

Based on the above-mentioned information, officials of the American Heritage Center have determined that, pursuant to 43 CFR 10.2 (d)(1), the human remains listed above represent the physical remains of one individual of Native American ancestry. Officials of the American Heritage Center have determined that, pursuant to 43 CFR 10.2 (e), there is a relationship of shared group identity that can be reasonably traced between these Native American human remains and the Rosebud Sioux Tribe of the Rosebud Indian Reservation, South Dakota.

This notice has been sent to officials of the Rosebud Sioux Tribe of the Rosebud Indian Reservation, South Dakota. Representatives of any other Indian tribe that believes itself to be culturally affiliated with these human remains should contact Rick Ewig, Associate Director, American Heritage Center, University of Wyoming, P.O. Box 3924, Laramie, WY 82071; telephone: (307) 766-4114, before August 17, 2000. Repatriation of the human remains to the Rosebud Sioux Tribe of the Rosebud Indian Reservation, South Dakota may begin after that date if no additional claimants come forward.

Dated: June 13, 2000.

John Robbins,

Assistant Director, Cultural Resources Stewardship and Partnerships.

BILLING CODE 4310-70-F

DEPARTMENT OF THE INTERIOR

National Park Service.

Notice of Inventory Completion for Native American Human Remains and Associated Funerary Objects from Saline County, MO in the Possession of the Museum of Anthropology, University of Missouri-Columbia, Columbia, MO

AGENCY: National Park Service.

ACTION: Notice.

Notice is hereby given in accordance with provisions of the Native American Graves Protection and Repatriation Act (NAGPRA), 43 CFR 10.9, of the completion of an inventory of human remains and associated funerary objects from Saline County, MO in the possession of the Museum of Anthropology, Department of Anthropology, University of Missouri-Columbia, Columbia, MO. This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 43 CFR 10.2 (c). The

determinations within this notice are the sole responsibility of the museum, institution, or Federal agency that has control of these Native American human remains and associated funerary objects. The National Park Service is not responsible for the determinations within this notice.

A detailed assessment of the human remains was made by University of Missouri-Columbia professional staff in consultation with representatives of the Otoe-Missouria Tribe of Indians, Oklahoma; and the Iowa Tribe of Oklahoma.

Between 1939-1980, human remains representing a minimum of 114 individuals were recovered from site 23SA002 (Utz site), Saline County, MO during excavations conducted by University of Missouri-Columbia professional staff, supervised field school students, and volunteers of the Missouri Archaeological Society. No known individuals were identified. The 22 associated funerary objects include ceramic sherds, canine bones, limestone fragments, debitage, metal fragments, a shell gorget, burial soil, a biface, a terrapin carapace, faunal remains, a piece of daub, worked antler, and worked shell.

Based on oral tradition, types of associated funerary objects, and historical documents, these individuals have been determined to be Native American. Based on radiocarbon dating, presence of trade objects, and historical documents, the Utz site has been identified as a village occupation estimating to date to approximately A.D. 1460-1712. Oral tradition, archeological evidence, and historical documents indicate the Utz site was a village of the Missouri Tribe and the burials are reasonably believed to be culturally affiliated with the Otoe-Missouria Tribe of Indians, Oklahoma.

Based on the above-mentioned information, officials of the University of Missouri-Columbia have determined that, pursuant to 43 CFR 10.2 (d)(1), the human remains listed above represent the physical remains of a minimum of 114 individuals of Native American ancestry. Officials of the University of Missouri-Columbia also have determined that, pursuant to 43 CFR 10.2 (d)(2), the 22 objects listed above are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony. Lastly, officials of the University of Missouri-Columbia have determined that, pursuant to 43 CFR 10.2 (e), there is a relationship of shared group identity that can be reasonably traced between these Native American human

remains and associated funerary objects and the Otoe-Missouria Tribe of Indians, Oklahoma. This notice has been sent to officials of the Otoe-Missouria Tribe of Indians, Oklahoma; and the Iowa Tribe of Oklahoma. Representatives of any other Indian tribe that believes itself to be culturally affiliated with these human remains and associated funerary objects should contact Dr. Michael J. O'Brien, Director, Museum of Anthropology, 317 Lowry Hall, University of Missouri, Columbia, MO 65211, telephone (573) 882-4421, before August 17, 2000. Repatriation of the human remains and associated funerary objects to the Iowa Tribe of Oklahoma on behalf of the Otoe-Missouria Tribe of Indians, Oklahoma may begin after that date if no additional claimants come forward.

Dated: June 22, 2000.

John Robbins,

Assistant Director, Cultural Resources Stewardship and Partnerships.

DEPARTMENT OF THE INTERIOR

National Park Service

Notice of Inventory Completion for Native American Human Remains from Barrow, AK in the Possession of the University of Nebraska State Museum, University of Nebraska-Lincoln, Lincoln, NE- REVISION

AGENCY: National Park Service.

ACTION: Notice.

Notice is hereby given in accordance with provisions of the Native American Graves Protection and Repatriation Act (NAGPRA), 43 CFR 10.9, of the revision of an inventory of human remains in the possession of University of Nebraska State Museum, University of Nebraska-Lincoln, Lincoln, NE.

