Submission for OMB Review; Comment Request

DOC has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: U.S. Census Bureau.

Title: National Employers Survey 2000.

Form Number(s): None.

Agency Approval Number: 0607-0787.

Type of Request: Reinstatement, with change, of an expired collection.

Burden: 6,500 hours.

Number of Respondents: 18,000.

Avg Hours Per Response: 21 and one half minutes.

Needs and Uses: The Census Bureau requests approval to conduct the 2000 National Employers Survey (NES-2000) which includes a linked Employee Survey. The Census Bureau conducted two earlier National Employers Surveys (1994 and 1997) and two supplemental Employer surveys (1996 and 1998). As with the previous surveys, NES 2000 will be conducted on a reimbursable basis through the Department of Education's Office of Educational Research and Improvement (OERI), and the National Center for Postsecondary Improvement (NCPI). Funding will be provided by the National Center for Education Statistics and the National School-to-Work Office.

The NES 2000 will provide specific and unique information on employers' recruiting, hiring, training, and other work environment and human resources practices from both the employer and employee perspectives. The NES 2000 will provide the Census Bureau with information on formal and informal training programs and participation by establishments in school-to-work programs of various types.

This data collection effort will provide, for the first-time, information collected from employees of a sample of the employer establishments. Employee histories and employee perceptions of training programs and their working environment will be collected directly from employees. The information from these employees will be linked to the

employer information enabling analysts to identify those areas where employee and employer views are similar and where they are different.

The information from the linked surveys will help the sponsors and other concerned organizations to determine how our Nation's firms and schools can improve their effectiveness through improved education, recruiting and hiring, training, and school-to-work programs.

The NES 2000 will incorporate a telephone survey of 3,000 business establishments that completed the telephone interview for NES-III, the 1997 survey. As we conduct the telephone survey, we will ask employers to volunteer to participate in the employee survey. The survey of employees will cover up to 15,000 employees. Employers who volunteer to participate in the employee survey will receive 30 employee questionnaires and simple instructions on how to forward the questionnaires to a sample of their employees. The employees will then complete the questionnaires and mail them back to the Census Bureau.

Affected Public: Businesses or other for-profit organizations.

Frequency: One-time.

Respondent's Obligation: Voluntary.

Legal Authority: Title 13 USC, Section 182; National Education Statistics Act, Chapter 71, Title 20.

This results of this survey will serve that purpose.

The Survey and a cover letter with instructions on how to complete the survey will be mailed to 2,000 potential respondents. BEA will request that responses be returned 30 days after the mailing. The survey will also be posted on BEA's web site for 5,500 potential respondents. Agency: U.S. Census Bureau.

Title: Census 2000 Evaluation: Survey of Partners.

Form Number(s): D-1401, D-1401A(L), D-1401.F1(L), D-1401.F2(L), D-1401A(E), D-1401.1(E), D-1401(E).

Agency Approval Number: None.

Type of Request: New collection.

Burden: 5,333 hours.

Number of Respondents: 16,000.

Avg Hours Per Response: 20 minutes.

Needs and Uses: The Census 2000

Partnership Program works to establish partnerships with State, local and tribal governments; private industry; local governments and community groups. The goal is to increase the awareness of the census and to increase response rates, especially among historically undercounted populations.

The program has both a national and a regional focus. On the national level, the program is designed to implement promotional activities that may be sponsored and/or supported by national/umbrella government and nongovernmental organizations. In addition, the Census Bureau will partner with Fortune 500 companies to promote the importance of the census through the services and products they provide.

The regional partnership program reflects the Census Bureau's belief that the foundation for broad-based participation in the census must be built at the community level. Its primary purpose is to establish partnerships with state, local, and tribal governments; community organizations; businesses and the media.

This request is for clearance of an evaluation of that partnership program to be carried out via an information collection. A contractor will survey a

sample of partners through self-administered questionnaires. The questionnaire will ask the partners about the effectiveness of the marketing campaign and the partnership activities in motivating their constituents to complete and mail back their census questionnaires. The results will be used to evaluate the program, for 2010 planning purposes and to improve future census operations.

Affected Public: Businesses or other for-profit organizations, Not-for-profit organizations, Federal Government, State, Local or tribal Government.

Frequency: One-time.

Respondent's Obligation: Voluntary.

Legal Authority: Title 13 USC, sections 141 and 193.
