

reservoir for irrigation drainage and (i) reduce and stabilize the overall salinity of the Salton Sea; (ii) stabilize the surface elevation of the Salton Sea; (iii) reclaim, in the long term, healthy fish and wildlife resources and their habitats; and (iv) enhance the potential for recreational uses and economic developments of the Salton Sea." The following five project goals were developed: (1) Maintain the Sea as a repository for agricultural drainage; (2) provide a safe, productive environment at the Sea for resident and migratory birds and endangered species; (3) restore recreational uses at the Sea; (4) maintain a viable sport fishery at the Sea; and (5) enhance the Sea to provide economic development opportunities. The DEIS/DEIR presents a No Action Alternative, five action alternatives, as well as a suite of common actions developed to enhance the action alternatives. The action alternatives are approached as each consisting of two phases: (i) "short-term" or Phase 1 of each action alternative is designed to reduce and stabilize salinity for at least 30 years; and (ii) Phase 2 or "long-term" actions designed to last no less than 70 to 100 years. Each alternative, including the No Action Alternative, is evaluated against three inflow scenarios: (1) current (present-day) inflow of 1.36 million acre-feet per year (maf/yr); (ii) a reduction of 300,000 acre-feet per year (af/yr) to 1.06 maf/yr; and (iii) a total inflow reduction of 536,000 af/yr to 0.8 maf/yr. Phase 1 action alternatives include: (1) construction of evaporation ponds that would concentrate salinity within their boundaries to reduce salinity in the Sea, and also could potentially serve as a displacement mechanism to control the Sea's elevation; (2) construction of an Enhanced Evaporation System (EES), a system that sprays a fine mist of water into the air to accelerate evaporation and create a saline precipitate; (3) a combination of an EES with an evaporation pond; or (4) an in-Sea EES within an evaporation pond. Phase 2 action alternatives involve supplementing inflows to the Sea, creating displacement structures for elevation control, and creating longer lasting export options.

INTERNATIONAL TRADE COMMISSION

[Inv. No. 337-TA-421]

Certain enhanced dram devices containing embedded cache memory registers, components thereof, and products containing same; Notice of Commission determination not to review an initial determination terminating the investigation on the basis of a settlement agreement

AGENCY: U.S. International Trade Commission.

ACTION: Notice.

SUMMARY: Notice is hereby given that the U.S. International Trade Commission has determined not to review the presiding administrative law judge's (ALJ's) initial determination (ID) (Order No. 8) in the above-captioned investigation terminating the investigation on the basis of a settlement agreement.

FOR FURTHER INFORMATION CONTACT: Cynthia P. Johnson, Esq., Office of the General Counsel, U.S. International Trade Commission, telephone 202-205-3098. General information concerning the Commission may also be obtained by accessing its Internet server (<http://www.usitc.gov>). Hearing-impaired persons are advised that information on the matter can be obtained by contacting the Commission's TDD terminal on 202-205-1810.

SUPPLEMENTARY INFORMATION: The Commission instituted the above-referenced investigation based on a complaint filed by Enhanced Memory Systems, Inc. (EMS) of Colorado

Springs, Colorado. The complaint alleged violations of section 337 based on the importation into the United States, the sale for importation, and the sale within the United States after importation of certain enhanced DRAM devices containing embedded cache memory registers, components thereof, or products containing them by reason of infringement of claims 26 or 27 of U.S. Letters Patent 5,721,962 or claims 2, 6, 17, 18, 27, 28, 29, 30, or 31 of U.S. Letters Patent 5,887,272. NEC Corporation, NEC Electronics, Inc. and NEC USA Inc. (collectively, "NEC") were named as respondents.

On November 12, 1999, EMS and NEC filed a joint motion to terminate the investigation based on a settlement agreement. On November 22, 1999, the Commission investigative attorney filed a response in support of the joint motion to terminate. On December 20, 1999, the presiding ALJ granted the joint motion and issued an ID (Order No. 8) terminating the investigation on the basis of the settlement agreements. The ALJ found no indication that termination of the investigation would have an adverse impact on the public interest and that termination based on settlement is generally in the public interest. No petitions for review were filed.

