

rate that applies to the finished products (duty free) instead of the rates otherwise applicable to the foreign materials (duty rates on these items range from duty-free to 12.7%). The company is exempt from duty payments on foreign merchandise that becomes scrap/waste. The application indicates that savings from zone procedures would continue to help improve the plant's international competitiveness.

In accordance with the Board's regulations, a member of the FTZ staff has been designated examiner to investigate the application and report to the Board.

Public comment on the application is invited from interested parties. Submissions (original and three copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period of their receipt is October 2, 2000. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period October 16, 2000.

A copy of the application and the accompanying exhibits will be available for public inspection at the following location: Office of the Executive Secretary, Foreign-Trade Zones Board, Room 3716, U.S. Department of Commerce, 14th & Pennsylvania Avenue, NW, Washington, DC 20230.

Dated: July 21, 2000.

Dennis Puccinelli,

Executive Secretary.

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[Docket 38-2000]

Foreign-Trade Zone 57—Asheville, North Carolina; Application for Foreign-Trade Subzone Status; Volvo Construction Equipment North America, Inc. (Construction Equipment) Asheville, NC, Area

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the North Carolina Department of Commerce, grantee of FTZ 57, requesting special-purpose subzone status for the manufacturing facilities (construction equipment) of Volvo Construction Equipment North America, Inc. (Volvo), located at sites in the Asheville, North Carolina area. The application was submitted pursuant to the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR part

400). It was formally filed on July 17, 2000.

The Volvo facilities are located at two sites in the Asheville, North Carolina, area (64 acres, 531,700 sq. ft. total): *Factory Site* (6 buildings/399,700 sq. ft.)—office and main manufacturing facilities, located at 2169 Hendersonville Rd. (U.S. Rt. 25), Skyland; and *Feeder Distribution Warehouse Site* (1 building/132,000 sq. ft.)—located at 1856 Hendersonville Rd., Asheville.

The facilities (400 employees) are used for the fabrication, assembly, and testing of Volvo's articulated haulers and loaders. Some of the components used in the manufacturing process are purchased from abroad (ranging from 36.1% to 82.8% of finished product value), including: Cabs; sheet metal (non-steel); hydraulic cylinders; axles; transmissions; engines; wheels; rims; tires; buckets; caulking materials; anti-corrosive preparations; locks; spanners and wrenches; electrical instruments and apparatuses; and lamps and lighting (duty rates on imported items range from duty-free to 9.0%). The company indicates that any foreign-produced steel products will be admitted to the proposed subzone in domestic (duty-paid) status.

Zone procedures would exempt Volvo from Customs duty payments on foreign components used in export production. FTZ procedures will help Volvo to implement a more efficient and cost-effective system for handling Customs requirements. On its domestic sales, Volvo would be able to choose the lower duty rate that applies to the finished products (duty-free) for foreign components, including those noted above. The company also would benefit from duty savings on scrap and waste resulting from the production process. FTZ status may also make a site eligible for benefits provided under state/local programs. The application indicates that the savings from zone procedures would help improve the facilities' international competitiveness, and could enable the company to shift additional production from overseas to the Asheville-area facilities.

In accordance with the Board's regulations, a member of the FTZ Staff has been designated examiner to investigate the application and report to the Board.

Public comment on the application is invited from interested parties. Submissions (original and three copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is October 2, 2000. Rebuttal comments in response to material

submitted during the foregoing period may be submitted during the subsequent 15-day period to October 16, 2000.

A copy of the application and the accompanying exhibits will be available for public inspection at each of the following locations: Office of the Executive Secretary, Foreign-Trade Zones Board, U.S. Department of Commerce, Room 3716, 14th and Pennsylvania Avenue, NW., Washington, DC 20230.

U.S. Department of Commerce Export Assistance Center, 521 East Morehead St., Suite 435, Charlotte, NC 28202.

Dated: July 21, 2000.

Dennis Puccinelli,

Executive Secretary.

Cold-Rolled Carbon Steel Flat Products From the Netherlands; Final Results of Full Sunset Review of Antidumping Duty Order

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of final results of full sunset review: cold-rolled carbon steel flat products from the Netherlands.

