

The Conference Report for the FY 1992 Interior Related Agencies Appropriations Act, H. Conf. Rept. No. 102-256, p. 46 (1991), indicated that Congress wanted the Department to revise the priority ranking process for new school construction. The Bureau revised the process and developed draft revised instructions and criteria, complying with the 1991 Conference Report requirements that the BIA should emphasize tribal consultation and improve the objectivity of the ranking process, provide continuity to the priority ranking list, and provide procedures for handling emergency needs.

The Bureau published a Notice in the **Federal Register** on November 17, 1998 (63 FR 63942), requesting comments on the draft revised instructions and criteria, entitled "Instructions and Application for Replacement School Construction, 1999." The new instructions governed the priority ranking process for construction of replacement education facilities and the criteria used in ranking applications. Comments were received relating to administrative requirements and responsibilities; definitions of ranking criteria; evaluation of applications; and cost-sharing. The comments were reviewed and incorporated into the final instructions and criteria as appropriate by a team comprised of tribal representatives and BIA employees from the Office of Indian Education Programs and the Office of Facilities Management and Construction. The Bureau proceeded with using the final revised application instructions and criteria on February 26, 1999.

Copies of the final revised instructions and criteria were sent to all BIA schools and schools that receive BIA funds under contract or grant (Catalog of Federal Domestic Assistance Program Number: 15.062 "Replacement and Repair of Indian Schools"), and the Bureau held tribal consultation meetings on the revised process. BIA's Office of Indian Education Programs Education Line Officers offered training to applicants at all schools under their administrative jurisdiction on how to complete applications using the revised instructions and ranking criteria. Tribes and BIA-funded school boards received advance, written notice of training session dates, times and locations for tribes and schools under their respective jurisdictions. The Bureau published another Notice in the **Federal Register** on March 29, 1999 (64 FR 14936), calling for applications based on the revised instructions and ranking criteria. The Bureau accepted applications beginning June 28, 1999

and used the criteria in the revised instructions to review and evaluate all applications that were received on or before the deadline of July 16, 1999. These applications were ranked according to the new criteria and 10 schools were placed on the FY 2000 Priority List.

The Committee on Appropriations also recommended that the BIA establish a demonstration project to allow tribes with schools on the replacement list to apply for Federal funding with the guarantee of a cost share from the tribe, S. Rept. No. 106-99, p. 54 (1999). Accordingly, in the priority ranking process for the Education Facilities Replacement Construction Priority List as of FY 2000, applicants indicated whether they would cost share. Congress further stated that tribes may share the cost of construction of their school, identify non-Bureau funding to match or supplement Bureau funding, or pay future operations costs in exchange for the full funding of school construction costs earlier than they might hope to receive it under the Priority List.

Use of the term "cost share" after the name of an education facility replacement construction project on the FY 2000 Priority List means that a tribe has submitted a tribal council resolution supporting a long-term commitment to cost sharing, and has specified the exact nature of its monetary commitment or contribution by completing Section II of the application form, which commits the tribe to share in the costs of school facility replacement in order to expedite construction.

This notice is published under authority delegated by the Secretary of the Interior to the Assistant Secretary for Indian Affairs in the Departmental Manual at 209 DM 8.

Final Environmental Impact Statement, General Management Plan Amendment, Wilderness and Backcountry Management Plan, Joshua Tree National Park, Riverside and San Bernardino Counties, California; Notice of Approval of Record of Decision

SUMMARY: Pursuant to § 102(2)(C) of the National Environmental Policy Act of 1969 (P.L. 91-190, as amended) and the regulations promulgated by the Council on Environmental Quality (40 CFR Part 1505.2), the Department of the Interior, National Park Service has prepared and approved a Record of Decision for the Final Environmental Impact Statement Wilderness and Backcountry Management Plan for Joshua Tree National Park. The no action period was initiated November 5, 1999, with the U.S. Environmental Protection Agency's **Federal Register** notification of the filing of the Final Environmental Impact Statement (FEIS).

Decision: The National Park Service will implement wilderness stewardship actions, monitoring, research, and other elements of a comprehensive program described as the New Proposed Action (Alternative E), as soon as practical. This course of action and four alternatives were identified and analyzed in the Final and Supplemental Environmental Impacts Statements (latter issued November 2, 1998). The Draft Environmental Impact Statement was distributed on November 21, 1997.

COPIES: Interested parties desiring to review the Record of Decision may obtain a copy by contacting the Superintendent, Joshua Tree National

Park, 74485 National Park Dr., Twentynine Palms, California 92277-3597; or via telephone request at (760) 367-5502.

Notice of Intent To Prepare an Environmental Impact Statement (EIS) for the General Management Plan for Cane River Creole National Historical Park, Louisiana.

SUMMARY: Pursuant to Section 102(2)(c) of the National Environmental Policy Act, the National Park Service will prepare an Environmental Impact Statement to assess the potential impacts of future development and management options in conjunction with the General Management Plan (GMP) for Cane River Creole National Historical Park, Louisiana.

Preparation of a draft GMP began in 1996 and included preparation of a draft Environmental Assessment. Scoping for the plan has included interdisciplinary team meetings with the Cane River National Heritage Area Commission, interested agencies, organizations, and individuals. Meetings with the general public were conducted in January and February, 1996, March and April 1997, and March and April 1998. The scoping process has indicated that the proposals being considered may constitute a major Federal action significantly affecting the quality of the human environment. Therefore, the preparation of an EIS in conjunction with the plan is appropriate.

The General Management Plan and EIS will investigate alternatives ranging from no action to a variety of development and management proposals designed to guide visitor use, resource protection, and partnership relationships. Federal, state, and local agencies, and other individuals and organizations who may be interested in, or affected by, the future development of Cane River Creole National Historical Park are further invited to participate in refining or identifying issues.

Preparation of the plan and EIS is expected to take about 11 months. The draft plan and EIS should be available for public review by early spring, 2000 with the final plan and EIS and Record of Decision expected to be completed by
