

to accomplish the visual inspection of the fuel nozzle screen, and that the average labor rate is \$60 per work hour. Required parts would cost approximately \$150 per engine. If the fuel nozzle screen is contaminated, it must be replaced and the entire fuel system must be inspected. The FAA estimates these actions to take 8 work hours, with a parts cost of \$2,600 per engine. Based on these figures, the total cost impact of the proposed AD on US operators is estimated to be \$1,814,400.

Regulatory Impact

This proposal does not have federalism implications, as defined in Executive Order No. 13132, because it would not have a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Accordingly, the FAA has not consulted with state authorities prior to publication of this proposal.

For the reasons discussed above, I certify that this proposed regulation (1) is not a "significant regulatory action" under Executive Order No. 12866; (2) is not a "significant rule" under the DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) if promulgated, will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A copy of the draft regulatory evaluation prepared for this action is contained in the Rules Docket. A copy of it may be obtained by contacting the Rules Docket at the location provided under the caption **ADDRESSES**.

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Safety.

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration proposes to amend part 39 of the Federal Aviation Regulations (14 CFR part 39) as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding the following new airworthiness directive:

Allison Engine Company: Docket No. 99–NE–47–AD.

Applicability: Allison Engine Company 250-C18 series and 250-C20 series turboshaft engines, installed on, but not limited to the following rotorcraft: AGUSTA Models A109, A109A, A109AII, A109C; Bell Helicopter Textron Models 47, 206, 206A, 206B, 206L, 206L–1, 206L–4; Enstrom Helicopter Models TH–28, 480; Eurocopter Canada Limited Model BO 105 LS A–3; Eurocopter France Models AS355E, AS355F, AS355F1, AS355F2; Eurocopter Deutschland Models BO–105A, BO–105C, BO–105S, BO–105LS A–1; Hiller Aviation Model FH–1100; McDonnell Douglas Helicopter Company Models 369D, 369E, 369F, 369H, 369HM, 369HS, 369HE, 369FF, 500N; Rogerson Hiller Corp. Model UH–12E; Schweizer Aircraft Corporation Model 269D.

Note 1: This airworthiness directive (AD) applies to each engine identified in the preceding applicability provision, regardless of whether it has been modified, altered, or repaired in the area subject to the requirements of this AD. For engines that have been modified, altered, or repaired so that the performance of the requirements of this AD is affected, the owner/operator must request approval for an alternative method of compliance in accordance with paragraph (f) of this AD. The request should include an assessment of the effect of the modification, alteration, or repair on the unsafe condition addressed by this AD; and, if the unsafe condition has not been eliminated, the request should include specific proposed actions to address it.

Compliance: Required as indicated, unless accomplished previously.

To prevent in-flight engine shutdown due to blockage of the fuel nozzle screen, which can result in autorotation and forced landing, accomplish the following:

One-Time Inspection

(a) At the next scheduled 300-hour inspection, or 300 hours time-in-service (TIS) after the effective date of this AD, whichever occurs first, visually inspect the fuel nozzle screen for contamination.

Fuel Nozzle Screen Replacement

(b) If the fuel nozzle screen is contaminated, prior to further flight replace the fuel nozzle screen with a serviceable screen.

Fuel System Inspection and Repair

(c) If the fuel nozzle screen is contaminated, prior to further flight visually inspect and clean the following engine components:

- (1) Fuel pump filter.
- (2) Gas Producer fuel control inlet filter.
- (3) Fuel control unit.
- (4) Governor Filter.
- (5) High pressure fuel filter, if applicable.

(d) If the fuel nozzle screen is contaminated, prior to further flight visually inspect and clean the aircraft fuel system.

Reporting Requirement

(e) Within 5 calendar days of the inspection performed in accordance with paragraph (a) of this AD, report the results of

the inspection to John Tallarovic, Aerospace Engineer, Chicago Aircraft Certification Office, at 2300 E. Devon Ave., Des Plaines, IL 60018; telephone 847–294–8180, fax 847–294–7834, Internet john.m.tallarovic@faa.gov. Reporting requirements have been approved by the Office of Management and Budget and assigned OMB Control Number 2120–0056.

Alternative Methods of Compliance

(f) An alternative method of compliance or adjustment of the compliance time that provides an acceptable level of safety may be used if approved by the Manager, Chicago Aircraft Certification Office. Operators shall submit their request through an appropriate FAA Principal Maintenance Inspector, who may add comments and then send it to the Manager, Chicago Aircraft Certification Office.

