Incidental Take of Marine Mammals; Taking of Ringed Seals Incidental to On-ice Seismic Activities

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of issuance of a letter of authorization.

SUMMARY: In accordance with the Marine Mammal Protection Act (MMPA), as amended, and with implementing regulations, notification is hereby given that a letter of authorization (LOA) to take ringed and bearded seals incidental to an on-ice shallow-water seismic survey in the Beaufort Sea off Alaska was issued on April 20, 2000, to Western Geophysical of Anchorage, AK.

DATES: This letter of authorization is effective from April 20, 2000, through May 31, 2000.

ADDRESSES: The application letters and LOA are available for review in the

following offices: Office of Protected Resources, NMFS, 1315 East-West Highway, Silver Spring, MD 20910, and Western Alaska Field Office, NMFS, 701 C Street, Anchorage, AK 99513.

FOR FURTHER INFORMATION CONTACT: Kenneth R. Hollingshead, NMFS, (301) 713-2055, ext 128 or Brad Smith, Western Alaska Field Office, NMFS, (907) 271-5006.

SUPPLEMENTARY INFORMATION: Section 101(a)(5)(A) of the MMPA (16 U.S.C. 1361 *et seq.*) directs NMFS to allow, on request, the incidental, but not intentional, taking of small numbers of marine mammals by U.S. citizens who engage in a specified activity (other than commercial fishing) within a specified geographical region, if certain findings are made by NMFS and regulations are issued. Under the MMPA, the term "taking" means to harass, hunt, capture, or kill or to attempt to harass, hunt, capture or kill marine mammals.

Permission may be granted for periods up to 5 years if NMFS finds, after notification and opportunity for public comment, that the taking will have a negligible impact on the species or stock(s) of marine mammals and will not have an unmitigable adverse impact on the availability of the species or stock(s) for subsistence uses. In addition, NMFS must prescribe regulations that include permissible methods of taking and other means effecting the least practicable adverse impact on the species and its habitat and on the availability of the species for subsistence uses, paying particular attention to rookeries, mating grounds, and areas of similar significance. The regulations must include requirements pertaining to the monitoring and reporting of such taking. Regulations governing the taking of ringed and bearded seals incidental to on-ice seismic surveys were published on February 2, 1998 (63 FR 5277), and remain in effect until December 31, 2002.

Summary of Request

NMFS received requests for letters of authorization from Western Geophysical on September 23, 1999, and October 14, 1999. LOAs for these activities were issued on January 28, 2000 (see 65 FR 4949, February 2, 2000). A third application from Western Geophysical was received on January 31, 2000, and amended by letter on February 21, 2000. The letters requested a take by mortality, injury, and harassment of a small number of ringed seals incidental to conducting shallow-water seismic surveys on the ice in the Beaufort Sea off Alaska.

Issuance of this new letter of authorization is based on findings that the total takings by this activity will have a negligible impact on the ringed seal stocks of the Western Beaufort Sea and that the applicants have met the requirements contained in the implementing regulations, including monitoring and reporting requirements.

Dated: April 20, 2000.

Western Pacific Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: The Council's Recreational Fisheries Data Task Force (RFDTF) will hold a meeting.

DATES: The meeting will be held May 11, 2000, from 8:30 a.m. to 1:00 p.m.

ADDRESSES: The meeting will be held at the Western Pacific Fishery Management Council office, 1164 Bishop St., Suite 1400, Honolulu, HI 96813.

FOR FURTHER INFORMATION CONTACT:

Kitty M. Simonds, Executive Director; telephone: 808-522-8220.

SUPPLEMENTARY INFORMATION: This will be the fifth meeting of the RFDTF which will discuss the following topics: review of minutes from fourth Task Force meeting, review of proposal for redefining commercial fishermen, review of a rapid survey instrument to establish total pelagic catch in Hawaii, review of longer term strategies for obtaining recreational fishery data in Hawaii, and an update on the recent (sixth) meeting to establish an international management regime for tuna and tuna-like species in the Central-Western Pacific.

Although non-emergency issues not contained in this agenda may come the RFDTF for discussion, in accordance with the Magnuson-Stevens Fishery Conservation and Management Act, those issues may not be subject of formal action during this meeting. Action will be restricted to those issues

specifically identified in this agenda and any issues arising after publication of this notice that require emergency action under Section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take action to address the emergency.

Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Kitty M. Simonds, 808-522-8220 (voice) or 808-522-8226 (fax), at least 5 days prior to meeting date.

Dated: April 21, 2000.
