Center for Substance Abuse Treatment; Notice of Meeting

Pursuant to Public Law 92-463, notice is hereby given of a meeting of the Center for Substance Abuse Treatment (CSAT) National Advisory Council to be held in February 2000. A portion of the meeting will be open and include discussion of the Center's policy issues and current administrative, legislative, and program developments. The Council will hear feature presentations by SAMHSA Administrator Nelba Chavez, CSAT Director H. Westley Clark, and Alan Leshner, Director of the National Institute on Drug Abuse. There will also be presentations on the National Treatment Plan, collaborations between researchers and practice, updates on buprenorphine and methadone, costs of treatment, cultural competency activities and alcohol in tribal communities.

If anyone needs special accommodations for persons with disabilities, please notify the Contact listed below.

The meeting will also include the review, discussion, and evaluation of grant applications. Therefore, a portion of the meeting will be closed to the public as determined by the SAMHSA Administrator, in accordance with Title 5 U.S.C. 552b(c)(3), (4), and (6) and 5 U.S.C. App. 2, section 10(d).

A summary of the meeting and roster of council members may be obtained from: Mrs. Marjorie Cashion, CSAT, National Advisory Council, Rockwall II Building, Suite 619, 5600 Fishers Lane, Rockville, Maryland 20857, Telephone: (301) 443-8923.

Substantive program information may be obtained from the contact whose name and telephone number is listed below.

Committee Name: Center for Substance Abuse Treatment National Advisory Council.

Meeting Date: February 1, 2000—9:00 a.m.—5:00 p.m.; February 2, 2000—9:00 a.m.—2:00 p.m.

Place: Natcher Building, National Institutes of Health, Bethesda, Maryland 20892.

Type: Closed: February 1, 2000—9:00 a.m.—9:30 a.m., Open: February 1, 2000—9:30 a.m.—5:00 p.m. February 2, 2000—9:00 a.m.—2:00 p.m.

Contact: Marjorie M. Cashion, Executive Secretary, Telephone: (301) 443-5050, and FAX: (301) 480-6077.

Dated: January 11, 2000.

Sandi Stephens,

Acting Committee Management Officer, Substance Abuse and Mental Health Services Administration.

Geological Survey

Earth Observing System (EOS) Land Processes Distributed Active Archive Center (DAAC) Science Advisory Panel Meeting

AGENCY: Geological Survey, Interior.

ACTION: Notice of meeting.

SUMMARY: Pursuant to Public Law 92-463, the EOS Land Processes DAAC will host a meeting of its Science Advisory Panel at the U.S. Geological Survey EROS Data Center near Sioux Falls, South Dakota. The Panel, comprised of scientists from academic and government institutions, will provide the management of the DAAC with

advice and consultation on a broad range of scientific and technical topics relevant to the development and operation of DAAC systems and capabilities.

Topics to be reviewed and discussed by the Panel include: DAAC status reports on FY 1999 activities and plans for FY 2000 activities; Panel review of and recommendations on FY 2000 proposed activities; review of Landsat 7 and Terra mission status; discussions leading to recommendations on the DAAC's Operations, Engineering, Science, and User Services support programs; support Science and Instrument Team data product Quality Assurance activities; and plans to support EOS Land Product Validation efforts.

DATES: February 1-3, 2000, commencing at 8:30 am on February 1 and adjourning at 12:00 pm on February 3.

FOR FURTHER INFORMATION CONTACT: Mr. John Dwyer, EDC DAAC Project Scientist, EROS Data Center, Sioux Falls, South Dakota 57198 at (605) 594-6060.

SUPPLEMENTARY INFORMATION: Meetings of the EDC DAAC Science Advisory Panel are open to the public.

Dated: January 10, 2000.

Richard E. Witmer,
Chief Geographer.

Upper Snake River District Resource Advisory Council Meeting

AGENCY: Bureau of Land Management, Interior.

ACTION: Resource Advisory Council meeting locations and times.

SUMMARY: In accordance with the Federal Land Policy and Management Act and the Federal Advisory Committee Act of 1972 (FACA), 5 U.S.C., the Department of the Interior, Bureau of Land Management (BLM) council meeting of the Upper Snake River District Resource Advisory Council (RAC) will be held as indicated below. The agenda for this two-day meeting will include a training session for members on the first day, and discussions on Standards and Guides Monitoring and Phosphate Leasing on the second day. All meetings are open to the public. The public may present written or oral comments to the council.

Each formal council meeting will have a time allocated for hearing public comments. The public comment period for the council meetings is listed below. Depending on the number of persons wishing to comment, and the time available, the time for individual oral comments may be limited. Individuals who plan to attend and need further information about the meetings, or need special assistance such as sign language interpretation or other reasonable accommodations should contact David Howell at the Upper Snake River District Office, 1405 Hollipark Dr., Idaho Falls, ID 83401, or telephone (208) 524-7559.

