

Frequency of response: On occasion (when respondent takes NARA sponsored training classes).

Estimated total annual burden hours: 533 hours.

Abstract: The information collection allows uniform measurement of customer satisfaction with NARA training. NARA distributes the approved form to the course coordinators on diskette for customization of selected elements, shown as shaded areas on the form submitted for clearance.

2. *Title:* National Archives Order for Land Claim Records

OMB number: 3095-0033.

Agency form number: NATF 84.

Type of review: Regular.

Affected public: Individuals who wish to order copies of land claim records in the National Archives of the United States.

Estimated number of respondents: 10,000.

Estimated time per response: 10 minutes.

Frequency of response: On occasion (when respondent wishes to search for or order copies of land claim records).

Estimated total annual burden hours: 1,667 (rounded off number).

Abstract: The NATF form 84 is used by researchers to request that NARA search for and make copies of pages from Federal land entry case files (land claim records) in the custody of the National Archives. These records generally date from 1800 to approximately 1965. Submission of requests on a form is necessary to handle in a timely fashion the volume of requests received for these records (approximately 10,000 per year) and the need to obtain specific information from the researcher to search for the records sought. The form will be printed on carbonless paper as a multi-part form to allow the researcher to retain a copy of his request and NARA to respond to the researcher on the results of the search or to bill for copies if the researcher wishes to order the copies. As a convenience, the form will allow researchers to provide credit card information to authorize billing and to expedite mailing of the copies. NARA is working on a system to accept electronic submission of requests.
