln Boyhood National Memorial, at the address and telephone number below.

ADDRESSES: Written comments and information concerning the scope of the EIS and other matters, or requests to be added to the project mailing list should be directed to: Ms. Dusty Shultz, Superintendent, Lincoln Boyhood National Memorial, P.O. Box 1816, Lincoln City, IN 47552-1816. Telephone: 812-937-4541. E-mail: dusty_shultz@nps.gov

FOR FURTHER INFORMATION CONTACT:

Superintendent, Lincoln Boyhood National Memorial, at the address and telephone number above.

SUPPLEMENTARY INFORMATION: Lincoln Boyhood National Memorial preserves the site of the farm where Abraham Lincoln spent 14 formative years of his life. He and his family moved to Indiana in 1816 and stayed until 1830 when they moved to Illinois. During this period, Lincoln grew physically and intellectually into a man. The people he knew here and the things he experienced had a profound influence on his life. The time he spent here helped shape the man that went on to lead the country. This site is the most direct tie with that time of his life. Lincoln Boyhood National Memorial is also significant because it represents that period within the history of the preservation movement, when the creation of memorial edifices and landscapes were an important expression of the nation's respect and reverence for Abraham Lincoln.

In accordance with NPS Park Planning policy, the GMP will ensure the Memorial has a clearly defined direction for resource preservation and visitor use. It will be developed in consultation with servicewide program managers, interested parties, and the general public. It will be based on an adequate analysis of existing and potential resource conditions and visitor experiences, environmental impacts, and costs of alternative courses of action.

The environmental review of the GMP/EIS for the Memorial will be conducted in accordance with requirements of the NEPA (42 U.S.C. 4371 *et seq.*), NEPA regulations (40 CFR 1500-1508), other appropriate Federal regulations, and National Park Service procedures and policies for compliance with those regulations.

Dated: April 12, 2000.

David N. Given,

Acting Regional Director.