DATES AND TIMES: The next meeting will be held February 24-25, 2000 at the Best Western Hotel, 800 North Overland Avenue in Burley, Idaho. The meeting will start at 1 p.m. on February 24 for the RAC Training Session. The meeting will continue on February 25 at 8:30 a.m., with public comments scheduled from 8:40-9:10 a.m.

FOR FURTHER INFORMATION CONTACT: David Howell, Upper Snake River District, 1405 Hollipark Dr., Idaho Falls, ID 83401, (208) 524-7559.

SUPPLEMENTARY INFORMATION: The purpose of the Resource Advisory Council is to advise the Secretary of the Interior, through the BLM, on a variety of planning and management issues associated with the management of the of the public lands.

Dated: January 5, 2000.

James E. May,
District Manager.

Notice of Filing of Plat of Three Islands; MN

1. The plat of the survey of three islands in Five Lake, Township 139 North, Range 40 West, Fifth Principal Meridian, Minnesota, accepted January 6, 2000, will be officially filed in Eastern States, Springfield, Virginia at 7:30 a.m., on February 22, 2000. The tracts shown below describe the islands omitted from the original survey.

Fifth Principal Meridian, Minnesota

T. 139 N. R. 40 W.

Tract Nos. 37, 38 and 39.

2. Tract No. 37 is firm land rising 2 ft. above the ordinary high water mark.

The soil has evolved from glacial till parent material and is similar to the soil found on the adjacent uplands. The presence of numerous granite stones, several approaching 2½ ft. in diameter were located along the northerly shore of the island. Tree species consist of basswood, birch, oak and pine, ranging in size from 3 to 12 inches in diameter, with a maximum age of 100+ years. The ground cover consists of alder and willow, along with native grasses.

Tract No. 38 is firm land rising 10 to 12 ft. above the ordinary high water mark. The soil has evolved from glacial till parent material and is similar to the soil found on the adjacent uplands. Numerous granite stones, several approaching 2 ft. in diameter were located throughout the island and along the westerly and southerly shore of the island. Tree species consist of ash, basswood, birch, oak, spruce and pine, ranging in size from 4 to 20 inches in diameter. Several oaks and pines located near the center of the island were measured and found to be 15 to 20 inches in diameter, with a maximum age of 150+ years. The ground cover consists of alder, hazel and willow, along with native grasses.

Tract No. 39 is firm land rising 15 ft. above the ordinary high water mark. The soil has evolved from glacial till parent material and is similar to the soil found on the adjacent uplands. Tree species consist of ash, aspen, basswood, birch and oak, ranging in size from 6 to 20 inches in diameter, with a maximum age of 150+ years. The ground cover consists of alder, hazel and willow, along with a few native grasses along the southerly shore of the island.

3. The present water level of the lake compares favorably with that of the original meander line; therefore, the elevation and upland character these islands along with the depth and width of the lake between the adjacent upland and the island are considered evidence that the island did exist in 1858, the year Minnesota was admitted to the Union. The original survey in 1871 did not note the presence of these islands.

4. These islands are more than 50 percent upland in character within the interpretation of the Swamp and Overflow Act of September 28, 1850 (9 Stat. 519) as extended to the State of Minnesota under the Act of March 12, 1860 (12 Stat. 3). Therefore, these islands are held to be public land.

5. The survey was requested by the Assistant Field Manager, Division of Natural Resource Management, under the authority of Section 211 of FLPMA (43 U.S.C. 1721) and the Minnesota Public Lands Improvement Act of 1990, P.L. 101-442 (104 Stat. 1020).

6. Except for valid existing rights, these islands will not be subject to application, petition, location or selection under any public law until February 22, 2000.

7. Interested parties protesting the determination that these islands are public land of the United States, must present valid proof showing that the island in question did not exist at the time of statehood or that it was attached to the mainland at the time of the original survey. Such protests must be submitted in writing to the Chief Cadastral Surveyor, Eastern States, Bureau of Land Management, 7450 Boston Boulevard, Springfield, Virginia 22153, prior to 7:30 a.m., February 22, 2000.

Copies of the plat will be made available upon request and prepayment of the appropriate fee.

Dated: January 6, 2000.

Stephen G. Kopach,
Chief Cadastral Surveyor.

Notice of Filing of Plat of an Island; Minnesota

1. The plat of the survey of an island in Island Lake, Township 47 North, Range 29 West, Fourth Principal Meridian, Minnesota, accepted on January 6, 2000, will be officially filed in Eastern States, Springfield, Virginia at 7:30 a.m., on February 22, 2000. The tract shown below describes the island omitted from the original survey.

Fourth Principal Meridian, Minnesota

T. 47 N. R. 29 W.

Tract No. 37.

2. Tract No. 37 is firm land rising 10 ft. above the ordinary high water mark. The soil has evolved from glacial till parent material and is similar to the soil found on the adjacent uplands. Numerous stones were located along the southerly face of a small ridge which extends East and West along the center of the island. Tree species consist of basswood, birch, oak and pine, ranging in size from 3 to 18 inches in diameter, with a maximum age of 100+ years. The ground cover consists of alder, willow and native grasses on the southerly, easterly and westerly shore line.