SUMMARY: On March 27, 2000, the Department of Commerce ("the Department") published a notice of preliminary results of the full sunset review of the antidumping duty order on cold-rolled carbon steel flat products from the Netherlands (65 FR 16168) pursuant to section 751(c) of the Tariff Act of 1930, as amended ("the Act"). We provided interested parties an opportunity to comment on our preliminary results. We received comments from both domestic and respondent interested parties. As a result of this review, the Department finds that revocation of this order would be likely to lead to continuation or recurrence of dumping.

EFFECTIVE DATE: August 2, 2000.

FOR FURTHER INFORMATION CONTACT:

Kathryn B. McCormick or James Maeder, Office of Policy for Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone: (202) 482-1930 or (202) 482-3330, respectively.

SUPPLEMENTARY INFORMATION:

Statute and Regulations

This review is being conducted pursuant to sections 751(c) and 752 of the Act. The Department's procedures for the conduct of sunset reviews are set forth in *Procedures for Conducting Five-year ("Sunset") Reviews of Antidumping and Countervailing Duty Orders*, 63 FR 13516 (March 20, 1998) ("*Sunset Regulations*") and in CFR part 351 (1999) in general. Guidance on methodological or analytical issues relevant to the Department's conduct of sunset reviews is set forth in the Department's Policy Bulletin 98.3—*Policies Regarding the Conduct of Five-year ("Sunset") Reviews of Antidumping and Countervailing Duty Orders*; Policy Bulletin, 63 FR 18871 (April 16, 1998) ("*Sunset Policy Bulletin*").

Background

On April 7, 2000, the Department of Commerce ("the Department") published in the **Federal Register** a notice of preliminary results of the full sunset review of the antidumping duty order on cold-rolled carbon steel flat products from the Netherlands (65 FR 16168) pursuant to section 751(c) of the Tariff Act of 1930, as amended ("the Act"). In our preliminary results, we found that revocation of the order would likely result in continuation or recurrence of dumping with net margins of 7.96 percent for Hoogovens Stal BV ("HSBV") and Hoogovens Steel USA, Inc. ("HS-USA"), and 7.96 percent for "all others."

On April 26, 2000, Bethlehem Steel Corporation, U.S. Steel Group, a unit of USX Corporation, Ispat Inland, Inc., and LTV Steel Company, Inc. (collectively "domestic interested parties") requested a hearing in the sunset review. On May 3, 2000, Dofasco also requested a hearing. Subsequently, interested parties withdrew their requests for a hearing.

On May 8, 2000, within the deadline specified in 19 CFR 351.209(c)(1)(i), we received case briefs on behalf of domestic interested parties and Corus Staal BV¹ and HS-USA (together, "Hoogovens"). On May 12, 2000, domestic interested parties requested an extension of the deadline for filing rebuttal briefs; on May 15, 2000, the Department granted an extension for interested parties to file rebuttal briefs until May 15, 2000.

¹ On April 3, 2000, Hoogovens Staal BV, the foreign producer/exporter of the subject merchandise changed its name to Corus Staal BV. For ease of reference, we have continued to refer to Corus Staal BV and Hoogovens's Steel USA, Inc., as "Hoogovens" herein.

Scope of Review

The products covered by this order include cold-rolled (cold-reduced) carbon steel flat-rolled products, of rectangular shape, neither clad, plated nor coated with metal, whether or not painted, varnished or coated with plastics or other nonmetallic substances, in coils (whether or not in successively superimposed layers) and of a width of 0.5 inch or greater, or in straight lengths which, if of a thickness less than 4.75 millimeters, are of a width of 0.5 inch or greater and which measures at least 10 times the thickness or if of a thickness of 4.75 millimeters or more are of a width which exceeds 150 millimeters and measures at least twice the thickness, as currently classifiable in the Harmonized Tariff Schedule ("HTS") under item numbers 7209.15.0000, 7209.16.0030, 7209.16.0060, 7209.16.0090, 7209.17.0030, 7209.17.0060, 7209.17.0090, 7209.18.1530, 7209.18.1560, 7209.18.2550, 7209.18.6000, 7209.25.0000, 7209.26.0000, 7209.27.0000, 7209.28.0000, 7209.90.0000, 7210.70.3000, 7210.90.9000, 7211.23.1500, 7211.23.2000, 7211.23.3000, 7211.23.4500, 7211.23.6030, 7211.23.6060, 7211.23.6085, 7211.29.2030, 7211.29.2090, 7211.29.4500, 7211.29.6030, 7211.29.6080, 7211.90.0000, 7212.40.1000, 7212.40.5000, 7212.50.0000, 7215.50.0015, 7215.50.0060, 7215.50.0090, 7215.90.5000, 7217.10.1000, 7217.10.2000, 7217.10.3000, 7217.10.7000, 7217.90.1000, 7217.90.5030, 7217.90.5060, and 7217.90.5090. Included in this order are flat-rolled products of non-rectangular cross-section where such cross-section is achieved subsequent to the rolling process (*i.e.*, products which have been "worked after rolling")—for example, products which have been beveled or rounded at the edges. Excluded from this order is certain shadow mask steel, *i.e.*, aluminum-killed, cold-rolled steel coil that is open-coil annealed, has a carbon content of less than 0.002 percent, is of 0.003 to 0.012 inch in thickness, 15 to 30 inches in width, and has an ultra-flat, isotropic surface. These HTS item numbers are provided for convenience and customs purposes. The written description of the scope of this order remains dispositive.

Analysis of Comments Received

All issues raised in the case and rebuttal briefs by parties to this sunset review are addressed in the "Issues and

Decision Memorandum" ("Decision Memo") from Jeffrey A. May, Director, Office of Policy, Import Administration, to Troy H. Cribb, Acting Assistant Secretary for Import Administration, dated July 27, 2000, which is hereby adopted by this notice. The issues discussed in the Decision Memo include the magnitude of the margin likely to prevail were the order revoked. Hoogovens argued that its margins had consistently decreased, thus warranting use of a more recent margin. However, we found that, in light of the increase in Hoogovens margin in the final results of the sixth administrative review, the appropriate rate to report to the Commission is the rate from the original investigation, 19.32 percent. Parties can find a complete discussion of all issues raised in this review and the corresponding recommendations in this public memorandum which is on file in the Central Records Unit, room B-099, of the main Commerce building.

In addition, a complete version of the Decision Memo can be accessed directly on the Web at www.ita.doc.gov/import-admin/records/frn/, under the heading "Netherlands." The paper copy and electronic version of the Decision Memo are identical in content.

Final Results of Review

We determine that revocation of the antidumping duty order on cold-rolled carbon steel flat products from the Netherlands would be likely to lead to continuation or recurrence of dumping at the following percentage weighted-average margins:

Manufacturer/exporters	Margin (percent)
Hoogovens Stal BV	19.32
All Others	19.32

This notice also serves as the only reminder to parties subject to administrative protective orders ("APO") of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Timely notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

This five-year ("sunset") review and notice are in accordance with sections 751(c), 752, and 777(i)(1) of the Act.

Dated: July 27, 2000.

Troy H. Cribb,

Acting Assistant Secretary for Import Administration.

Corrosion-Resistant Carbon Steel Flat Products From Canada; Final Results of Full Sunset Review of Antidumping Duty Order

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of Final Results of Full Sunset Review: Corrosion-Resistant Carbon Steel Flat Products from Canada.

SUMMARY: On April 7, 2000, the Department of Commerce ("the Department") published a notice of preliminary results of the full sunset review of the antidumping duty order on corrosion-resistant carbon steel flat products from Canada (65 FR 18286) pursuant to section 751(c) of the Tariff Act of 1930, as amended ("the Act"). We provided interested parties an opportunity to comment on our preliminary results. We received comments from both domestic and respondent interested parties and held a public hearing. As a result of this review, the Department finds that revocation of this order would be likely to lead to continuation or recurrence of dumping.

EFFECTIVE DATE: August 2, 2000.

FOR FURTHER INFORMATION CONTACT:

Kathryn B. McCormick or James Maeder, Office of Policy for Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone: (202) 482-1930 or (202) 482-3330, respectively.

SUPPLEMENTARY INFORMATION:

Statute and Regulations

This review is being conducted pursuant to sections 751(c) and 752 of the Act. The Department's procedures for the conduct of sunset reviews are set forth in *Procedures for Conducting Five-year ("Sunset") Reviews of Antidumping and Countervailing Duty Orders*, 63 FR 13516 (March 20, 1998) ("Sunset Regulations") and in CFR Part 351 (1999) in general. Guidance on methodological or analytical issues

relevant to the Department's conduct of sunset reviews is set forth in the Department's Policy Bulletin 98.3—*Policies Regarding the Conduct of Five-year ("Sunset") Reviews of Antidumping and Countervailing Duty Orders*; Policy Bulletin, 63 FR 18871 (April 16, 1998) ("Sunset Policy Bulletin").

