

maintain compliance. The Assistant Commissioner will respond to the appeal in writing within 15 days of its receipt. Where the appeal is granted, the participant will be permitted to resume participation in the test. Where the appeal is denied, the carrier may reapply to participate in the test only upon showing that all deficiencies resulting in suspension have been corrected.

A full suspension from the test may be proposed where a test participant has been suspended from operating under the APIS program. A partial suspension may be proposed where the loss of Blue Lane eligibility for a given flight (or flights) does not result in a participant's suspension from the APIS program, in which case a partial suspension decision will affect only that flight (or those flights). Where a full suspension decision was based on the participant's suspension from APIS, the granting of an appeal is conditioned on the participant's reinstatement in APIS. Where a partial suspension decision was based on loss of Blue Lane eligibility, the grant of an appeal is conditioned on restoration of that status. (See the notice of February 23, 2000, for a discussion of APIS and Blue Lane eligibility.)

A test participant also may face a proposed full or partial suspension for less than satisfactory performance of any of the conditions of operation. Also, where the port director determines that a participant's test performance is unsatisfactory in any way that may compromise the Customs enforcement mission, the participant may face a full or partial suspension.

A participant who has been suspended from the test for any reason (as of the date the notice of suspension became effective) will be required to file an air cargo manifest that lists ITI baggage under ordinary procedures (manually or electronically), in accordance with the requirements of the Customs Regulations (19 CFR 122.48(e) and 122.101), or to have its in-transit passengers take their baggage through Customs processing as provided under § 122.101(a). If there has been a full suspension from the test, all covered flights will be affected. If the partial suspension was limited to a certain flight (or flights) or to a certain airport, only those flights or that airport will be affected.

New Time Elements

Both the time period for applying to participate in the test program and the targeted test commencement date have been affected by this modification of the program test. The deadline for applying

to participate in the test is extended to the date that is 45 days from the date of publication of this document, as specified in the "Dates" section of this document. The commencement date of the test is 60 days from the date of publication, also specified in the "Dates" section.

The test may be extended beyond one year if extension is warranted. The test will be evaluated six months after its implementation, using the test criteria set forth in the notice of February 23, 2000.

Dated: June 8, 2000.

SUPPLEMENTARY INFORMATION:

Title: Estimated Tax on Unrelated Business Taxable Income for Tax-Exempt Organizations.

OMB Number: 1545-0976.

Form Number: 990-W.

Abstract: Form 990-W is used by tax-exempt trusts and tax-exempt corporations to figure estimated tax liability on unrelated business income and on investment income for private foundations and the amount of each installment payment. Form 990-W is a worksheet only. It is not required to be filed.

Current Actions: Because of section 501 of the Tax Relief Extension Act of 1999 (Public Law 106-170), beginning in tax year 2000 the aggregate amounts of credits allowed under Subtitle A, Chapter 1, Subchapter A, Part IV, Subpart A of the Internal Revenue Code, will offset both a corporation's regular tax liability and its minimum tax. Because of this law change, Line 6 (alternative minimum tax) is being relocated to Line 3 and a new total line (Line 4) is being added so taxpayers can determine their total tax before applying their estimated tax credits. The other lines will be renumbered to reflect these changes.

Type of Review: Revision of a currently approved collection.

Affected Public: Not-for-profit institutions and business or other for-profit organizations.

Estimated Number of Respondents: 27,265.

Estimated Total Annual Burden Hours: 387,749.

The following paragraph applies to all of the collections of information covered by this notice:

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection of information displays a valid OMB control number. Books or records relating to a collection of information must be retained as long as their contents may become material in the administration of any internal revenue law. Generally, tax returns and tax return information are confidential, as required by 26 U.S.C. 6103.

Request for Comments

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval. All comments will become a matter of public record. information to be collected; (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology; and (e) estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information.

Approved: June 8, 2000.

DATES: Written comments should be received on or before August 15, 2000 to be assured of consideration.

Title: Exempt Organization Business Income Tax Return.

OMB Number: 1545-0687.

Form Number: 990-T.

Abstract: Form 990-T is used to report and compute the unrelated business income tax imposed on exempt organizations by Internal Revenue Code section 511 and the proxy tax imposed by Code section 6033(e). The form provides the IRS with the information

necessary to determine that the tax has been properly computed.

Current Actions: The following changes are being considered:

UTAH RECLAMATION MITIGATION AND CONSERVATION COMMISSION

Notice of Availability of the Finding of No Significant Impact on the Proposed Action Modifications for the Diamond Fork System, Central Utah Project

AGENCY: The Utah Reclamation Mitigation and Conservation Commission.

ACTION: Notice of Availability of the Finding of No Significant Impact (FONSI).

SUMMARY: On June 15, 2000, Michael C. Weland, Executive Director of the Utah Reclamation Mitigation and Conservation Commission (Mitigation Commission) signed the Finding of No Significant Impact (FONSI), which documents selection of proposed action modifications presented in the Diamond Fork System Proposed Action Modifications Final Environmental Assessment (Final EA). The Final EA is tied to the 1999 Final Supplement to the Final Environmental Impact Statement for the Diamond Fork System (1999 FS-FEIS; FEIS 99-25) filed with the U.S. Environmental Protection Agency on July 1, 1999. The Mitigation Commission, Central Utah Water Conservancy District and Department of the Interior were joint lead agencies in preparing the Final EA. The proposed action modifications are described and evaluated in the Final EA upon which the FONSI is based. The proposed action modifications are based on a value-engineering process initiated and completed on the 1999 FS-FEIS Proposed Action. Proposed action modifications will reduce environmental impacts and project costs and will improve overall environmental benefits. The proposed action modifications meet the Mitigation Commission's and Department of the Interior's needs to mitigate for the Bonneville Unit of the Central Utah Project and other federal reclamation projects, and to transport, on average,
