

Transmittal No. 00-43**Notice of Proposed Issuance of Letter of Offer
Pursuant to Section 36(b)(1)
of the Arms Export Control Act****Annex
Item No. vi****(vi) . Sensitivity of Technology:**

1. The AIM-120B Advanced Medium Range Air-to-Air Missile (AMRAAM) is a new generation air-to-air missile. The missile, including the guidance section, is classified confidential. Information on certain technologies embedded in the AIM-120B missile, including the software and the target detection device, range in classification from unclassified to secret. This missile incorporates an active radar with an inertial reference unit and microcomputer system, which makes the missile less dependent upon the fire-control system of the aircraft. This state-of-the-art technology is used in the AIM-120B to provide the missile with its unique beyond-visual-range capability.

2. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures which might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

3. A determination has been made that the Israel can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This proposed sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden.
