

(33) Corrections to information that resulted in erroneous inclusion of individuals in the Death Master File (DMF) may be disclosed to recipients of erroneous DMF information.

(34) Information as to whether an individual is alive or deceased may be disclosed pursuant to section 1106(d) of the Social Security Act (42 U.S.C. 1306(d)), upon request, for purposes of an epidemiological or similar research project, provided that:

(a) SSA determines in consultation with the Department of Health and Human Services, that the research may reasonably be expected to contribute to a national health interest;

(b) The requester agrees to reimburse SSA for the costs of providing the information; and

(c) the requester agrees to comply with any safeguards and limitations specified by SSA regarding rerelease or redisclosure of the information.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained in magnetic media (e.g., magnetic tape) and in microform and microfiche form.

RETRIEVABILITY:

Records are indexed and retrieved by SSN.

SAFEGUARDS:

System security for automated records has been established in accordance with the Systems Security Handbook. This includes maintaining all magnetic tapes and magnetic disks within an enclosure attended by security guards. Anyone entering or leaving that enclosure must have special badges which are only issued to authorized personnel. All authorized personnel having access to the magnetic records are subject to the penalties of the Privacy Act. The microfiche are stored in locked cabinets, and are accessible to employees only on a need-to-know basis. All SSR State Data Exchange records are protected in accordance with agreements between SSA and the respective States regarding confidentiality, use, and redisclosure.

RETENTION AND DISPOSAL

Original input transaction tapes received which contain initial claims and posteligibility actions are retained indefinitely although these are processed as received and incorporated into processing tapes which are updated to the master SSR tape file on a monthly basis. All magnetic tapes appropriate to SSI information furnished to specified Federal, State, and local agencies for

verification of eligibility for benefits and under section 1631(e) are retained, in accordance with the PA accounting requirements, for at least 5 years or the life of the record, whichever is longer.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Division of Supplemental Security Income Systems, Office of Systems Requirements, Social Security Administration, 6401 Security Boulevard, Baltimore, MD 21235.

NOTIFICATION PROCEDURE:

An individual can determine if this system contains a record about him/her by writing to or visiting any Social Security field office and providing his or her name and SSN. (Individuals should consult their local telephone directories for Social Security office address and telephone information.) Applicants for SVB who reside in the Philippines should contact VARO, Philippines. (Furnishing the SSN is voluntary, but it will make searching for an individual's record easier and prevent delay.)

An individual requesting notification of records in person need not furnish any special documents of identity. Documents he/she would normally carry on his/her person would be sufficient (e.g., credit cards, driver's license, or voter registration card). An individual requesting notification via mail or telephone must furnish a minimum of his/her name, date of birth and address in order to establish identity, plus any additional information specified in this section. These procedures are in accordance with SSA Regulations (20 CFR 401.40(c)).

RECORD ACCESS PROCEDURES:

Same as notification procedures. Requesters should also reasonably specify the record contents being sought. An individual who requests notification of, or access to, a medical record shall, at the time he or she makes the request, designate in writing a responsible representative who will be willing to review the record and inform the subject individual of its contents at the representative's discretion. A parent or guardian who requests notification of, or access to, a minor's medical record shall at the time he or she makes the request designate a physician or other health professional (other than a family member) who will be willing to review the record and inform the parent or guardian of its contents at the physician's or health professional's discretion. These procedures are in accordance with SSA Regulations (20 CFR 401.40(c) and 401.55).

CONTESTING RECORD PROCEDURES:

Same as notification procedures. Requesters should also reasonably identify the record, specify the information they are contesting and state the corrective action sought and the reasons for the correction with supporting justification showing how the record is incomplete, untimely, inaccurate or irrelevant. These procedures are in accordance with SSA Regulations (20 CFR 401.65).

RECORD SOURCE CATEGORIES:

Data contained in the SSR are obtained for the most part from the applicant for SSI and SVB payments and are derived from the Claims Folders System (60-0089) and the Modernized Supplemental Security Income Claims System. The States and other Federal agencies such as the Department of Veterans Affairs also provide data affecting the SSR.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE PRIVACY ACT:

None.