Note 2: Information concerning the existence of approved alternative methods of compliance with this airworthiness directive, if any, may be obtained from the Chicago Aircraft Certification Office.

Ferry Flights

(g) Special flight permits may be issued in accordance with sections 21.197 and 21.199 of the Federal Aviation Regulations (14 CFR 21.197 and 21.199) to operate the rotorcraft to a location where the requirements of this AD can be accomplished.

Issued in Burlington, Massachusetts, on April 18, 2000.

Ronald L. Vavruska,

Acting Manager, Engine and Propeller Directorate, Aircraft Certification Service.

[Airspace Docket No. 00–AWA–2]

RIN 2120–AA66

Proposed Revision to the Legal Description of the Shaw Air Force Base Class C Airspace Area; SC

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: The FAA proposes to revise the legal description of the Shaw Air Force Base (AFB), SC, Class C airspace area by changing the hours of area operation to be consistent with current operational requirements. In this proposed revision, the Class C airspace area would be designated effective during the specific days and hours of operation of the Shaw AFB Airport Traffic Control Tower (ATCT) as established in advance by a Notice to

Airmen (NOTAM). The effective days and times would thereafter be continuously published in the Airport/Facility Directory. This proposed action would not change the actual dimensions, configuration, or operating requirements of the Shaw AFB Class C airspace area.

DATES: Comments must be received on or before June 8, 2000.

ADDRESSES: Send comments on the proposal in triplicate to the Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket, AGC-200, Airspace Docket No. 00-AWA-2, 800 Independence Avenue, SW., Washington, DC 20591. Comments may also be sent electronically to the following Internet address: nprmcmts@mail.hq.faa.gov. The official docket may be examined in the Rules Docket, Office of the Chief Counsel, Room 916, weekdays, except Federal holidays, between 8:30 a.m. and 5:00 p.m. An informal docket may also be examined during normal business hours at the office of the Regional Air Traffic Division.

FOR FURTHER INFORMATION CONTACT: Paul Gallant, Airspace and Rules Division, ATA-400, Office of Air Traffic Airspace Management, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone: (202) 267-8783.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal. Communications should identify the airspace docket number and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this action must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Airspace Docket No. 00-AWA-2." The postcard will be date/time stamped and returned to the commenter. All communications received on or before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained

in this action may be changed in light of comments received. All comments submitted will be available for examination in the Rules Docket both before and after the closing date for comments. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of NPRM's

An electronic copy of this document may be downloaded from the FAA regulations section of the Fedworld electronic bulletin board service (telephone: 703-321-3339) or the **Federal Register's** electronic bulletin board service (telephone: 202-512-1661), using a modem and suitable communications software.

Internet users may reach the FAA's web page at <http://www.faa.gov> or the **Federal Register's** web page at <http://www.access.gpo.gov/nara> for access to recently published rulemaking documents.

Any person may obtain a copy of this NPRM by submitting a request to the Federal Aviation Administration, Office of Air Traffic Airspace Management, Attention: Airspace and Rules Division, ATA-400, 800 Independence Avenue, SW., Washington, DC 20591, or by calling (202) 267-3075. Communications must identify the docket number of this NPRM. Persons interested in being placed on a mailing list for future NPRM's should contact the Federal Aviation Administration, Office of Rulemaking, (202) 267-9677, to request a copy of Advisory Circular No. 11-2A, which describes the application procedure.

Background

The Shaw AFB ATCT has reduced its hours of operation. Therefore, there is a need to revise the effective times published for the Shaw AFB Class C airspace area to coincide with those times that Class C air traffic control services are available. The Shaw AFB Class C airspace area remains an essential safety measure in support of the ongoing airport operational requirements.

The Proposal

The FAA proposes to amend 14 CFR part 71 by revising the legal description of the Shaw AFB Class C airspace area located at Shaw AFB, SC. The FAA proposes to revise the hours of operation for the Class C airspace area to align them with current airfield operations. It is proposed that the Shaw AFB Class C airspace area would be designated effective during the specific days and hours of operation of the Shaw

AFB ATCT as established in advance by NOTAM. The proposed action is a technical amendment to the legal description and would not change the actual dimensions, configuration, or operating requirements of the Shaw AFB Class C airspace area. During the times that Shaw ATCT is not operational, the airspace reverts to Class E airspace since one of the requirements for Class C airspace is an operational ATCT. The radar approach control operating hours remain unchanged. Jacksonville Center assumes the airspace when Shaw radar approach control closes.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this proposed action: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The coordinates for this airspace docket are based on North American Datum 83. Class C airspace designations are published in paragraph 4000 of FAA Order 7400.9G, dated September 1, 1999, and effective September 16, 1999, which is incorporated by reference in 14 CFR 71.1. The Class C airspace designation listed in this document would be published subsequently in the Order.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

