

sent a certified notice of violation to the property owner on June 22, 1982, for discharging into a non-permitted discharge pit and, in July 1982, the site ceased operation. No legal action was taken by the State; the company filed for bankruptcy in July 1983, and a court assigned bankruptcy trustee was appointed for the site.

Field inspections of the site by NMEID in February 1980, June 1982, and in May and June 1984, revealed the presence of cyanide and elevated metals in shallow ground water, soil and mill tailings. An Expanded Site Inspection (ESI) was conducted from January to October 1987 by an EPA Field Investigation Team (FIT). The objective of the ESI was to collect additional data for the Hazard Ranking System (HRS) and to facilitate the Remedial Investigation/Feasibility Study (RI/FS) planning.

On-site activities performed during the ESI included surface and subsurface soil sampling, visual inspection of process tanks, sampling of remnant materials in the tanks, quantifying waste volumes, sampling and geologically describing subsurface soil borings during installation of monitoring wells, sampling ground water in the monitoring wells and in nearby water supply wells, testing insitu permeability at the monitor wells, and identifying adjacent land uses.

Based on the findings of site investigations and the preparation of the HRS package, the Cimarron Mining Corporation Site was proposed for addition to the National Priorities List (NPL) on June 24, 1988, and finalized on October 4, 1989.

The OU1 selected remedy for ground water treatment consists of extracting contaminated shallow ground water and discharging to the City of Carrizozo sewage treatment plant, meeting all pretreatment requirements prior to discharge. Ground water treatment in OU1 will continue as long as it demonstrates effective, or, until the site is taken over by the state in 2004. The OU2 selected remedy includes the excavation and treatment of arsenic and lead contaminated soils by mixing the soils with cement and placing them in the on-site discharge pit with a native soil cover and native re-vegetation. Pursuant to section 104(c)(6) of CERCLA, EPA is authorized to share the cost of restoration of the ground water for a period of up to ten years or until the level of protectiveness, as defined in the Record of Decision, is achieved. The ten-year period began when the ground water remedy at the Cimarron Unit became operational and functional and adheres to the statutory provisions in 40

CFR 300.435(f)(3) and 300.435(f)(4). Based on mutual agreement between EPA and NMED, the ground water extraction and treatment system was deemed operational and functional beginning January 30, 1994.

C. Characterization of Risk

Due to remedial actions by EPA and NMED, and the long term remedial action for contaminated ground water, EPA verifies the implemented remedy for the portions of the site proposed to be deleted is protective of human health and the environment.

D. Community Involvement

Public participation activities have been satisfied as required in CERCLA subsection 113(k), 42 U.S.C. 9613(k), and in CERCLA section 117, 42 U.S.C. 9617. Documents in the deletion docket on which EPA relied for recommendation of the site partial deletion from the NPL have been made available to the public in the three information repositories as specified above.

E. Proposed Action

In consultation with NMED, EPA has concluded that all appropriate response actions required at portions of the site proposed to be deleted have been met. Neither the CERCLA-required five-year reviews nor operation and maintenance of the ground water remedy are considered further response action for these purposes. The ground water remedy for OU 1, which is the portion of the site not being proposed for deletion, will continue until the remedial action level for cyanide has been met or an alternate treatment and/or remedial action level is selected by EPA and the State.

In a letter dated January 25, 1999, NMED formally concurred with the partial deletion of the site and stated NMED's satisfaction with all completed remedial tasks as defined in the ROD. Moreover, EPA, in consultation with NMED, has determined that site surface soils at both OU 1 (Cimarron) and OU 2 (Sierra Blanca) now pose no significant threat to public health or the environment and that the Sierra Blanca site is suitable for future redevelopment. Consequently, EPA proposes this partial deletion of the Cimarron Mining Superfund Site.

Dated: May 31, 2000.

Lynda Carroll,

Acting Regional Administrator, EPA Region 6.

[FR Doc. 00-15393 Filed 6-20-00; 8:45 am]

BILLING CODE 6560-01-P

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Part 67

[Docket No. FEMA-7311]

Proposed Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency, FEMA.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are requested on the proposed base (1% annual chance) flood elevations and proposed base flood elevation modifications for the communities listed below. The base flood elevations are the basis for the floodplain management measures that the community is required either to adopt or to show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The comment period is ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in each community.

ADDRESSES: The proposed base flood elevations for each community are available for inspection at the office of the Chief Executive Officer of each community. The respective addresses are listed in the following table.

FOR FURTHER INFORMATION CONTACT: Matthew B. Miller, P.E., Chief, Hazards Study Branch, Mitigation Directorate, Federal Emergency Management Agency, 500 C Street SW., Washington, DC 20472; (202) 646-3461, or (email) matt.miller@fema.gov.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency (FEMA or Agency) proposes to make determinations of base flood elevations and modified base flood elevations for each community listed below, in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed base flood and modified base flood elevations, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own, or pursuant to policies established by other

Federal, state or regional entities. These proposed elevations are used to meet the floodplain management requirements of the NFIP and are also used to calculate the appropriate flood insurance premium rates for new buildings built after these elevations are made final, and for the contents in these buildings.

