Background

MACOSH was established pursuant to the authority in Section 7 of the Occupational Safety and Health Act of 1970 to advise the Assistant Secretary of Labor for Occupational Safety and Health on issues relating to occupational safety and health for workers involved in shipbuilding, shipbreaking, ship repair, and longshoring in the maritime industries in the United States. Since its establishment in 1995, the committee, using its unique and collective expertise, has provided invaluable assistance and advice to the Assistant Secretary on maritime matters.

On January 24, 2000, OSHA announced its intention to renew the charter of MACOSH for another two-year term and requested nominations of interested persons to serve on the

advisory committee (65 FR 3740). The Agency received the nominations of many highly qualified persons.

Unfortunately, the Occupational Safety and Health Act limits the number of members that can be on an advisory committee to 15. The following 15 persons were selected to represent the diverse interests of the maritime community on MACOSH.