A detailed assessment of the human remains was made by University of Nebraska-Lincoln professional staff in consultation with representatives of North Slope Borough as the authorized representative of the Native Village of Barrow Inupiat Traditional Government, and Mrs. C. Boellstorff.

In 1931, human remains representing one individual were donated to the University of Nebraska State Museum by Mrs. Charles Fritch. No known individual was identified. No associated funerary objects are present.

These human remains were erroneously identified in the Notice of Inventory Completion, published April 6, 1999, as having been collected in

Barrow, AK by T.L. Richardson and donated to the Museum by Mrs. C. Boellstorff. In fact, these human remains were donated by Mrs. Fritch who lived in Pawnee County, NE. These human remains come from an unknown location and were collected under unknown circumstances and are now re-classified as culturally unidentifiable.

Based on the above-mentioned information, officials of the University of Nebraska-Lincoln have determined that, pursuant to 43 CFR 10.2 (d)(1), the human remains listed above represent the physical remains of one individual of Native American ancestry. Officials of the University of Nebraska-Lincoln also have determined that, pursuant to 43 CFR 10.2 (e), there is no relationship of shared group identity that can be reasonably traced between these Native American human remains and any present-day Indian tribe.

This notice has been sent to officials of the North Slope Borough, the Native Village of Barrow Inupiat Traditional Government. Representatives of any other Indian tribe that wish consultation regarding these human remains should contact Dr. Priscilla Grew, NAGPRA Coordinator, University of Nebraska-Lincoln, 301 Bessey Hall, Lincoln, NE 68588-0381, telephone (402) 472-7854.

Dated: June 14, 2000.

John Robbins,

Assistant Director, Cultural Resources Stewardship and Partnerships.

DEPARTMENT OF THE INTERIOR

National Park Service

Golden Gate National Recreation Area; Notice of Proposed Year-Round Closure at Fort Funston and Request for Comments

DATE: Friday, July 14, 2000.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the resource protection mandate of the National Park Service (NPS), the Golden Gate National Recreation Area, NPS, is announcing its proposal to close year-round approximately 12 acres of Fort Funston to off-trail recreational use by the public. The closure is located in the northwest portion of Fort Funston. This closure is necessary to protect habitat for the California threatened bank swallows (*Riparia riparia*), enhance significant native plant communities, improve public safety and reduce

human-induced impacts to the coastal bluffs and dunes, a significant geological feature. NPS invites comments on this proposed year-round closure.

Background: Section 1.5 of Title 36 of the Code of Federal Regulations authorizes the Superintendent to effect closures and public use limits within a national park unit when necessary for the maintenance of public health and safety, protection of environmental or scenic values, protection of natural or cultural resources, aid to scientific research, implementation of management responsibilities, equitable allocation and use of facilities, or the avoidance of conflict among visitor use activities. The proposed closure at Fort Funston is necessary to protect public safety, to protect environmental values and natural resources, and to implement management responsibilities. Because of a May 16, 2000, Federal District Court ordered preliminary injunction against the NPS, disallowing the closure until such time as appropriate public notice and opportunity for comment was provided, NPS is providing this notice and invites comments from the public on this proposed year-round closure.

Reference: Public Law 92-589 of October 27, 1972, as amended, as codified in Title 16 United States Code Sections 460bb through 460bb-5. Title 16 United States Code Sections 1 and 1a-1. Title 36 Code of Federal Regulations Sections 1.5, 1.7, 2.1, and 2.15. Ft. Funston Dog Walkers v. Babbitt, No. C 00-00877 WHA, N.D. Cal., Preliminary Injunction, May 16, 2000.

Comments: Public comments will be accepted for a period of 60 calendar days from the date of this notice. Therefore, public comments on this notice must be received by September 12, 2000. Public comments should be submitted to NPS as early as possible in order to assure their maximum consideration. Comments will be considered and this proposal may be modified accordingly, and the final decision of the National Park Service will be published in the **Federal Register**.

If individuals submitting comments request that their name and/or address be withheld from public disclosure, it will be honored to the extent allowable by law. Such requests must be stated prominently at the beginning of the comments. There also may be circumstances wherein the NPS will withhold a respondent's identity as allowable by law. As always, NPS will make available for public inspection all submissions from organizations or businesses and from persons identifying

themselves as representatives or officials of organizations and businesses; and, anonymous comments may not be considered.

Send Comments To: Superintendent, Golden Gate National Recreation Area, Bay and Franklin Streets, Building 201, Ft. Mason, San Francisco, 94123.

Further Information: Detailed information concerning this proposal, including a map depicting the closure area and open park trails, is available at the following locations:

- Fort Funston Visitor Center and Ranger Office, ¼ mile south of John Muir Drive, on the west side of Hwy 35, Golden Gate National Recreation Area, National Park Service, San Francisco
- Pacific West Information Center, National Park Service, Building 201, Fort Mason, Bay and Franklin Streets, San Francisco
- San Francisco Public Library, Marina Branch, 1890 Chestnut Street, San Francisco
- San Francisco Public Library, Sunset Branch, 1305 18th Avenue, San Francisco

Contact: For further information, contact Scalla Sheen, Office of Public Affairs, GGNRA at 415-561-4730.

Brian O'Neill,

Superintendent, GGNRA.
