

Measures To Minimize Harm

Numerous practical mitigation measures to minimize or avoid potential adverse effects of the Selected Action are identified. As a result of public collaboration in developing the Fort Baker Plan, new measures were developed and safeguards initially noted in the Draft EIS were refined to be more stringent in the Final EIS. One of the new stipulations relates to the size of the proposed retreat and conference center—in response to public concern about the 350 room maximum size evaluated, the NPS is now committed to working with the public in soliciting the smallest possible, economically viable retreat and conference center proposal that fulfills Plan objectives. Additional mitigations recommended by the public or other agencies, or developed by the NPS in response to issues of local concern, were added in the Final EIS. In total, more than 70 mitigation measures have been included.

Moreover, the NPS is committed to seeking and implementing innovative approaches to reduce long-term dependence on automobile use at Fort Baker, to working cooperatively with other agencies to seek regional solutions to transportation challenges in the areas surrounding Fort Baker, and to engaging in studies to reduce or eliminate parking and uncontrolled automobile traffic within Fort Baker. The NPS is specifically committed to working with the City of Sausalito, the Marin County Congestion Management Agency, the Golden Gate Bridge, Highway and Transportation District, Caltrans, and the Metropolitan Transportation Commission.

Copy of Complete Decision Available

The synopsis provided above addresses only some of the considerations made in selecting, as the final Fort Baker Plan, the alternative identified as the "Proposed Action" in the Draft and Final EIS. Effecting the Fort Baker Plan will not impair park resources or values. Indeed, acting upon this Plan will significantly enhance the site's natural and cultural resources. A copy of the Record of Decision may be requested from the Superintendent, Golden Gate National Recreation Area, Building 201, Ft. Mason, San Francisco, CA 94123 (or may be obtained via www.nps.gov/goga). The Superintendent is responsible for plan implementation.

INTERNATIONAL TRADE COMMISSION

[Investigation No. 332-417]

Advice on Providing Additional GSP Benefits for Sub-Saharan Africa

AGENCY: United States International Trade Commission.

ACTION: Institution of investigation and scheduling of public hearing.

EFFECTIVE DATE: June 15, 2000.

SUMMARY: Following receipt of a request on May 22, 2000, from the United States Trade Representative (USTR), the Commission instituted Investigation No. 332-417, Advice on Providing Additional GSP Benefits for Sub-Saharan Africa, under section 332(g) of the Tariff Act of 1930 (19 U.S.C. 1332(g)).

As requested by USTR pursuant to section 332 (g) of the Tariff Act of 1930 and in accordance with sections 503(a)(1)(B), 503(e) and 131(a) of the Trade Act of 1974, as amended (1974 Act), the Commission will provide advice as to the probable economic effect on U.S. industries producing like or directly competitive articles, and on consumers, of the elimination of U.S. import duties under the Generalized System of Preferences (GSP) for 1,897 articles from potential beneficiary sub-Saharan African countries.

As requested by USTR, the Commission will assume that the benefits of the GSP would continue to apply to imports that normally would be excluded from receiving such benefits by virtue of the competitive need limits specified in section 503(c)(2)(A) of the 1974 Act (an exemption from the application of the competitive need limits for the beneficiary sub-Saharan African countries is provided for in section 503(c)(2)(D) of the 1974 Act).

As requested by USTR, the Commission expects to submit its report by October 2, 2000. The Commission will publish shortly thereafter a public version of the report, deleting the information that has been classified by USTR or which the Commission considers to be confidential business information.