Background

On April 7, 2000, the Department of Commerce ("the Department") published in the **Federal Register** a notice of preliminary results of the full sunset review of the antidumping duty order on corrosion-resistant carbon steel flat products from Canada (65 FR 18286) pursuant to section 751(c) of the Tariff Act of 1930, as amended ("the Act"). In our preliminary results, we found that revocation of the order would likely result in continuation or recurrence of dumping with net margins of 11.71 percent for Dofasco, Inc. ("Dofasco"), 22.70 percent for Stelco, Inc. ("Stelco") and 18.71 percent for "all others."

On April 26, 2000, Bethlehem Steel Corporation, U.S. Steel Group, a unit of USX Corporation, Ispat Inland, Inc., and LTV Steel Company, Inc. (collectively "domestic interested parties") requested a hearing in the sunset review. On May 3, 2000, Dofasco also requested a hearing.

On May 8, 2000, within the deadline specified in 19 CFR 351.209(c)(1)(i), we received a case brief on behalf of Dofasco and Sorevco Inc., (collectively "Dofasco"). On May 12, 2000, domestic interested parties requested an extension of the deadline for filing rebuttal briefs; on May 15, 2000, the Department granted an extension for domestic interested parties to file a rebuttal brief until May 18, 2000. We received a case brief from domestic interested parties on May 18, 2000. On June 14, 2000, the Department held a public hearing.

On June 19, 2000, in response to the Department's request for further clarification of information on U.S. shipments of subject merchandise,¹ domestic interested parties submitted the underlying calculations to the data submitted in their October 15, 1999, rebuttal. On June 27, 2000, Dofasco submitted comments on domestic interested parties' underlying calculations.

Scope of Review

The scope of this order includes flat-rolled carbon steel products, of

rectangular shape, either clad, plated, or coated with corrosion-resistant metals such as zinc, aluminum, or zinc-, aluminum-, nickel- or iron-based alloys, whether or not corrugated or painted, varnished or coated with plastics or other nonmetallic substances in addition to the metallic coating, in coils (whether or not in successively superimposed layers) and of a width of 0.5 inch or greater, or in straight lengths which, if of a thickness less than 4.75 millimeters, are of a width of 0.5 inch or greater and which measures at least 10 times the thickness or if of a thickness of 4.75 millimeters or more are of a width which exceeds 150 millimeters and measures at least twice the thickness, as currently classifiable in the Harmonized Tariff Schedule ("HTS") under item numbers: 7210.30.0030, 7210.30.0060, 7210.41.0000, 7210.49.0030, 7210.49.0090, 7210.61.0000, 7210.69.0000, 7210.70.6030, 7210.70.6060, 7210.70.6090, 7210.90.1000, 7210.90.6000, 7210.90.9000, 7212.20.0000, 7212.30.1030, 7212.30.1090, 7212.30.3000, 7212.30.5000, 7212.40.1000, 7212.40.5000, 7212.50.0000, 7212.60.0000, 7215.90.1000, 7215.90.5000, 7217.20.1500, 7217.30.1530, 7217.30.1560, 7217.90.1000, 7217.90.5030, 7217.90.5060, and 7217.90.5090. Included in the scope are flat-rolled products of nonrectangular cross-section where such cross-section is achieved subsequent to the rolling process (*i.e.*, products which have been "worked after rolling")—for example, products which have been bevelled or rounded at the edges. Excluded from the scope are flat-rolled steel products either plated or coated with tin, lead, chromium, chromium oxides, both tin and lead ("terne plate"), or both chromium and chromium oxides ("tin-free steel"), whether or not painted, varnished or coated with plastics or other nonmetallic substances in addition to the metallic coating. Also excluded are clad products in straight lengths of 0.1875 inch or more in composite thickness and of a width which exceeds 150 millimeters and measures at least twice the thickness. Additionally, excluded from the scope are certain clad stainless flat-rolled products, which are three-layered corrosion-resistant carbon steel flat-rolled products less than 4.75 millimeters in composite thickness that consist of a carbon steel flat-rolled product clad on both sides with stainless steel in a 20–60–20 percent ratio.

¹ See June 20, 2000, Memo to File: Sunset Review of Certain Corrosion-Resistant Carbon Steel Flat Products from Canada: Request for Clarification of Information on U.S. Imports.