This action is taken under the authority of section 337 of the Tariff Act of 1930, 19 U.S.C. § 1337, and Commission rule 210.42, 19 CFR 210.42.

Copies of the public version of the ALJ's ID, and all other nonconfidential documents filed in connection with this investigation, are or will be available for inspection during official business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 500 E Street S.W., Washington, D.C. 20436, telephone 202-205-2000.

By order of the Commission.

Issued: January 20, 2000.

Donna R. Koehnke,

Secretary.

INTERNATIONAL TRADE COMMISSION

[Inv. No. 337-TA-426]

Certain Spiral Grilled Products Including Ducted Fans and Components Thereof; Notice of Investigation

AGENCY: U.S. International Trade Commission.

ACTION: Institution of investigation pursuant to 19 U.S.C. § 1337.

SUMMARY: Notice is hereby given that a complaint was filed with the U.S. International Trade Commission on November 26, 1999, under section 337 of the Tariff Act of 1930, as amended, 19 U.S.C. § 1337, on behalf of Vornado Air Circulation Systems, Inc. of Andover, Kansas. A supplementary letter was filed on January 7, 2000. On December 28, 1999, the Commission voted to extend the deadline by which it had to decide whether to institute an investigation based on the complaint. The complaint, as supplemented, alleges violations of section 337 in the importation into the United States, the sale for importation, and the sale within the United States after importation of certain spiral grilled products, including ducted fans, and components thereof by reason of (i) infringement of claims 15, 16, 17, 18, 19, 20, 21, 22, 23 and 24 of U.S. Letters Patent Re. 34,551, and (ii) misappropriation of trade dress. The complaint further alleges that there exists an industry in the United States as required by subsection (a)(2) of section 337.

The complainant requests that the Commission institute an investigation and, after the investigation, issue a permanent exclusion order and a permanent cease and desist order.

ADDRESSES: The complaint, except for any confidential information contained therein, is available for inspection during official business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 500 E Street, S.W., Room 112, Washington, D.C. 20436, telephone 202-205-2000. Hearing-impaired individuals are advised that information on this matter can be obtained by contacting the Commission's TDD terminal on 202-205-1810. Persons with mobility impairments who will need special assistance in gaining access to the Commission should contact the Office of the Secretary at 202-205-2000. General information concerning the Commission may also be obtained by accessing its Internet server (<http://www.usitc.gov>).

FOR FURTHER INFORMATION CONTACT:

Thomas S. Fusco, Esq., Office of Unfair Import Investigations, U.S. International Trade Commission, telephone 202-205-2571.

Authority: The authority for institution of this investigation is contained in section 337 of the Tariff Act of 1930, as amended, and in section 210.10 of the Commission's Rules of Practice and Procedure, 19 CFR § 210.10 (1999).

SCOPE OF INVESTIGATION

Having considered the complaint, the U.S. International Trade Commission, on January 18, 2000 Ordered that—

(1) Pursuant to subsection (b) of section 337 of the Tariff Act of 1930, as amended, an investigation be instituted to determine:

(a) whether there is a violation of subsection (a)(1)(B) of section 337 in the importation into the United States, the sale for importation, or the sale within the United States after importation of certain spiral grilled products, including ducted fans, and components thereof by reason of infringement of claims 15, 16, 17, 18, 19, 20, 21, 22, 23, or 24 of U.S. Letters Patent Re. 34,551.

(b) whether there is a violation of subsection (a)(1)(A) of section 337 in the importation into the United States, the sale for importation, or the sale within the United States after importation of certain spiral grilled products, including ducted fans, and components thereof by reason of misappropriation of trade dress, the threat or effect of which is to destroy or substantially injure an industry in the United States; and

(c) whether there exists an industry in the United States as required by subsection (a)(2) of section 337.

(2) For the purpose of the investigation so instituted, the following are hereby named as parties upon which this notice of investigation shall be served:

(a) The complainant is—
Vornado Air Circulation Systems, Inc.,
415 E. 13th, Andover, Kansas 67002.

(b) The respondents are the following companies alleged to be in violation of section 337, and are the parties upon which the complaint is to be served:
