

FOR FURTHER INFORMATION CONTACT: Wayne Eddins, Reports Management Officer, Q, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, DC 20410; e-mail Wayne_Eddins@HUD.gov; telephone (202) 708-2374. This is not a toll-free number. Copies of the proposed forms and other available documents submitted to OMB may be obtained from Mr. Eddins.

SUPPLEMENTARY INFORMATION: The Department has submitted the proposal for the collection of information, as described below, to OMB for review, as required by the Paperwork Reduction Act (44 U.S.C. Chapter 35). The Notice lists the following information: (1) The title of the information collection proposal; (2) the office of the agency to

collection the information; (3) the OMB approval number, if applicable; (4) the description of the need for the information and its proposed use; (5) the agency form number, if applicable; (6) what members of the public will be affected by the proposal; (7) how frequently information submissions will be required; (8) an estimate of the total number of hours needed to prepare the information submission including number of respondents, frequency of response, and hours of response; (9) whether the proposal is new, an extension, reinstatement, or revisions of an information collection requirement; and (10) the name and telephone number of an agency official familiar with the proposal and the OMB Desk Officer for the Department.

This Notice also lists the following information:

Title of Proposal: Monthly Report of Excess Income.

OMB Approval Number: 2502-0086.

Form Numbers: HUD-93104.

Description of the Need for the Information and Its Proposed Use:

Owners of Section 236 insured/noninsured projects are required by Law to pay to HUD the total rental changes collected that are in excess of the basic rents approved for all occupied units. Owners use the HUD-93104 to report the required payment due HUD.

Respondents: Business or other for-profit.

Frequency of Submission: Monthly and Annually.

Reporting Burden:

Number of respondents	×	Frequency of response	×	Hours per response	=	Burden hours
2,500		13		0.09		3,025

Total Estimated Burden Hours: 3,025.

Status: Reinstatement, with change, of a previously approved collection for which approval has expired.

Authority: Section 3507 of the Paperwork Reduction Act of 1995, 44 U.S.C. 35, as amended.

Dated: July 20, 2000.

Wayne Eddins,

*Department Reports Management Officer,
Office of the Chief Information Officer.*

Fish and Wildlife Service

Information Collection Renewal To Be Submitted to the Office of Management and Budget (OMB) for Approval under the Paperwork Reduction Act

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Information collection; request for comments.

SUMMARY: We will submit the collection of information described below to OMB for renewal under the provisions of the Paperwork Reduction Act of 1995. If you wish to obtain copies of the proposed information collection requirement, related forms, and/or explanatory material, contact the Information Collection Clearance Officer at the address listed below.

DATES: You must submit comments on or before September 26, 2000.

ADDRESSES: Send your comments on the requirement to Rebecca Mullin, Information Collection Clearance Officer, U.S. Fish and Wildlife Service, MS 222-ARLSQ, 1849 C Street NW., Washington, DC 20204.

FOR FURTHER INFORMATION CONTACT: Rebecca Mullin, Information Collection Clearance Officer, at (703) 358-2287; rebecca_mullin@fws.gov.

SUPPLEMENTARY INFORMATION: The Office of Management and Budget (OMB) regulations at 5 CFR 1320, which implement provisions of the Paperwork Reduction Act of 1995 (Pub. L. 104-13), require that interested members of the public and affected agencies have an opportunity to comment on information collection and recordkeeping activities. The U.S. Fish and Wildlife Service plans to submit a request to OMB to renew its approval of the collection of information concerning numbers of double-crested cormorants taken under the Depredation Order (50 CFR 21.47). We are requesting a 3-year term of approval for this information collection activity.

Federal agencies may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. OMB granted an emergency control number (1018-0097) for this collection of information, which expired in August 1998. The Service is currently in the process of preparing an Environmental Impact Statement and national management plan for the double-crested cormorant and would like to renew the control number so that

it may collect relevant biological information from aquaculturists under the terms of the Depredation Order.

The Migratory Bird Treaty Act (16 U.S.C. 703-711) and Fish and Wildlife Act of 1956 (16 U.S.C. 742d) designate the Department of the Interior as the key agency responsible for the management of migratory bird populations frequenting the United States. This responsibility dictates the gathering of accurate data on various characteristics of migratory bird populations. In 1998, we issued a standing Depredation Order that allows persons engaged in the production of commercial freshwater aquaculture stocks in 13 States to take depredating double-crested cormorants at aquacultural facilities. Under the conditions of the Depredation Order, any person exercising such privileges must keep and maintain a monthly log recording the date and number of all cormorants killed each month, maintain the log for a period of 3 years, and make the log available to Federal and State wildlife enforcement officers upon request. The mortality information that these logs provide is necessary for the development of population data and determination of program effectiveness to be used for management purposes.

Title: Depredation Order for the Double-crested Cormorant.

Approval Number: 1018-0097.

Service Form Number: None.

Frequency of Collection: Annually.

Description of Respondents: Businesses, individuals, and State, local, or tribal governments.

Total Annual Burden Hours: The total annual burden is estimated at 875 hours.

Total Annual Responses: About 2,200 individuals are expected to complete the required mortality logs and approximately 250 individuals will complete the annual survey (for a total of 2,450).

We invite comments concerning this renewal on: (1) Whether the collection of information is necessary for the proper performance of our migratory bird management functions; (2) the accuracy of our estimate of the burden of the collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents.

Dated: July 20, 2000.

Rebecca Mullin,

Information Collection Clearance Officer.

Bolsa Chica Lowlands Restoration Plan Draft Environmental Impact Statement/Report

AGENCY: Fish and Wildlife Service, Department of the Interior and the U.S. Army Corps of Engineers, Department of Defense.

ACTION: Notice of Availability of Draft Environmental Impact Statement/Report for the Bolsa Chica Lowlands Restoration Plan, Orange County, California.

SUMMARY: Pursuant to the National Environmental Policy Act of 1969, the Fish and Wildlife Service (FWS) and the U.S. Army Corps of Engineers (USACE) announce the availability of a draft environmental impact statement/report (DEIS/R) for the Bolsa Chica Lowlands Restoration Plan, Orange County, California.

DATES: A 45-day comment period will follow the Environmental Protection Agency's notice of availability of the DEIS/R on July 28, 2000. Comments must be received no later than Monday, September 11, 2000. A Public Hearing to receive comments on the DEIS/R will be held on Thursday, August 31, 2000 at 3:30 pm and again at 7 pm in the City of Huntington Beach Council Chamber, 2000 Main, Huntington Beach, California.

ADDRESSES: Public reading copies of the DEIS/R will be available for review at: Huntington Beach Central Library, 7111 Talbert, Huntington Beach, California, Garden Grove County Regional Library, 11200 Stanford, Garden Grove, California, Fountain Valley Branch Library, 17635 Los Alamos, Fountain Valley, California, Seal Beach Branch Library, 707 Electric Ave., Seal Beach, California, Fish and Wildlife Service, 2730 Loker Ave. West, Carlsbad, California, Corps of Engineers, Los Angeles District, 711 Wilshire Blvd, 14th floor, Los Angeles, California.

SUPPLEMENTARY INFORMATION: This DEIS/R has been prepared and is being circulated in accordance with the California Environmental Quality Act (CEQA) and the National Environmental Policy Act (NEPA). The Fish and Wildlife Service and the Corps of Engineers are NEPA co-lead agencies, cooperating with six other State and Federal agencies on implementation of the proposed plan. This project involves the proposal to implement a comprehensive wetland habitat restoration plan for an approximately 1300-acre area known as the Bolsa Chica Lowlands to benefit shorebirds, waterfowl, coastal seabirds, marine fishes, and a full spectrum of coastal ecosystem biota. The project site is separated from the Pacific Ocean by a State beach and highway, within the southwestern-most portions of the City of Huntington Beach, Orange County, California. Major components of this planning effort are: (1) Restoration of full tidal influence through new inlet and bridge construction and expansion of the wetland's tidal prism by dredging, (2) creation and enhancement of aquatic habitats and intertidal wetlands, (3) creation of nesting and feeding areas for Threatened and Endangered birds, (4) preservation of nontidal wetlands, and (5) phased removal of oil extraction facilities from the wetlands area.

Potentially significant environmental impacts have been identified in the areas of land use, hydrology/water quality, air quality, and biological resources. Analyzed alternatives include: three different inlet locations and no new inlet, storm water runoff around or through the wetlands, and phased implementation of tidal restoration features. The project includes measures to mitigate some potential impacts, while other mitigation will be made conditions of subsequent permits.

FOR FURTHER INFORMATION CONTACT: Jack Fancher, Coastal Program Coordinator, Fish and Wildlife Service, 2730 Loker Ave. West, Carlsbad, California 92008.

Phone (760) 431-9440 or Pam Castens, Corps of Engineers, P.O. Box 532711, Los Angeles, California 90053-2325. Phone (213) 452-3851

Dated: July 19, 2000.

David G. Paullin,

Acting Manager, California-Nevada Office, Fish and Wildlife Service.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Intent To Prepare a Joint Environmental Impact Statement/Environmental Impact Report for the Reintroduction of the Riparian Brush Rabbit

AGENCY: Fish and Wildlife Service, Interior (Lead Agency).

ACTION: Notice of intent.

SUMMARY: The Fish and Wildlife Service (Service), Bureau of Reclamation (Reclamation), California Department of Fish and Game (CDFG), and the Endangered Species Recovery Program (ESRP) through California State University, Stanislaus, propose to participate in the reintroduction of the riparian brush rabbit (*Sylvilagus bachmani riparius*), which is federally listed as endangered, to restored riparian habitat.

The strategy for the conservation (i.e. recovery) of the riparian brush rabbit was published in the Recovery Plan for the Upland Species of the San Joaquin Valley (U.S. Fish and Wildlife Service 1998). This recovery plan outlines research and management actions necessary to support recovery of the species. It is the intent of the Service to recover federally listed species through actions which will lead to the maintenance of secure, self-sustaining wild populations of species with the minimum necessary investment of resources. In the case of a species at risk of extinction as the riparian brush rabbit, efforts necessary to bring about recovery often require extraordinary measures. Because of the small size of remaining blocks of potential habitat, and the severely limited dispersal capability of the riparian brush rabbit, the brush rabbit is likely to require continuing special protection of its habitat and population. More specifically, captive breeding is needed to increase riparian brush rabbit numbers and preserve genetic diversity. Additionally, the release of their progeny will be needed to enhance existing populations as necessary and to
