### Indian Education Formula Grants to Local Educational Agencies; Notice Inviting Applications for Awards for Fiscal Year (FY) 2000

**Purpose of Program:** The Indian Education Formula Grant program provides grants to support local educational agencies in their efforts to reform elementary and secondary school programs that serve Indian students. The programs funded are to be based on challenging State content standards and State student performance standards used for all students, and be designed to assist Indian students to meet those standards.

**Eligible Applicants:** Local educational agencies (LEAs) and certain schools funded by the Bureau of Indian Affairs, and Indian tribes under certain conditions.

**Deadline for Transmittal of Applications:** June 2, 2000. Applications not meeting the deadline will not be considered for funding in the initial allocation of awards. However, if funds become available after the initial allocation of funds, applications not meeting the deadline may be considered for funding if the Secretary determines under section 9117(d) of the Elementary and Secondary Education Act of 1965, as amended, that reallocation of those funds to late applicants would best assist in advancing the purposes of the program. However, the amount and date of an individual award, if any is made

under this provision, may be less than the applicant would have received had the application been submitted on time.

**Deadline for Intergovernmental Review:** August 2, 2000.

**SUPPLEMENTARY INFORMATION:**

- I. Background
- II. Current Actions
- III. Request for Comments

**I. Background**

The Federal Energy Administration Act of 1974 (Pub. L. No. 93-275, 15 U.S.C. 761 *et seq.*) and the Department of Energy Organization Act (Pub. L. No. 95-91, 42 U.S.C. 7101 *et seq.*) requires the EIA to carry out a centralized, comprehensive, and unified energy information program. This program collects, evaluates, assembles, analyzes, and disseminates information on energy resource reserves, production, demand, technology, and related economic and statistical information. This information is used to assess the adequacy of energy resources to meet near and longer term domestic demands.

The EIA, as part of its effort to comply with the Paperwork Reduction Act of 1995 (Pub. L. 104-13, 44 U.S.C. Chapter 35), provides the general public and other Federal agencies with opportunities to comment on collections of energy information conducted by or in conjunction with the EIA. Any comments received help the EIA to prepare data requests that maximize the utility of the information collected, and to assess the impact of collection requirements on the public. Also, the EIA will later seek approval by the Office of Management and Budget (OMB) for the collections under Section 3507(h) of the Paperwork Reduction Act of 1995.

The petroleum marketing survey forms collect information needed for determining the supply of and demand for crude oil and refined petroleum products. These surveys provide a basic set of data pertaining to the structure, efficiency, and behavior of petroleum markets. These data are published by the EIA on its web site, [www.eia.doe.gov](http://www.eia.doe.gov), as well as in hardcopy publications, such as the *Monthly Energy Review*, *Annual Energy Review*, *Petroleum Marketing Monthly*, *Petroleum Marketing Annual*, *Weekly Petroleum Status Report*, and the *International Energy Outlook*. EIA also maintains a 24-hour telephone hotline number, (202) 586-6966, for the public

to obtain retail prices estimates for on-highway diesel fuel and motor gasoline.

**II. Current Actions**

EIA requests a three-year extension to the existing survey forms with no changes to the existing collection.

**III. Request for Comments**

Prospective respondents and other interested persons are invited to comment on the actions discussed in item II. The following guidelines are provided to assist in the preparation of comments. Please indicate to which form(s) your comments apply.

*General Issues*

A. Is the proposed collection of information necessary for the proper performance of the functions of the agency and does the information have practical utility? Practical utility is defined as the actual usefulness of information to or for an agency, taking into account its accuracy, adequacy, reliability, timeliness, and the agency's ability to process the information it collects.

B. What enhancements can be made to the quality, utility, and clarity of the information to be collected?

*As a Potential Respondent*

A. Are the instructions and definitions clear and sufficient? If not, which instructions require clarification?

B. Can information be submitted by the due date specified in the instructions?

C. Public reporting burden for this collection is estimated to average per respondent: EIA-14—1.6 hours; EIA-182—4.3 hours; EIA-782A—15.0 hours; EIA-782B—2.5 hours; EIA-782C—2.1 hours; EIA-821—3.2 hours; EIA-856—6.1 hours; EIA-863—1.0; EIA-877—0.1 hour; EIA-878—0.05 hour; EIA-888—0.05 hours. The estimated burden includes the total time, effort, or financial resources expended to generate, maintain, retain, or disclose or provide the information. Please comment on (1) the accuracy of the agency's estimate and (2) how the agency could minimize the burden of the collecting this information, including the use of information technology.

D. The agency estimates respondents will incur no additional costs for reporting other than the hours required to complete the collection. What is the estimated: (1) Total dollar amount annualized for capital and start-up costs; and (2) recurring annual costs of operation and maintenance, and purchase of services associated with this data collection? The estimates should

take into account the costs associated with generating, maintaining, and disclosing or providing the information.

Estimates should not include purchases of equipment or services made as part of customary and usual business practices, or the cost of any burden hours for completing the form(s). EIA estimates that there are no additional costs other than those that the respondent incurs in keeping the information for its own uses.

E. Does any other Federal, State, or local agency collect similar information? If so, specify the agency, the data element(s), and the methods of collection.

*As a Potential User*

A. Is the information useful at the levels of detail indicated on the form?

B. For what purpose(s) would the information be used? Be specific.

C. Are there alternate sources for the information and are they useful? If so, what are their deficiencies and/or strengths?

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of the form. They also will become a matter of public record.

**Statutory Authority:** Section 3506 (c)(2)(A) of the Paperwork Reduction Act of 1995 (Pub. L. No. 104-13, 44 U.S.C. Chapter 35).

Issued in Washington, DC, April 18, 2000.
