### 35. Jersey Central Power & Light Company, Metropolitan Edison Company, Pennsylvania Electric Company

[Docket No. ER00-987-000]

Take notice that on January 3, 2000, Jersey Central Power & Light Company, Metropolitan Edison Company and Pennsylvania Electric Company (d/b/a GPU Energy), filed an executed Service Agreement between GPU Energy and Merrill Lynch Capital Services, Inc. (Merrill Lynch), dated December 30, 1999. This Service Agreement specifies that Merrill Lynch has agreed to the rates, terms and conditions of GPU Energy's Market-Based Sales Tariff (Sales Tariff) designated as FERC Electric Rate Schedule, Second Revised Volume No. 5. The Sales Tariff allows GPU Energy and Merrill Lynch to enter into separately scheduled transactions under which GPU Energy will make available for sale, surplus capacity and/or energy.

GPU Energy requests a waiver of the Commission's notice requirements for good cause shown and an effective date of December 30, 1999 for the Service Agreement.

GPU Energy has served copies of the filing on regulatory agencies in New Jersey and Pennsylvania.

**36. American Electric Power Service Corporation Central and South West Services, Inc.**

[Docket No. ER00-989-000]

Take notice that on January 3, 2000, American Electric Power Service Corporation (AEP) and Central and South West Services, Inc. (CSW) tendered for filing an amendment to the Open Access Transmission Tariff filed in this docket on April 30, 1998. The amendment would offer a new service-Network Contract Demand service in the East Zone.

AEP and CSW request that the amendment become effective upon the consummation of their proposed merger.

Copies of the filing have been served upon all parties to Docket Nos. EC98-40-000, ER98-2786-000 and ER98-2770-000, all of AEP's and CSW's transmission customers and the public service commissions of each of the eleven states in which AEP and CSW transact business.

*Comment date:* January 21, 2000, in accordance with Standard Paragraph E at the end of this notice.

**Standard Paragraphs**

E. Any person desiring to be heard or to protest such filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before the comment date. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of these filings are on file with the Commission and are available for public inspection. **Algonquin Gas Transmission Corporation; Notice of Intent To Prepare an Environmental Assessment for the Proposed Fore River Project and Request for Comments on Environmental Issues**

January 7, 2000.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of the Fore River Project involving construction and operation of facilities by Algonquin Gas Transmission Corporation (Algonquin) in Norfolk County, Massachusetts.<sup>1</sup> These facilities would consist of about 7.4 miles of 24-inch-diameter pipeline and construction of measurement facilities. This EA will be used by the Commission in its decision-making process to determine whether the project is in the public convenience and necessity.

If you are a landowner receiving this notice, you may be contacted by a pipeline company representative about the acquisition of an easement to construct, operate, and maintain the proposed facilities. The pipeline company would seek to negotiate a mutually acceptable agreement. However, if the project is approved by the Commission, that approval conveys with it the right of eminent domain. Therefore, if easement negotiations fail to produce an agreement, the pipeline company could initiate condemnation proceedings in accordance with state law. A fact sheet addressing a number of typically asked questions, including the use of eminent domain, is attached to this notice as appendix 1.<sup>2</sup>

**Summary of the Proposed Project**

Algonquin proposes to construct facilities to provide transportation service of up to 140,000 dekatherms per day of natural gas for Sithe Power Marketing (Sithe). Sithe has requested

<sup>1</sup> Algonquin's application was filed with the Commission under Section 7 of the Natural Gas Act and Part 157 of the Commission's regulations.

<sup>2</sup> The appendices referenced in this notice are not being printed in the **Federal Register**. Copies are available on the Commission's website at the "RIMS" link or from the Commission's Public Reference and Files Maintenance Branch, 888 First Street, NE, Washington, DC 20426, or call (202) 208-1371. For instructions on connecting to RIMS refer to the last page of this notice. Copies of the appendices were sent to all those receiving this notice in the mail.

firm natural gas transportation service to fuel the Fore River Station a 750-megawatt gas-fired electronic power plant being constructed near Weymouth, Massachusetts. Algonquin seeks authority to:

- Replace approximately 6.9 miles of existing 10-inch-diameter pipeline (I-3 Lateral) with 24-inch-diameter pipeline from milepost (MP) 0.0 in Canton, Massachusetts to MP 6.9 in Braintree, Massachusetts; and

- Construct a new 0.5-mile-long, 24-inch-diameter pipeline (I-9 Lateral) and measurement facilities in Braintree and Weymouth, Massachusetts.

The location of the project facilities is shown in appendix 2.

**Land Requirements for Construction**

Construction of the proposed facilities would require about 85.5 acres of land. Following construction, about 26.5 acres would be maintained as permanent right-of-way. The remaining 59 acres of land would be restored and allowed to revert to its former use.

**The EA Process**

The National Environmental Policy Act (NEPA) requires the Commission to take into account the environmental impacts that could result from an action whenever it considers the issuance of a Certificate of Public Convenience and Necessity. NEPA also requires us to discover and address concerns the public may have about proposals. We call this "scoping." The main goal of the scoping process is to focus the analysis in the EA on the important environmental issues. By this Notice of Intent, the Commission requests public comments on the scope of the issues it will address in the EA. All comments received are considered during the preparation of the EA. State and local government representatives are encouraged to notify their constituents of this proposed action and encourage them to comment on their areas of concern.

The EA will discuss impacts that could occur as a result of the construction and operation of the proposed project under these general headings:

- Geology and soils
- Water resources, fisheries, and wetlands
- Vegetation and wildlife
- Hazardous waste
- Land use
- Cultural resources
- Endangered and threatened species
- Public safety

We will also evaluate possible alternatives to the proposed project or