The Proposed Amendment

In consideration of the foregoing, the Federal Aviation Administration proposes to amend 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, CLASS B, CLASS C, CLASS D, AND CLASS E AIRSPACE AREAS; AIRWAYS; ROUTES; AND REPORTING POINTS

1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9G, Airspace Designations and Reporting Points, dated September 1, 1999, and effective September 16, 1999, is amended as follows:

Paragraph 4000—Subpart C—Class C Airspace

* * * * *

Shaw AFB, SC [Revised]

Shaw AFB, SC

(lat. 33°58'23" N., long. 80°28'22" W.)

Sumter Municipal Airport

(lat. 33°59'42" N., long. 80°21'40" W.)

That airspace extending upward from the surface to and including 4,200 feet MSL within a 5-mile radius of the Shaw AFB, excluding that airspace below 1,500 feet MSL within a 2-mile radius of the Sumter Municipal Airport; and that airspace extending upward from 1,500 feet MSL to and including 4,200 feet MSL within a 10-mile radius of Shaw AFB; excluding that airspace contained within Restricted Area R-6002 when it is in use. This Class C airspace area is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airport/Facility Directory.

[Airspace Docket No. 00–AGL–11]

Proposed Modification of Class E Airspace; Shelbyville, IN

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This action proposes to modify Class E airspace at Shelbyville, IN. An Area Navigation (RNAV) Standard Instrument Approach Procedure (SIAP) to Runway (Rwy) 01, Amendment (Amdt) 1, and an RNAV SIAP to Rwy 19, Amdt 1, have been developed by Shelbyville Municipal Airport. Controlled airspace extending upward from 700 feet or more above the surface of the earth is needed to contain

aircraft executing these approaches. This action would realign the existing Class E airspace to the northwest by 0.3 nautical miles (NM) for Shelbyville Municipal Airport.

DATES: Comments must be received on or before June 5, 2000.

ADDRESSES: Send comments on the proposal in triplicate to: Federal Aviation Administration, Office of the Regional Counsel, AGL–7 Rules Docket No. 00–AGL–11, 2300 East Devon Avenue, Des Plaines, Illinois 60018.

The official docket may be examined in the Office of the Regional Counsel, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois. An informal docket may also be examined during normal business hours at the Air Traffic Division, Airspace Branch, with this rulemaking will be filed in the docket. Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois.

FOR FURTHER INFORMATION CONTACT: Denis C. Burke, Air Traffic Division, Airspace Branch, AGL–520, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018, telephone (847) 294–7568.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposals.

Communications should identify the airspace docket number and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this action must submit with those comments a self-addressed, stamped postcard on which the following statement is made: “Comments to Airspace Docket No. 00–AGL–11.” The postcard will be date/time stamped and returned to the commenter. All communications received on or before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this action may be changed in light of comments received. All comments submitted will be available for examination in the Rule Docket, FAA, Great Lakes Region, Office of the

Regional Counsel, 2300 East Devon Avenue, Des Plaines, Illinois, both before and after the closing date for comments. A report summarizing each substantive public contact with FAA personnel concerned

Availability of NPRM's

Any person may obtain a copy of this Notice of Proposed Rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Inquiry Center, APA–230, 800 Independence Avenue, S.W., Washington, DC 20591, or by calling (202) 267–3484. Communications must identify the docket number of this NPRM. Persons interested in being placed on a mailing list for future NPRM's should also request a copy of Advisory Circular No. 11–2A, which describes the application procedure.

The Proposal

The FAA is considering an amendment to 14 CFR part 71 to modify Class E airspace at Shelbyville, IN, by realigning the existing Class E airspace to the northwest by 0.3 NM for Shelbyville Municipal Airport. Controlled airspace extending upward from 700 feet or more above the surface of the earth is needed to contain aircraft executing instrument approach procedures. The area would be depicted on appropriate aeronautical charts. Class E airspace areas extending upward from 700 feet or more above the surface of the earth are published in paragraph 6005 of FAA Order 7400.9G dated September 1, 1999, and effective September 16, 1999, which is incorporated by reference in 14 CFR 71.1. The Class E designations listed in this document would be published subsequently in the Order.

The FAA has determined that this proposed regulation only involves an establishment body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore this, proposed regulation—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.