National Environmental Policy Act

This proposed rule is categorically excluded from the requirements of 44 CFR Part 10, Environmental Consideration. No environmental impact assessment has been prepared.

Regulatory Flexibility Act

The Associate Director, Mitigation Directorate, certifies that this proposed rule is exempt from the requirements of the Regulatory Flexibility Act because proposed or modified base flood elevations are required by the Flood Disaster Protection Act of 1973, 42

U.S.C. 4104, and are required to establish and maintain community eligibility in the National Flood Insurance Program. As a result, a regulatory flexibility analysis has not been prepared.

Regulatory Classification

This proposed rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Executive Order 12612, Federalism

This proposed rule involves no policies that have federalism implications under Executive Order 12612, Federalism, dated October 26, 1987.

Executive Order 12778, Civil Justice Reform

This proposed rule meets the applicable standards of section 2(b)(2) of Executive Order 12778.

List of Subjects in 44 CFR Part 67

Administrative practice and procedure, Flood insurance, Reporting and recordkeeping requirements.

Accordingly, 44 CFR part 67 is proposed to be amended as follows:

PART 67—[AMENDED]

1. The authority citation for part 67 continues to read as follows:

Authority: 42 U.S.C. 4001 *et seq.*; Reorganization Plan No. 3 of 1978, 3 CFR, 1978 Comp., p. 329; E.O. 12127, 44 FR 19367, 3 CFR, 1979 Comp., p. 376.

§ 67.4 [Amended]

2. The tables published under the authority of § 67.4 are proposed to be amended as follows:

State	City/town/county	Source of flooding	Location	#Depth in feet above ground. *Elevation in feet (NGVD)	
				Existing	Modified
Florida	Daytona Beach (City), Volusia County.	Atlantic Ocean	Approximately 450 feet northeast of the intersection of Harvey Avenue and Ocean Avenue South.	*11	*10
			Approximately 300 feet east of the intersection of Hartford Avenue and Atlantic Avenue North.	*9	*13
		Intracoastal Waterway	Approximately 500 feet west of the intersection of Glenview Boulevard and Halifax Avenue North.	*6	*5
			Approximately 700 feet east of the intersection of San Juan Avenue and North Beach Street.	*7	*8
		B-19 Canal Tributary No. 7.	At confluence with B-19 Canal	*28	*30
			Approximately 50 feet upstream of Beville Road/State Route 400.	*28	*30
		B-19 Canal	Approximately 1,100 feet upstream of the confluence of B-19 Canal Tributary No. 3 with B-19 Canal.	*28	*29
			Approximately 100 feet upstream of State Route 400.	*28	*30
		Tomoka River	Approximately 0.8 mile downstream of Eleventh Street.	*13	*14
			Approximately 400 feet downstream of Interstate 4.	*26	*25

Maps available for inspection at the Daytona Beach Public Works Complex, Engineering Department, 950 Bellevue Avenue, Daytona Beach, Florida.

Send comments to Mr. Carey F. Smith, Dayton Beach City Manager, P.O. Box 2451, Daytona Beach, Florida 32115.

Florida	Dayton Beach Shores (City), Volusia County.	Atlantic Ocean	Approximately 400 feet east of the intersection of Ridge Road and Atlantic Avenue South.	None	*10
			Approximately 500 feet east of the intersection of Van Avenue and Atlantic Avenue South.	*11	*12
		Intracoastal Waterway	Approximately 400 feet west of the intersection of Richards Lane and Peninsula Drive South.	*7	*6
			At the intersection of Demott Street and Peninsula Drive South.	None	*6

State	City/town/county	Source of flooding	Location	#Depth in feet above ground. *Elevation in feet (NGVD)

BILLING CODE 6718-04-P

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 64

[CC Docket No. 98-67; FCC 00-56]

Telecommunications Relay Services and Speech-to-Speech Services for Individuals With Hearing and Speech Disabilities

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: On March 6, 2000, the Commission released a Further Notice of Proposed Rulemaking (FNPRM) regarding telecommunications relay services (TRS). In the FNPRM, the Commission asks for comment on how

to further improve TRS to ensure that TRS remains "functionally equivalent" to voice telecommunications service as telecommunications capabilities change over time. Specifically, the FNPRM asked what changes are necessary to increase public awareness of TRS among all callers, not just those with disabilities, including how a national awareness education campaign can be established; and whether other technologies, services, and features should be made available to TRS users.

DATES: Reply comments are due on or before July 5, 2000.

ADDRESSES: Federal Communications Commission, 445 12th Street, SW, TW-A325, Washington, DC 20554. In addition to filing comments with the Office of the Secretary, a copy of any
