Needs and Uses: DFARS Subparts 227.71 and 227.72 prescribe the use of solicitation provisions and contract clauses containing information collection requirements that are associated with rights in technical data and computer software. DoD needs this information to implement 10 U.S.C. 2320, Rights in technical data, and 10 U.S.C. 2321, Validation of proprietary data restrictions. DoD uses the information to recognize and protect contractor rights in technical data and computer software that are associated

Summary of Information Collection

DoD uses the following DFARS provisions and clauses in solicitations and contracts to require offerors and contractors to identify and mark data or software requiring protection from unauthorized release or disclosure in accordance with 10 U.S.C. 2320:

252.227-7013, Rights in Technical Data-Noncommercial Items.

252.227-7014, Rights in Noncommercial Computer Software and Noncommercial Computer Software Documentation.

252.227-7017, Identification and Assertion of Use, Release, or Disclosure Restrictions.

252.227-7018, Rights in Noncommercial Technical Data and Computer Software-Small Business Innovation Research (SBIR) Program.

In accordance with 10 U.S.C. 2320(a)(2)(D), DoD may disclose limited rights data to persons outside the Government, or allow those persons to use limited rights data, if the recipient agrees not to further release, disclose, or use the data. Therefore, the clause at DFARS 252.227-7013, Rights in Technical Data-Noncommercial Items, requires the contractor to identify and mark data or software that it provides with limited rights.

In accordance with 10 U.S.C. 2321(b), contractors and subcontractors at any tier must be prepared to furnish written justification for any asserted restriction on the Government's rights to use or release data. The following DFARS clauses require contractors and subcontractors to maintain adequate records and procedures to justify any asserted restrictions:

225.227-7019, Validation of Asserted Restrictions-Computer Software.

252.227-7037, Validation of Restrictive Markings on Technical Data.

In accordance with 10 U.S.C. 2320, DoD must protect the rights of contractors that have developed items, components, or processes at private expense. Therefore, the clause at DFARS 252.227-7025, Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive

Legends, requires a contractor or subcontractor to submit a use and non-disclosure agreement when it obtains data from the Government to which the Government has only limited rights.

The provision at DFARS 252.227-7028, Technical Data or Computer Software Previously Delivered to the Government, requires an offeror to identify any technical data or computer software that it previously delivered, or will deliver, under any Government contract. DoD needs this information to avoid paying for rights in technical data or computer software that the Government already owns.

In accordance with 10 U.S.C. 2320(b)(7), a contractor that delivers or makes technical data available to the Government must furnish written assurance that the technical data is complete and accurate and satisfies contract requirements. The clause at DFARS 252.227-7036, Declaration of Technical Data Conformity, implements this requirement.

Michele P. Peterson,
Executive Editor, Defense Acquisition Regulations Council.
