

Service Sector Statistics Division, on (301) 457-2713.

**SUPPLEMENTARY INFORMATION:** The Annual Retail Trade Survey is a continuation of similar retail trade surveys conducted each year since 1951 (except 1954). It provides, on a comparable classification basis, annual sales, year-end inventories, purchases, and inventories for 1998 and 1999. These data are not available publicly on a timely basis from nongovernmental or other governmental sources.

The U.S. Census Bureau will require a selected sample of firms operating retail establishments in the United States (with sales size determining the probability of selection) to report in the 1999 Annual Retail Trade Survey. We will furnish report forms to the firms covered by this survey and will require their submissions within thirty days after receipt. The sample will provide, with measurable reliability, statistics on the subjects specified above.

The U.S. Census Bureau is authorized to take surveys necessary to furnish current data on the subjects covered by the major censuses authorized by Title 13, United States Code, Sections 182, 224, and 225. This survey will provide continuing and timely national statistical data on retail trade for the period between economic censuses. The data collected in this survey will be within the general scope and nature of those inquiries covered in the economic census. These data will provide a sound statistical basis for the formation of policy by various government agencies. These data also apply to a variety of public and business needs.

Notwithstanding any other provision of law, no person is required to respond to, nor shall a person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the Paperwork Reduction Act (PRA) unless that collection of information displays a current valid Office of Management and Budget (OMB) control number. In accordance with the PRA, 44 United States Code, Chapter 35, the OMB approved the Annual Retail Trade Survey under OMB Control Number 0607-0013. We will furnish report forms to organizations included in the survey, and additional copies are available on written request to the Director, U.S. Census Bureau, Washington, DC 20233-0101.

Based upon the foregoing, I have directed that an annual survey be conducted for the purpose of collecting these data.

Dated: December 27, 1999.

### Service Annual Survey

**AGENCY:** Bureau of the Census, Commerce.

**ACTION:** Notice of Determination.

**SUMMARY:** The U.S. Census Bureau is conducting the 1999 Service Annual Survey. The results of the service annual program were previously published on a Standard Industrial Classification basis. Beginning with the survey year 1999, we will publish data using the new North American Industry Classification System (NAICS). With the NAICS implementation, the Service Annual Survey incorporates the previous Transportation Annual Survey, the Annual Survey of Communication Services, and the publishing industry from the Annual Survey of Manufactures into one service program. With NAICS, 149 new and emerging industries have been added to the Service Annual Survey, including air couriers, publishing, sound recording, waste management and remediation services, and selected financial industries. A new Information Sector also has been added to the survey that brings together industries that produce, manipulate, and distribute information and cultural products; that provide the means to transmit or distribute these products; and that process data or communications.

**FOR FURTHER INFORMATION CONTACT:** Ruth A. Bramblett, Chief, Current Services Branch, Service Sector Statistics Division, on (301) 457-2766.

### SUPPLEMENTARY INFORMATION:

### Background on the Service Annual Survey

Beginning with the survey year 1999, we will publish the Service Annual Survey data using NAICS. The structure of NAICS was developed in a series of meetings among the United States, Canada, and Mexico in the early to mid-1990s. NAICS recognizes the rapid changes in both the U.S. and world economies by providing a means to classify new and emerging industries. The system was constructed on a

production-oriented, or supply-based, conceptual framework.

Effective with the 1999 survey, the Census Bureau changed the Service Annual Survey questionnaires to reflect the many changes brought by NAICS. We expanded the number of form types and developed these forms to be more tailored to the industries they survey. The goal was to maximize industry coverage within our available resources.

The revision to the Service Annual Survey has increased industry coverage. Previously, a single summary report was produced for each of the three surveys. We now will produce multiple data products and reports by various sectors.

The Service Annual Survey provides dollar volume estimates for specific industries in the following NAICS sectors:

- Transportation and Warehousing (48-49)
- Information (51)
- Finance and Insurance (52)
- Real Estate, Rental, and Leasing (53)
- Professional, Scientific, and Technical (54)
- Administrative and Support, Waste Management and Remediation Services (56)
- Health and Social Assistance (62)
- Arts, Entertainment, and Recreation (71)
- Other Services (81)

The Service Annual Survey produces estimates of total receipts for all industries covered and source of receipts and other expanded data items for the following sectors:

- Trucking (484)
- Information (51)
- Selected industries in Finance and Insurance (52)
- Computer Systems Design and Related Services Industry (5415)
- Health and Social Assistance Sector (62), except subsector 624 (Social Assistance)

For the first time, this annual survey will collect e-commerce receipts/revenue for all services industries. In addition, the survey will collect exported services (receipts/revenue) for specified industries in the Information Sector.

### Response to Comments

The Notice of Consideration for the Service Annual Survey was published in the **Federal Register** on September 24, 1999 (64 FR 51736). No comments were received in response to that notice, and we made no significant changes since then to the Service Annual Survey program.

### Paperwork Reduction Act

Notwithstanding any other provision of law, no person is required to respond

to, nor shall a person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the Paperwork Reduction Act (PRA) unless that collection of information displays a current valid Office of Management and Budget (OMB) control number. In accordance with the PRA, 44 United States Code (U.S.C.), Chapter 35, the OMB approved the 1999 Service Annual Survey under OMB Control Number 0607-0422. We will furnish report forms to organizations included in the survey, and additional copies are available on written request to the Director, U.S. Census Bureau, Washington, DC 20233-0101.

#### Program Requirements

The Census Bureau conducts surveys necessary to furnish current data on subjects covered by the major censuses authorized by Title 13, U.S.C. The Service Annual Survey provides continuing and timely national statistical data for a period between the economic censuses. The next economic census is for the year 2002. Data collected in this survey are within the general scope, type, and character of those inquiries covered in the economic census.

In accordance with Title 13, U.S.C. 182, 224, and 225, the Census Bureau has determined that 1999 data on total receipts, and total revenue and expenses for selected service industries are needed to provide a sound statistical basis for the formation of policy by various governmental agencies, and that these data also apply to a variety of public and business needs. Selected service industries include health, telecommunications, publishing, waste management, transportation, and finance industries. These data are not publicly available from nongovernment or other governmental sources.

The Census Bureau needs reports only from a limited sample of service sector firms in the United States. The probability of a firm's selection is based on its revenue size (estimated from payroll). We are mailing report forms to the firms covered by this survey and require their submission within thirty days after receipt.

Based upon the foregoing, I have directed that the Service Annual Survey be conducted for the purpose of collecting these data.

Dated: December 27, 1999.

#### Annual Trade Survey

**AGENCY:** Bureau of the Census, Commerce.

**ACTION:** Notice of Determination.

**SUMMARY:** The Bureau of the Census (U.S. Census Bureau) is conducting the Annual Trade Survey. The U.S. Census Bureau has determined that it needs to collect data covering annual sales, e-commerce sales, year-end inventories, and purchases.

**FOR FURTHER INFORMATION CONTACT:** Scott Scheleur or Dorothy Engleking, Service Sector Statistics Division, on (301) 457-2713.

**SUPPLEMENTARY INFORMATION:** The Annual Trade Survey is a continuation of similar wholesale trade surveys conducted each year since 1978. It provides, on a comparable classification basis, annual sales, year-end inventories, and purchases for 1998 and 1999. These data are not available publicly on a timely basis from nongovernmental or other governmental sources.

The U.S. Census Bureau will require a selected sample of firms operating merchant wholesale establishments in the United States (with sales size determining the probability of selection) to report in the 1999 Annual Trade Survey. We will furnish report forms to the firms covered by this survey and will require their submissions within thirty days after receipt. The sample will provide, with measurable reliability, statistics on the subjects specified above.

The U.S. Census Bureau is authorized to take surveys necessary to furnish current data on the subjects covered by the major censuses authorized by Title 13, United States Code, Sections 182, 224, and 225. This survey will provide continuing and timely national statistical data on wholesale trade for the period between economic censuses. The data collected in this survey will be within the general scope and nature of those inquiries covered in the economic census. These data will provide a sound statistical basis for the formation of policy by various government agencies. These data also apply to a variety of public and business needs.

Notwithstanding any other provision of law, no person is required to respond to, nor shall a person be subject to a penalty for failure to comply with, a

collection of information subject to the requirements of the Paperwork Reduction Act (PRA) unless that collection of information displays a current valid Office of Management and Budget (OMB) control number. In accordance with the PRA, 44 United States Code, Chapter 35, the OMB approved the Annual Trade Survey under OMB Control Number 0607-0195. We will furnish report forms to organizations included in the survey, and additional copies are available on written request to the Director, U.S. Census Bureau, Washington, DC 20233-0101.

Based upon the foregoing, I have directed that an annual survey be conducted for the purpose of collecting these data.

### International Trade Administration

#### Antidumping or Countervailing Duty Order, Finding, or Suspended Investigation; Opportunity To Request Administrative Review

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**ACTION:** Notice of opportunity to request administrative review of Antidumping or Countervailing Duty Order, Finding, or Suspended Investigation.

#### Background

Each year during the anniversary month of the publication of an antidumping or countervailing duty order, finding, or suspension of investigation, an interested party, as defined in section 771(9) of the Tariff Act of 1930, as amended, may request, in accordance with section 351.213 of the Department of Commerce (the Department) Regulations (19 CFR 351.213 (1997)), that the Department conduct an administrative review of that antidumping or countervailing duty order, finding, or suspended investigation.

#### Opportunity To Request a Review

Not later than the last day of January 2000, interested parties may request administrative review of the following orders, findings, or suspended investigations, with anniversary dates in January for the following periods:
